## THE EDITOR'S VOICE

According to our way of thinking its going to be tough for Americans to go hungry. So many of them have been used to biting off more than they could chew for years.

When rationing of tires, gas and no chance of buying a new car, many folks decided to take up bicycling as a savings. Even the bike is so hard to get nowadays that it wouldn't surprise us to see them resort to scooters.

Can you picture some of the men and women here go down Main Street on a scooter?

### WOMEN GET A BREAK

President Roosevelt abandoned for the present all plans to register and mobilize women for work in war industries—but the War Department called on Congress for immediate creation of a feminine corps of 150,000 soldierettes to do non-combatant service with the Army "right up at the battlefronts."

There is a fair chance that a forced savings plan will be adopted by Congress this year.

Under the plan, five or more per cent of each worker's check would be taken by the government and deposited in bonds redeemable after the war.

It is also possible that some form of forced savings may be applied to industrial profits. In other words, a percentage of industrial net profits may be placed in bonds.

The purpose of all this is to siphon off what the economists call excess purchasing power. The less we have to spend, they reason, the smaller the danger of inflation.

### WATCH IT!

With more cyclists on open roads and highways there may arise a need for traffic laws to cover in order to avoid confusion and peril. The threatening avalanche of these 'bikes' may cause a new transportation problem. If any of you have ever been where workers in factories for the most part ride bicycles, will understand the need for some special thinking on this line. With narrow streets and crowded highways we might need some disciplining along the line to make the danger less. Canada has been using bicycles in many of her factories and the out-pouring of the workers during the rush hour is something to see! We may have to take up this problem with our own motorist and eventually adjust rules for cyclists to obey.

### HER GROWING

There will be added women around Mount Joy who will grow herbs in their gardens this year. With the amount of home canning and the increased supply of vegetables that will be found on our local boards this summer, now is the time to grow herbs. In many cases the flavoring of herbs adds to our appreciation of certain meat and vegetable dishes. Herb growing was more popular in years gone by but is coming back to today's gardens in increasing favor. There might be some folks who will lavish care on certain weeds, desirable weeds that are needed for the manufacture of medicine. Comes the shortage of drugs and experts need to look to woods and fields for Jimson weed, poison hemlock, foxglove, nightshade. Pharmacies need them in some of their forms such as roots or leaves or juices. These might be profit in growing some of these valuable weeds since the supply is limited and the demand is increased.

### WILD RUMORS

A subscriber repeats a rumor which she overheard and which takes on the appearance of being in the 'tall story' class. It was an alleged breach in the way the Red Cross had performed a duty, of unworthy practice it appeared to be. Now there have always been rumors against organizations and the more important the organization the more varied the rumors. The reports are spread by the 'antis' and usually embroidered as

they pass from mouth to mouth. Worthy church groups in every town of every size have suffered just the same and most stories are as foolish and as unwarranted. Perhaps someone remarks of the enormous salaries that officials in the organization receive, of warehouses where sweaters are rotting away, of goods being sold to the enemy or to our own soldiers—some bringing \$3 apiece! It appears that such stories are more widespread during a roll call when the organization is trying to raise money to carry on its work. Mark this down—the Red Cross sells nothing and if you grab hold of a fair sized rumor that takes on the proportions of organized propaganda, put by our country's enemies perhaps, report the matter to Washington and the FBI will investigate and successfully place such slanderous reports.

War Chest. As all of us know, it is almost impossible for individuals and others to make thorough investigation except at considerable expense in order to know whether the agency soliciting is a worthy one. By making this one donation you will be able to avoid donations which may not be for a worthy cause. We know that the citizens of this district will do their part in this drive as well as they have in the other drives.

The United War Chest will include the following agencies:

Lancaster County Civilian Defense (Emergency Medical equipment, etc.) United Service Organization (USO), Greek Relief, United China Relief, Russian Relief, United Jewish Appeal.

Each of these agencies has made its needs known and a careful investigation has been made and their budgets carefully considered.

The demands of the United War are not great. They are as low as they possibly can be but they must be met and they will be met, won't they, in Lancaster County.

What Are These Six Causes?

1. Lancaster County Emergency Medical Equipment ..... \$7,000

To provide beds and cots for the use of Lancaster Countians who might be ill, or injured in air raids or evacuations. There is not enough money available from any other source for this badly needed additional emergency equipment.

2. United Service Organization (USO) ..... \$50,000

To equip and operate the more than 500 recreational centers for the boys in the services—to provide camp entertainment—to serve troops in transit and at stopovers—and to collect and distribute books.

(Over a million books distributed so far in the Victory Book Campaign.) Participating agencies are the Y. M. C. A., the Y. W. C. A., the National Catholic Community Service, the Jewish Welfare Board, the Salvation Army, and the National Travelers Aid Association.

3. Greek War Relief ..... \$6,000

To provide food, medical supplies, and clothing to evacuated Greek civilians as well as those in the occupied homeland. Shipments are permitted from Turkey and are administered by the Greek War Relief Association.

4. United China Relief ..... \$6,000

To provide medical supplies and food for China's teeming civilian population, so vitally in need after ten years of merciless war.

5. Russian War Relief ..... \$6,000

To provide medical supplies, clothing, and civilian aid, so urgently necessary to the gallant people of the "scorched earth."

6. United Jewish Appeal ..... \$26,400

To provide aid, comfort, and training, as well as food, clothing, and medical supplies to international Jewry. Participants are the American Jewish Joint Distributing Committee, Inc., the National Refugee Service, Inc., and the United Palestine Appeal. Funds will be used to facilitate immigration, colonization, training, resettlement, and employment of evacuation and homeless Jews.

Now that you've read the list you can surely understand why all of us must help. Whoever you are, whatever you do, you have vital, direct responsibility in this great international charity. It begins at home, right here in Lancaster County and it extends through, and beyond America to the war-weary peoples of other nations.

It's America's helping hand to China—to Greece—to Russia—to Jewry—to those staunch peoples who have fought and are winning this war from their very doorsteps. Give, Lancaster County, give!

Your contribution can be made entirely to any one of the agencies specified if you wish. It is deductible charity for income tax purposes.

Solicitors will make a door to door canvass during the week beginning May 11th. You will be given a numbered receipt. Also window sticker showing that you are a contributor. During all such drives it is impossible to contact each per-

son. If a solicitor fails to contact you, your contribution may be given to any of the following persons or places:

J. S. Barnhart, 331 W. Donegal St. Thomas Brown, Jr., Poplar St. Clyde Eshleman, E. Main St. Ralph Eshleman, 21 W. Donegal St. Roscoe Hassinger, 140 N. Market St. Simon Nissley, 228 E. Main St. Lester Roberts, 285 Marietta St. W. L. Tyndall, 82 E. Main St.

his was reduced to 35 cents.

## DEER IN YARDS OF MARIETTA HOMES

A friendly deer has invaded Marietta and is entertaining residents along Walnut street.

Mrs. Charles Beyers said she watched the deer half an hour as it leaped back and forth across the fences. The animal is believed to have come from the nearby hills.
