

The Mount Joy Bulletin
 ESTABLISHED JUNE 1901
 Published Every Thursday at Mount Joy, Pa.
Jno. E. Schroll, Editor and Publisher
 Subscription Price \$1.50 Per Annum
 Six Months.....75 Cents Single Copies.....3 Cents
 Three Months.....40 Cents Sample Copies.....FREE
 The subscription lists of three other newspapers, the Mount Joy Star and News, the Landisville Vigil and the Florin News were merged with the Bulletin, which makes this paper's circulation practically double that of the average weekly.

HAPPENINGS
 - of -
LONG AGO

20 Years Ago
 Thieves entered the poultry house of Martin Spickler, Washington House and stole several hens.
 J. Barr Spangler, shot a large opossum in the wood shed.
 John Brubaker raised a sweet potato weighing 2 lbs. 2 ounces.
 Daniel Dinteman, East Donegal suffered from tobacco poisoning.
 John Bollock, Rapho Twp., suffered from poison caused by a sting of an insect in wheat.
 Booth's Dept. Store, held a three day "Get Acquainted" sale.
 Landisville high school held a festival for the benefit of the athletic fund.
 In the Marietta vicinity \$3.00 per day with board, is paid for corn cutters.
 Mr. Krouse, Harrisburg, was appointed overseer of the Cameron farms in Donegal.
 Mr. and Mrs. Harold Zimmerman was tendered a miscellaneous shower.
 Mr. Norman Tyson erected a 2-story brick dwelling.
 Misses Clara Greenawald, Laura Strickler, Ethel Shank and Ruth Eagle enrolled as nurses in training at the Lancaster General hospital.
 Mrs. John Goudie, East Donegal, was seriously injured, when she fell against an oil stove.
 John Horstlick received the ton of coal given at the firemen's festival here.
 Albert G. Walters, directed the raising of a large barn on the Rich farm at Marietta. Dinner was served to 65 men and women.
 Oliver Spickler was one of the official referees at the Atlantic City American shoot at Atlantic City.
 Mrs. Charlotte Smith, 80 yrs. old, Marietta, broke her collar bone, when she fell down a flight of stairs.
 Dedication services for the two fine machine guns, at Florin, was largely attended.

30 Years Ago
 George Morrett, new proprietor of the Farmers Inn, engaged the Foresters Band for the opening night.
 Martin B. Hiestand bought the 70 acre farm of E. S. Metzler, along the Manheim road.
 Jacob Brunner sold his fine brick dwelling to Mr. Hatfield of E'town.
 Geta Eender left for Panama where she wed Warren Hoffman, electrical engineer, of Lancaster.
 Mountville schools were closed several days, due to a diphtheria epidemic.
 The New Standard Hardware Works received an order for a 50-lid carload of food choppers to go to Australia.
 Martin Longenecker has gone to Cleveland, Ohio, where he has secured employment.
 Rev. Walter H. Egge, formerly of town was appointed Chaplain of the P.O.S. of A. of Penna.
 H. G. Lehman purchased the Mrs. Barbara Lehman 31 acre farm, near Mastersonville.
 R. J. Buzby, proprietor of the Theatre displayed the election returns at his Theatre, election night.
 The Foresters Band gave a concert at the Florin Inn.
 The Jacob Brunner family moved to Lancaster.
 Walter Root accepted a position at the Dill auto garage at Harrisburg.
 A horse on the Christian Umber farm near Gap, was stung so badly by bees that it died.
 John Hestetter, Rapho Twp., picked a bunch of grapes, upon which he got 92 grapes.
 Aaron D. Peters, Rapho Twp. grew a squash vine with 55 squashes thereon.
 Fredrick Smith, Bainbridge landed 65 fish the past week.
 Mary Smith was elected English instructor, at Wm. Penn High school at Harrisburg.

STRIKE AGAINST TEN MILE WALK DAILY
 The nine Mount Gretna children who went on strike against having to walk the five miles between their homes and the Cornwall High School, were still absent from classes today and no solution to their problem was in sight.
 Ration board officials have refused extra gasoline for the private cars ordinarily used to transport High School pupils to Cornwall, and the bus used for the elementary school children is not available to the High School boys and girls because carrying them was not included in the contract between the school board and the bus driver.

ELBERTA IS FAVORITE
 Among peaches the Elberta is the most widely known and used variety in the United States. It is grown throughout Pennsylvania and is the favorite dessert and canning peach, report specialists of the Pennsylvania State College. Large, oval-shaped, golden-yellow with red blush, Elberta has a fine flesh.
 Stimulate your business by advertising in the Bulletin.
 which is especially effective. The leaders quietly and continually organize sabotage of the Nazi war effort in French factories. They print little newspapers which are widely circulated and which bring to the enslaved French people news of the free world outside their borders. As part of this work, the French Underground has compiled an interesting "blacklist" of men assassination. All of the names on and women who are marked for that list belong to Frenchmen who have sold out Germany. And some of the names are famous: Petain; Weygand; Laval; Devain, the painter; Mistinguett, the celebrated music hall star; Carpentier, the pugilist; Maurice Chevalier, the movie actor; etc., etc. The Free French have pledged that not one of the men and women on that list will escape swift justice at the earliest possible time.
 To quote the President's warning once again, "The Nazis might have learned from the last war the impossibility of breaking men's spirits by terrorism... Frightfulness can never bring peace to Europe. It only sows the seeds of hatred which will one day bring fearful retribution." The patriots in the conquered, tortured nations are waiting with grim anticipation for that day.

THE EDITOR'S VOICE

We are often stuck for an answer now a days if a fellow comes along and asks us if we are happy.
 There are still married folks in this community who each think they got the best of the bargain, and brother, that's love!
 The Senate Finance committee unanimously rejected a Treasury proposal to raise \$6,500,000,000 additional revenues by superimposing a spending tax on present and anticipated revenues.
 The program, as presented, called for a ten percent levy on all of the money spent by single persons who earned more than \$500 a year and married persons with more than \$1,000 income.
 Now Mr. Secretary of the Treasury you must figure out another way of raising that \$4,500,000,000 yearly.
CONSTITUTION DAY
 Sept. 17, 1787, thirty-nine liberty-minded men put their now famous signatures to a document that grew, in name, fame, force and magnitude, until today its significance is the bulwark of the U. S. Such a paper was called the Constitution, and it stands as the charter of rights and liberties of the American people, a bill so important that each man and woman respects its principals and would fight to maintain them. We offer fervent thanks that these thirty-nine foresighted individuals made the move to interpret on paper the fibre and core of citizenship in this country. Democracy is assailed today as never before, we are told, and we are warned what would happen if democracy should lose its stand. We are aware of the republican government. On the anniversary of the Constitution we offer congratulations and praise to those ones of the past who fought to preserve it and succeeded, and we give our pledge to the generations of the future that we will do likewise.
"FAMILY COUNSELORS" TO INDUSTRY
 There is a great deal more to present-day banking than carefully examining applications for loans, and then approving or rejecting them, as the case may be.
 As Banking recently said, "The banks have become 'family counselors' to industrial clients in connection with defense orders and subcontracts. In other words, they are not only a source of funds, but a community source of information on such matters as amortization of plant, assignment of claims on government contracts, priorities procedure, etc."
 The credit controls imposed by the government as a wartime measure are immensely complicated. The average business man is apt to be confused and perplexed when he tries to figure out and how he can fit into the war picture. The banker is in a position to tell him—and to give him swift loan service if possible.
 This is true of both big and little banks. They've accepted the vast new responsibilities war has brought—and they're discharging them effectively.
SOLDIER'S CHRISTMAS BOXES
 We are passing on information given out by the postoffice department regarding the mailing of Christmas packages and cards to men in military service overseas and outside of continental United States, including Alaska. Such remembrances should be mailed between October 1 and November 1, to insure delivery. It is suggested that if you label your box as "Christmas Parcel" there will be a special effort made to give more prompt service. For those who are never careful in addressing a package there is a hint to recheck and see that the name, rank, army serial number, branch of service, organization, APO number of post-office and city through which package is to be sent, be legibly written or printed. It should not be necessary to remind you to put the return address in upper left hand corner. Wooden boxes arrive in better condition than corrugated ones. The public is urged to limit packages to six pounds and about the size of a shoebox. Protect sharp edges by careful wrapping. Perishable articles will be refused and inflammable ones as matches and lighter fluids are banned, as well as intoxicants. Officials say that not more than one package from the same person or in behalf of the same person, will be accepted for mailing to the same soldier in the same week. Bear all of this in mind when you do your Christmas shopping for your boys in service.
IT'S SCHOOL AGAIN
 We have entered that time of year when schools in and around here present an animated scene and when this community at large, is later to profit by the works of these young boys and girls, future citizens-to-be, taking up the task of preparing themselves for entering a competitive world where education plays a large role. Swing open the doors of the nation's schools, as in years past, welcoming the multitude of youngsters who are seeking a privilege denied many other boys and girls. Education is no small proposition in our land for practically one-fourth of the entire population is pursuing the practice in either the capacity of student or instructor. So why should it not be an impressive business?
 There aren't many children who return to school who seriously view their advantage. They don't consider that these are the happiest days of their life, until the latter years when they look back longingly on things that used to be. No words of ours will convince them that it is a great privilege unless they know of what is going on in other parts of a warring world where children are receiving a far different type of education! In our country we will suffer added hardships, we will assume more responsibility, deny ourselves necessities, in order to give our children this American right. We know that our country would suffer if the opportunity were denied the youth for they are the ones to be equipped to take on the administration of government and citizenship, later on. Through them will our future standard of living be set and through them will we reap our reward of sacrifice today. One of the first points of interest in any community, that edifice to which an American points with pride as part of the national plan, is the local schoolhouse.
 So come what will in the new future, what is offered in new hardship and struggle, we will all try to maintain this school system and rear our children to appreciate the fact that the happiest and most successful men are those who take advantage of an education.
 For sheer planned brutality, the Axis leaders have proven themselves comparable to the barbarians of ancient history. In World War I there was much talk of atrocities. But many of the atrocities were made out of whole cloth for purposes of propaganda. Real atrocities were scattered and relatively rare, and they were not done as a matter of governmental policy. In World War II, to the contrary, murder and rape and devastation are pursued by the Germans and the Japanese almost as a matter of routine—and that fact has been completely substantiated by reputable eye-witnesses. It makes little difference to the Gestapo whether a man is innocent or guilty, as the mass executions of hostages abundantly testifies. The Axis raids, at times, actually boasts of the wanton slaughter of non-combatants.
 President Roosevelt, during the course of a recent warning to Axis officials that retribution would come when the war ends, said, "The of executing scores of innocent hostages in reprisal for isolated attacks on Germans in countries temporarily under the Nazi heel, revolts a world already injured to suffering and brutality... Civilized people

Boro Council

(From page 1)
 ground he recently purchased as he contemplates the erection of a building thereon, on the eastern portion.
 Mr. Loraw reported as follows on the Roy Hoffman matter. The solicitor suggested having a survey of alley and place markers thereon. This was ordered.
 Mr. Keller, Water committee, reported flood gates will soon be repaired, purchased new battery for Diesel engine and was instructed to purchase a battery charger.
 Mr. Keller stated that the boro's watch dog, which for some time was an asset, has become a liability and recommended that inasmuch as the Government wants 25,000 dogs, the canine be given Uncle Sam. Chairman Loraw referred the matter to Mr. Eicherly with power to act.
 Mr. Eicherly, Property committee, reported the completion of painting the fire house.
 Mr. Newcomer, Light committee, reported "all lights burning except those which are out."
 Pumping Engineer Schatz reported pumping 1,929,000 gals. in 49 hours by Diesel and 4,162,000 gals. in 363 hours by turbine, a total of 6,091,000 gals. for August.
 Fire Chief Myers reported having answered one call in the boro the past month.
 Police Officer Zerpey reported these prosecutions: Drunk and disorderly 1, dog ordinance 4, reckless driving 1, speeding 3, stop sign 4, no operator's license 1, parking ticket 1. Miles traveled on cycle 857.
 Treasurer Nissley reported these balances: Boro, \$4,613.41; Water, \$2,998.55; Interest, old bonds, \$212; fire house bonds, 10 cents; Patterson coal fund, \$136.75; Strickler coal fund \$85.18.
 President Loraw reported that the building inspector was here and entire fire house building is okay with the exception of the emergency lighting system for which there is no provision. He was instructed to have same corrected.
 Secretary Bailey reported having received permission to purchase six new tires for the boro truck and presented three bids for same. At the suggestion of Mr. Keller, a special meeting will be held next Monday evening until which time the bidders will be asked to clarify their bids.
 There was a second reading of the peddlers' ordinance and each Councilman will receive a copy to study. Action on same will be taken at next Monday evening's special meeting.
 At the recommendation of Councilman Eicherly the solicitor prepared an ordinance prohibiting the carrying and use of fire arms in the boro park where damage has been done frequently. The ordinance was held over for one month.
 The secretary was instructed to call the State Highway Department's attention to the condition of our Main street.
 Chairman Loraw inquired if it was the desire of Council to donate the two cannon in the Eberle cemetery to the Scrap Drive. There was objection to this action for the reason that auto graveyards, so numerous throughout the country, should be consumed before war relics like cannon, iron fences, etc. No action.
 Bills to the amount of \$604.21 in the Boro and \$109.72 in the Water account were paid and Council adjourned until next Monday night.
AUTO CLUB CANCELS SEPTEMBER MEETING
 Because of gasoline and tire rationing the September meeting of the Lancaster Automobile Club scheduled for next Friday, was called off by the club directors at their monthly meeting.
 A committee was appointed to work out a budget for the club's charitable contributions for the year and report at the next meeting. The committee is comprised of Dr. W. Giles Hess, chairman; Dr. B. Scott Fritz, Lloyd L. Winter, F. L. Spence and H. C. Kreisle.
TIMBER IS NEEDED
 Shipyards, steel mills, and other war industries are needing more and more sawed timber, say foresters of the Pennsylvania State College. Farm timber owners can help by cutting and skidding their valuable timber, and hauling, if possible.
PREVENT RUGS SLIPPING
 Fasten old rubber jar rings to edges of small throw rugs to keep them from slipping on smooth polished floors. This also tends to keep them flat on the floor.
