**EDITORIAL**

It is beginning to look as though the laboring class want to run business. Members of the C. I. C. took charge of all the power plants in the Saginaw Valley, Mich., ejecting the managers.

**FAIRNESS—OR CONFISCATION?**

The government's left hand knows not what its right hand doeth! That seems to be a pertinent proverb in the light of conflicting testimony on the policy that should actuate the TVA in purchasing private electric properties in the Southeast.

Some autoist accidentally killed a deer on the river road west of Marietta one night last week and drove off without reporting it. Now the game protector there is trying to find out who did it in order to fine him \$100.

Right here we want to give that game protector a tip. A lot of fellows deliberately, not accidentally, shot twenty-two deer on the State turkey farm in Juniata County several weeks ago. The State Game commission can give you the names of all the men so why not collect \$2,200.

**GREATEST DISTRIBUTION OF WEALTH**

It isn't widely known—but one American industry "primed the national pump" to the tune of \$3,000,000,000 last year. And it didn't do it by going into debt, or exploiting the taxpayer.

That industry was legal reserve life insurance. And of that \$3,000,000,000 60 per cent was paid to living policyholders, and only 40 per cent to beneficiaries. Since 1930, the companies have paid out the staggering total of \$21,000,000,000.

The greatest distributor of wealth the world has ever known—that's life insurance. And it didn't take a cent from the taxpayers to do it. Instead, it paid millions in taxes.

**LIFE BEGINS AT FORTY**

Seventeen of the presidents of 28 gilt-edge corporations of the United States are in the sixties. Four are in the seventies, two in the eighties, and five in the fifties.

Fifteen receive annual compensation exceeding \$100,000 a year. The smallest compensation reported is \$48,750, and the largest is \$303,816.

The youngest man in the group is W. S. Gifford, president of the American Telephone & Telegraph Co., the largest corporation. He is 53.

With four exceptions, the corporations paid dividends throughout the depression.

What does it mean? To Sales Management, the magazine that dug up the information, it means that for executives "life begins at forty," and that they are in their prime in the sixties.

Yet we've heard men say they can't get a job after they are forty.

**MONEY IN YOUR POCKET**

The insuring public is convinced that a rate differential between the safe driver and the driver who has accidents is the proper way to underwrite automobile liability risks. Hundreds of clippings of newspaper editorials, he added, received by the National Bureau since the Safe Driver Reward Plan was first announced, show that this plan "is the stuff a rating plan must be made of, if automobile liability insurance is to be in accord with what the public believes is right."

Under the Safe Driver Reward Plan, which has now gone into effect in the majority of states, car owners insured by any one of a large group of companies will receive a rebate of their premium at the end of the year if they are not involved in a reportable accident. Thus, the safe driver will pay less for his insurance protection, while the dangerous driver will pay a higher rate. As a result, every insured motorist is offered a definite, dollars-and-cents prize for operating his car safely and sanely.

It will be extremely interesting to watch the effect of this on the 1938 accident experience.

**NO HOLIDAY FOR DEATH**

Last year accidental deaths in the United States declined 4 per cent from 1936. But there's nothing in that to cause us to throw out our chests—Nature, not man, was the cause of the drop. The mild, cool summer, according to the National Safety Council, was responsible for almost all of the decline, inasmuch as heat deaths were 4,500 below normal.

In fields where man is the governing factor, the death and injury total, with the exception of home accidents, continued to rise. The greatest killer of all time, the automobile, claimed 4 per cent more victims than it did in 1936, for a total of 39,700. Occupational deaths climbed 6 per cent, to 19,000. The grand total of deaths from all accidental causes was 106,000—with 375,000 persons permanently injured and 9,400,

Brandt & Stehman, recently presented their employes with a very liberal bonus.

The frogs along the local creeks have tuned up their instruments and every evening are giving their choicest orchestra selections.

The income from a farm that was bought in 1916 by one of the court house officials, costing him about \$47,000 was over \$21,000 in 1917, of which about \$15,000 was tobacco crop income.

Just because the Quarryville Council failed to promptly renew its light contract, the town was in darkness 2 nights.

E. M. Barto, Supt. of Mt. Joy cemetery was so unfortunate as to lose his watch.

H. E. Hauer, markets: Butter, 44c; Eggs, 31; Lard, 28c.

Dr. E. W. Garber was appointed Poultry Commissioner for this section by Gov. Brumbaugh.

President Stauffer, of Boro council, reported that the flag on our municipal building is badly "tattered and torn," and should be replaced by a new one.

The aerial mail service which will be in operation May 15 will give us quick service in the eastern part of the county.

Morris Levey, at Salunga, closed their tobacco warehouse for the 1917 crop.

The property at Union Square, for more than half a century known as the Union Square Hotel, was sold at private sale. J. S. Pyle who with his partner E. H. Witmer will have frequent sales of live stock, there, but as a hotel, it is a thing of the past.

A Washington Boro resident was fined \$10 for killing a coon out of season.

**ANCIENT PALESTINE GETS RELIGION FROM AMERICA**

ST. LOUIS—(Special)—Odd though it seems, youthful America is preaching the gospel and converting souls in ancient Palestine, birthplace of Christianity.

This anomaly is reported by Walter A. Maier, Ph. D., of Concordian Seminary here, who has received a number of letters recently relating how Dr. Maier's coast-to-coast Lutheran Hour broadcasts every Sunday afternoon are performing an unexpected missionary service among the Arabic-speaking people of Palestine and Transjordan.

Not that the broadcasts are heard in these distant lands, but an enterprising young native Arabian pastor, John Joseph Bahuth, located in Jerusalem, translates Dr. Maier's sermons into Arabic and distributes them widely among the Arabs in Palestine and Transjordan. As a result, Dr. Maier has received letters revealing a deep interest in the Christian gospel.

Plans are now being made to distribute the Arabic translations among Arabic speaking traders in Africa.

Dr. Maier speaks each Sunday afternoon over 62 stations of the

000, 8 per cent of the whole population, temporarily injured. The direct cost of these accidents is estimated to have reached the staggering total of \$3,700,000,000.

There is 1937's accident record, expressed in cold figures. It is bad enough looked at that way. It is infinitely worse if you regard it in terms of human values—mutilated bodies, widowed mothers, orphaned children, blinded and crippled individuals, gore and carnage. And perhaps the most sombre reflection of all is that 90 per cent of the accidents were in all probability easily preventable, somebody was careless, somebody was ignorant, somebody took a chance, and there was no holiday for death.

Will 1938 repeat this grisly toll of life, health and dollars? It's up to us, all of us, to answer that question through our actions.

**33 Years Ago**

warrants Monday morning and arrested Winfield Zerphey, 35, of town; Omar Kramer, twenty-five, Manheim; Russel Schatz, thirty-five, Marietta; all employes of the shoe company, prosecuted before a local justice and charged with larceny and receiving stolen goods. All charges were preferred by the Gerberich Payne Shoe Company.

Zerphey posted \$1,000 bail and was released for a hearing Tuesday afternoon.

Kramer and Schatz were committed to the county prison to await a hearing.

All the arrests were the outgrowth of a large amount of leather goods disappearing from the local shoe factory.

About \$35 worth of goods were recovered from the car. Monday Zerphey recovered \$100 worth of goods out of town.

**Held For Court**

The five young men implicated were given a hearing here Tuesday afternoon. **A LOT OF CAR  
 for a VERY LOW PRICE**

The Ford effort to make your dollars buy a constantly better car is well illustrated in the Standard Ford V-8.

It has all the basic Ford advantages. It is built on the same chassis as the De Luxe Ford V-8. It gives you a choice of smooth 85-horsepower or 60-horsepower V-8 engines. But it sells at low prices, and includes bumpers, spare tire, cigar lighter, twin horns and other equipment that make it a still bigger bargain.

With the hefty 60-horsepower engine, the Standard Ford V-8 is priced especially low and gives the greatest gas mileage in Ford history. Hundreds of owners report averages of 22 to 27 miles a gallon—or even more.

Your pocketbook will approve of the Standard Ford in every way. And so will you when you drive it!
