SCISSOR-TAIL FLY-CATCHER

A scissor-tail fly-catcher, which has seldom if ever been reported in this state before, was seen and identified Sunday at Rothsville. The bird, which is the size of a sparrow but has a tail at least 12 inches in length, was sighted by Martin Stapleton, Rothsville high school teacher.
Stapleton immediately got in touch with Barton L. Sharp, local ornithologist, who went to Rothsville and obtained several photographs of the bird. Sharp declared that he believes this to be the first time this bird has been sighted in the state. It is a native of the deep south, particularly Texas.

Ersatz Coffee

(From Page 1)
with coffee and used as a substitute for many years in the South, government spokesmen said current price ceiling regulations tend to limit its production. As a result, they said, it will be almost impossible to substitute chicory for coffee.
When coffee rationing begins on November 29, and all civilians 15 years old or over are limited to about a cup a day, the wholesalers are expecting to find ready markets for their substitutes. Most leading coffee distributors are said to be working on these ersatz materials.
Government officials said there is about a two-month supply of coffee on hand. Most of the coffee consumed in this country has come from Brazil.

SUCCEED THE BUZZARDS

The Buzzards, notorious horse thieves who operated in the Welsh Mountains in the southeastern end of the county for years, are succeeded by the Boleys, five of them including the mother of two. Chickens and turkeys are their specialty. All have been arrested.

FEED CHICKS WELL

If the fall and winter brooded chicks are to grow well, they must eat enough of a well-prepared mash mixture, say poultry specialists of the Pennsylvania State College. There must be plenty of feeding space and the equipment must be arranged so that the chicks will be encouraged to spend enough time in eating.

GROW ADAPTED PEAS

Extension demonstrations conducted by the Pennsylvania State College representatives have revealed the best varieties of peas. Ask your county agent before you order seed.

One problem the government hasn't attempted to overcome, is how to keep people from talking.

MAKE HOUSES WARM

Weather-stripping or tightly fitted storm doors and windows will help to curtail the loss of heat from houses. Agricultural engineers of the Pennsylvania State College recommend also the use of insulation over ceilings and attic walls. Be sure that the heating system is operating efficiently, too.

BICYCLE GIVEN AWAY THE NIGHT BEFORE CHRISTMAS

A NOTE OF EXPLANATION

The Bicycle we plan to give away was originally purchased to be given away last Christmas but due to the fact that the winner last year was Miss Beulah Wolgemuth, it was necessary that we buy an additional Girls Bike which of course left us with the original. Since this all took place before the freezing of Bicycles we are permitted to give this Bike away as in past years.

The Contest will be the same as for the past eleven years - - with each and every 50c purchase a coupon will be given and the holder of the lucky coupon will be the winner of the Bicycle. Of course, the more coupons you have the better your chances of winning.

As we have said in previous years, the object of this contest is to become better acquainted with the boys of our town and community.

If you will return this advertisement to us we will exchange it for a complimentary coupon, which incidentally may be the winner.

OUR STORE IS IN ITS HOLIDAY DRESS AND WE SHOW MANY FINE GIFTS FOR MEN AND BOYS.

THE MOST IMPORTANT ANNOUNCEMENT EVER MADE BY THE U. S. TREASURY DEPARTMENT

The 9 Billion Dollar Victory Loan Drive Is On!

This week the United States Government begins the task of borrowing nine billion dollars from accumulated savings and idle funds in the next several weeks as an essential part of winning the war more quickly and more completely.

During these critical weeks you probably will be visited by a representative of one of the securities firms or banks which are contributing their time and effort—without compensation of any kind—to the Victory Fund Committee. He will explain to you, for instance, the benefits that you can obtain from the new Victory 2½'s—available for the first time. Welcome him as a war worker when he calls. If you miss him, ask your banker or securities dealer for full particulars. There is no limit to the amount that you can purchase.

Today many American families are torn apart. Millions have left their homes or their jobs; thousands have given their lives and many more are prepared to do so.

But the government, your government, is not asking you to give anything to this Nine Billion Dollar Drive. It is asking you to lend it all of the money you can possibly invest in what is the safest investment in the world—at a good rate of interest.

When the Victory Fund representative calls, please remember this: it is in your own interest, as well as that of your country, to listen to him—and to invest.
