## EDITORIAL

We presume we'll see more about that Chinese-Japanese war in the dailies since the "big" war has been called off, for the present at least.

In spite of all the modern safety and theft devices on automobiles, nearly 500 were stolen in Pennsylvania during August and 202 were recovered. Of course some were stolen because the owners carelessly failed to remove their keys. It pays to be careful.

Another illustration of what can be accomplished by nerve, perseverance or in the words of our late County Superintendent M. J. Brecht, "stick-to-it-iveness" may be seen in the Chicago Cubs, who just won the National League pennant. One month ago they were so far behind the Pittsburgh Pirates that everybody but the Cubs conceded them the pennant. Even the hotels at Pittsburgh began selling reservations for the World's Series.

Permit the expression which best illustrates the Cubs determination—they had the GUTS.

The Supreme Court in session at Pittsburgh gave the New Dealers another good stiff kick in the pants Monday. Two of the hurriedly passed Earle laws were nullified and Attorney General Guy Bard was barred from participating in the hearing and this isn't 'hearsay' either.

This decision paves the way for the Grand Jury to resume the probe into the graft charges. When this starts you'll hear some entirely different questions asked witnesses from the ones the present "investigators" are meekly trying NOT to bring out any real evidence.

### FARM RELIEF FAILS AGAIN

Paul Mallon expressed the view of most informed commentators when he wrote in a recent column: "The Farm act . . . is becoming so evident that many of Mr. Wallace's men will now concede privately they do not see how the situation can be worked out next year on the same basis."

This has been the unhappy experience of most farm acts of the past, no matter how sincerely inspired or efficiently administered. Time has again proven the old adage that "self-help is the best help," and that goes for the farmer as well as everyone else. If agriculture looks to political panaceas for permanent benefits, it will be foredoomed to disappointment. Real farm progress is coming from activities instigated and controlled by the farmers themselves, such as non-political farm marketing cooperatives which apply sound business principles to farm operation.

### THE "BIGGEST" BUSINESS—TAX COLLECTING

Tax collecting has become a big business in this country. According to a recent study, the national tax bill has increased 76 per cent in the past six years. Almost 24 per cent of our total national income is today consumed by branches of government. And, believe it or not, there are more than 175,369 taxing bodies in the United States, with an army of 3,000,000 employees.

Needless to say, this legion of tax gatherers doesn't exist simply to mulct the business or the individual with large means, whose salary or income is in the upper income tax brackets. It exists primarily to tax the little fellow—and to tax him deviously, through hidden, indirect levies assessed against every necessity of life. When you pay a \$3 electric bill, you are paying 52 cents in taxes—and the fact that the electric company, instead of you, actually hands the money over to the tax collector doesn't lessen the burden. When you buy a 25-cent tube of toothpaste, you pay six cents in taxes. When you buy a 10-cent loaf of bread you pay 2½ cents in taxes. When you pay a \$40 rent bill, you pay \$10 in taxes. So it goes down an endless list.

What it all amounts to is this: If you earn \$18 a week and own no taxable property, you still pay \$112 a year—12 per cent of your hard-earned wages—in taxes. If you are a white-collar worker with a \$150 salary, you pay \$220 a year in taxes—which means, to put it another way, that you work a month and a half for government.

Get over the delusion that the rich pay the tax bill. There aren't enough rich, even if every dime they earned were confiscated by government. In 1937, 70 per cent of all tax receipts represented hidden taxes. These are the taxes you pay every day of your life—when you eat a meal, ride in your automobile, go to a movie, buy a shirt and a necktie, or do anything else. More and more of them are being levied each year. So never forget that taxation is your own personal problem, on whose reasonable solution your own welfare is vitally dependent.
