

OFFICIAL U. S. TREASURY WAR BOND QUOTAS FOR JULY

The above map of Pennsylvania shows the War Bond quotas, by counties, for the month of July, 1942. Total War Bond quota for the state is \$81,050,000. With the National quota total placed at a billion dollars, the nation goes into high gear in its support of the War financing and to give our fighting forces adequate implements of war which will bring ultimate Victory. American Soldiers, Sailors, Marines and Airmen are on every front. They are giving 100 percent for their country. What are we doing here on the home front? Are we lending at least ten percent of income to help them? It's very little. But to fight this war successfully our country needs a billion dollars in War Bonds every month from us—the People. Let's Go, America.

Seaport of King Solomon Archeology now has substantiated the broad historical framework of the Old Testament narrative from the time of Abraham, according to Dr. Robert Engberg, director of the American School for Oriental Research at Jerusalem. He cites the seaport of King Solomon, mentioned many times in the Bible. Excavations seem to prove that King Solomon was an important iron and copper magnate of the ancient world. Dr. Engberg pointed out in a University of Chicago lecture that in the year 2000 B. C. Egyptians were familiar with the art of extracting the square root of numbers. They even appear to have known how to obtain the area of a circle by squaring eight ninths of the diameter. The resulting error from this method he declared, is only about half of 1 per cent. The pig excavations prove, was domesticated long before the horse and the latter long before the camel.

Quiet and Peace in Penna. Mountains

Framed by trees, one catches this glimpse of the quietness and peace of the Pennsylvania mountains. Here a man relaxes, even if but for a brief time, from the exacting duties of the war effort.

Flash! Flash! Brief Summary of War News

The Russians seem unable to stop the steam-roller German offensive from Kursk. U. S. and Chinese fliers bagged 86 Jap planes in several days near Canton, south China. U. S. guns had little difficulty in beating off a big Nazi air attack on the Arctic port of Murmansk.

Our FBI succeeded in smashing a spy ring which was fueling U-boats in the Caribbean area. After continuous retreat as an object, the British successfully attacked Rommel's army in Egypt from the rear.

In battles up and down the Russian front, 380 German planes were shot down while the Red Airmen lost 137. American submarine commanders celebrated the Fourth of July by sinking three Jap destroyers and badly damaged a fourth in the Western Aleutian Islands.

A vote by the House of Commons in London on whether or not Prime Minister Churchill should be ousted resulted in a vote of 475 to 25 to leave him "as is."

After picking up 100 men adrift in life boats two previous sinkings, a big American merchantman was sunk off the northern coast of South America. Many lives were lost.

The Germans declare that the total Nazi losses on the Russian front from June 22, 1941 to June 21, the first year of the invasion, were 271,612 officers and men killed and 65,730 missing, a total of 337,342.

A report from Cairo says—During the last 24 hours, between 600 and 700 dust-caked and dejected German soldiers have crossed the El Alamein lines with their hands raised in surrender. They were quoted as saying they were tired and "completely fed up."

A dispatch from Cairo, Egypt says Royal Air Force onslaught knocked down 42 Axis planes in two days. At the same time the New Zealand infantry captured 22 German tanks and 40 cannons, thereby stalling Rommel's "parade."

Russians admit reverses in the Belgorod and Volchansk. The Soviet radio broadcast that the United Nations backed by 50,000,000 fighting men, have decided to open a second front in Europe and urged the German people to overthrow Hitler and his gang, try and terminate the war quickly and spare the lives of millions of men.

The first battlefield encountered between the United States and German armies occurred in the African desert on June 12. Only a small force was engaged and resulted in a victory for us. Nine German tanks were demolished and we came out of the battle almost unscratched.

One thing about this time of year is that you have so many more mosquitoes to annoy you than you do politicians in the fall. Men are dying for the Four Freedoms. The least we can do here at home is to buy War Bonds—10% for War Bonds, every pay day.

addison's Disease Curb Grafting the adrenal glands of sheep into the abdomens of victims of Addison's disease is reported to have resulted in immediate improvement. Without prompt treatment this disease, physicians say, usually proves fatal. Muscles become extremely weak and the skin of the entire body takes on a deep bronze hue. It was known previously that hypodermic injections of adrenal extracts, when given promptly, have kept patients alive for several years. The gland-grafting operations, it is said, offer some hope for more positive and lasting benefits. In more advanced cases, however, it was found necessary to repeat the "transplant" surgery after six months.
