It is the committee's desire that everybody shall receive his or her gift and if you know of any person who has not received theirs as yet, please inform us at your earliest convenience.

We are publishing with this article the names which appear on our files. If you discover upon reading the list of names, that we have omitted any person, the committee will consider it a favor if you will inform them of it. We can assure you that any omissions were not intentional. Remember, we want to include everybody, and we do not want anybody to be missed if they lived in the area mentioned above. As we said, we want everybody to receive their gift, but we

DO NOT NEED YOUR HELP IN SECURING ALL THE NAMES. Our neighboring towns are following the same procedure that we are. The Nation's steel mills are running out of scrap. They haven't enough on hand for even 30 days more. When this is gone they may have to shut down—for all new steel is 50% scrap. Get your scrap ready to turn in now!

WHOSE BOY WILL DIE BECAUSE YOU FAILED?

Or maybe you don't care!

We think you do. We feel that our whole community cares and is ready to help. Oh, yes, we've had our big round-up, but there's always more lying around if we just take the trouble to look for it.

Trouble? It shouldn't be any trouble to give something that will help our boys fight for our homes. That scrap wouldn't do you any good if we don't win! Even something that we deem valuable for something in the future, will be so much rubbish if we don't win. Every little bit helps!

Start looking around your place for scrap today. If you've got a son in the service, do it for him. Do it for the neighbor's boy—for those fine young chaps you just passed, out on the street.

Above all do it for your country... and do it now!

THINK about it as revenge—a way to get back at the scum who have attacked us. Or think about it as a little more protection for our fighting men—something you, yourself, can do to bring as many as possible home alive.

But think about it now—for the scrap in homes, farms and factories has got to be moving to stockpiles within the next few weeks or it may be too late!

Maybe you don't know what it means to have production fall off. Maybe you can't imagine how it feels to be hunkered down in a foxhole wishing for just one more clip of cartridges. Or to see the enemy rolling through your lines because you didn't have just a few more tanks.
