hour. The printing plant of the Evening Report, one of Lebanon's daily

Mount Joy Twp. Supervisors Told If Stretch Thru Rheems Is Too Costly To Maintain

They Can Have It Vacated

We are reprinting an item from one of our exchanges headed "New State of enforcements, during which Roads In Our County Listed." To read it one is lead to believe that our owners and operators of uninspeccounty is greatly profiting by the State's action and that the townships can ted vehicles will be subject to reduce their road tax. Now read the other side.

It has been brought to our attention that approximately $4\frac{1}{2}$ miles of road s being taken over in Mount Joy township. Naturally one would think cial vehicles have not yet been these are all mud roads but far be it from such.

Only last Summer a stretch of 1.7 miles of road was rebuilt of water wound macadam. This is one of the sections of road taken by the state without further delay in order to and will require very little repairs for some time.

But here's the rub. According to a new law passed last year, the state official State inspection stations. has authority to take over or turn back to the township, any road or por tion of a road as it sees lt.

When Mount Joy township was notified of the State's intention to take wer $4\frac{1}{2}$ miles of its roads, it also informed the supervisors that it is turning back to them that portion of the old Harrisburg pike from the culvert west of Florin, through Rheems and Anchor as far west as the foot of the hill just east of Elizabethtown. This stretch of road turned back is almost as long as the roads the state is taking over.

But even worse than that the State informed the Mount Joy Township supervisors that IF THIS STRETCH OF ROAD TURNED BACK TO LANCASTER MUSICIANS GAVE THEM IS TOO COSTLY TO MAINTAIN. THEY CAN GET UP A PETI-TION TO HAVE IT VACATED.

Rheems and Anchor were hit hard enough when the road was relocated ED BY GLANCING AT THIS but now the state would even make it much worse by leaving them without a road at all. Can you imagine that stretch of concrete road abandoned?

This is one of the most foolish suggestions we have heard of for some

What would the Conestoga Transportation Company do if this road were abandoned? Its busses have been using this highway regularly and that being the case and since the road is again the property of the township, it will be up to the supervisors to keep it clear of snow and cinder those hills and curves all winter.

That's the way the state is assisting the townships in this vicinity to reduce their road tax.

MAN AND BRICKS FALL ANOTHER ACCIDENT ON MARIETTA STREET CURVE WHEN SCAFFOLD COLLAPSED

Not all the bricks were going When the new traffic law goes into up at the new movie theatre last the Marietta street curve at the Richard Ashly, followed the canweek. Between four and five ton Eberle cemetery at two o'clock on of them came down and with them Sunday morning when a young went Clyde "Indiana" Miller, when man failed too negotiate the turn an overloaded scaffold, about 18 and crashed into a light pole of
