Brief Summary
—of—
War News

Aug. 21—American forces last night were officially credited with capture of the three Solomon islands on which they landed two weeks ago, in a Navy communique which said that U. S. Marines were mopping up the remnants of the Japanese defenders. The islands were believed to be Tulagi, Florida and Guadalcanal.

Aug. 19—Chinese troops drove the Japs from a second major city in Kiangsi Province—Kwangtung—and pursued the foe eastward.

Aug. 20—Reinforced German troops drove to within 40 miles northwest of Stalingrad, where they held a precarious bridgehead on the east bank of the Don.

Aug. 21 United States Marines attacked Makin Island in the Jap-held Gilbert group on Aug. 17, Admiral Nimitz, of the Pacific Fleet, and destroyed installations at the enemy seaplane base there.

Aug. 21—Eleven U. S. Flying Fortresses battled 25 German Focke-Wulf fighters over the North Sea and shot down six while losing none of their own. One U. S. bomber limped home with two motors gone, its co-pilot dead and pilot wounded. Russian planes raided Warsaw and other Nazi-held cities in Poland.

Aug. 21—Russian troops wiped out Nazi tank forces crossing the Don above Stalingrad and took the initiative at four sectors on a 400-mile front from Bryansk to Lake Ilmen in the north, but gave ground again in the Caucasus.

American soldiers on the three captured Solomon Islands are now mopping up. They are hunting Japs who retreated into the jungles like Americans hunt rabbits.

Aug. 23—The arrival in Britain of the largest American convoy of the war, with vast quantities of war materials and crack fighting units was disclosed officially tonight.

Aug. 24—Three of the largest Axis-owned banks in Brazil, with assets of nearly \$35,000,000, were closed tonight by a war-time Presidential decree which also ordered the outright confiscation of 17 Axis vessels.

Aug. 24—The recapture of Linchow, formerly known as Fuchow, second largest Japanese base in Kiangsi Province, was announced by the Chinese High command.

Aug. 25—In a 50-mile advance down the Caucasus railway, the Germans early today had smashed their way to the gates of the vital Grozny oil fields. Two other drives above and below Stalingrad made that city's peril critical as panzer columns surged across the Don River in force only 40 miles to the north. The southern arm of the pincers threatened to by-pass the industrial centre in its thrust for the Volga.

Aug. 25—A dozen U. S. Flying Fortresses carried out the fourth American daylight raid on France in the last eight days, blasting shipyard at Le Trait, near Rouen. All the bombers returned. The attack coincided with a vigorous protest from Vichy against the U. S. raid on Rouen a week ago.

Aug. 25—Specifically authorizing "deviation from existing law," Adolf Hitler made the edicts of the Nazi Party Germany's sole basis of justice, and appointed Dr. Otto G. Thierack as Minister of Justice.

Aug. 26—A major new sea-air battle raged off the Solomon Islands today as a Japanese war fleet, attacking from the northeast, attempting to recapture islands taken by the United States Marines less than two weeks ago.

The Japs failed to catch the American forces napping when they launched their attack. Sunday, however, and to date U. S. Flying Fortresses and carrier-based Navy planes have hit seven enemy warships including two carriers and a battleship, the Navy disclosed. Twenty-one Jap planes were destroyed. U. S. losses were not re-

vealed. Chinese troops continued their advance in Chekiang Province and attacked Jap-held Lishui, important base from which Japan might be bombed.

Aug. 27—United States bombers have damaged six more Japanese warships for a total of 13 in the second Battle of the Solomons, the Navy announced yesterday, and have forced withdrawal of the enemy fleet attacking Guadalcanal Island. Twelve more Japanese planes were shot down and the results of the continuing battle were officially termed "encouraging."

Aug. 27—Two Chinese armies closed in on Chuchien, site of the biggest airfield from which Japan can be bombed, and flames within the city indicated the Japanese were ready to yield it. Others of Chiang Kai-shek's troops laid siege to Lishui, another possible "Shangri-La" base.

Aug. 27—Russia discloses that a tremendous Soviet counterattack northwest of Moscow, intended to relieve the desperate situation at Stalingrad, had hurled back the Nazis 25 to 30 miles with 45,000 men killed and 14 divisions routed in 15 days. General Zhukov's armies were at the gates of Rzhev, German strong point.

Vessels sunk by enemy undersea raiders to date are 438. Fourteen million persons have been killed in war since 1931 when Japan began her invasion of Manchuria.

A total of 276 German planes were destroyed or badly damaged in one of the greatest air battles in history in our raid on Dieppe.

Just eight and one-half months after the sneak attack on Pearl Harbor, the United States has taken the first step and successfully too, to regain the vast and undigested Japanese conquests in Oceania.

Famous Silversmith Family
The Richardson family of Philadelphia silversmiths was active for a century and a quarter, beginning with Francis Richardson (1681-1729); his son, Joseph Sr. (1711-1784), and ending with his two grandsons, Joseph Jr. (1752-1831) and Nathaniel (1754-1827).

Joseph Richardson Sr. was a Quaker and like all members of that sect he was a great lover of peace, writes Raymond A. DeGo in "American Collector." To aid in cementing friendship between the colonies and the Indians the Quakers formed the Friendly Society for Propagating Peace with the Indians by Pacific Measures. To further this purpose, in 1757, they had silver medals made which were presented to friendly Indians. The die from which these medals were made was designed by Edward Duffield, famous Philadelphia clockmaker (1720-1801).
