Mrs. Earl Zink, Mrs. Ray Myers, Mrs. William Weldon, Mrs. Harvey Newcomer, Mrs. Cora Eberle, Mrs. Anna Newcomer, Mrs. John Haines, Miss Ella Shirk, Miss Maggie Haines, Mrs. Charles Latchford, Mrs. Joseph Witmer, Mrs. Maggie Weiland, Mrs. John Booth, Mrs. Mary Bentzel, Mrs. Benj. Greenawalt, Mrs. Newpher Smeltzer, Mrs. Charles Barriek, Mrs. Perry Bates, Mrs. Harry Leedom, Mrs. E. Rank,

HIGH SCHOOL PRINCIPAL SPOKE TO OUR ROTARIANS
Well, sir, Tuesday was election day, and because it was Rotary day also, the Rotarians were at their usual haunt, full of the election spirit, but each with his own views and ideas to himself. That is one thing that makes Rotary what it is the world over. The subject of politics, religion or whatever your affiliation may be outside of Rotary, it is never discussed at the meetings. This is all left to the speakers, who might choose to talk on subjects of that nature.
Prof. Mervin Brandt, supervising principal of our public schools, who is well qualified to talk on either politics or war, spoke on both subjects.

There were several visiting Rotarians. F. S. Bucher of the Lancaster club, Luther Fetter and D. L. Ream of the Elizabethtown club and Howard Hershey of the Hershey club. Mr. E. S. Gerberich was also a visitor at the meeting.
The Elizabethtown School Board has okayed a school band.
Mrs. Martin Strickler, Mrs. Anna Longtreeker, Mrs. Walter Greiner, Mrs. John Beamenderfer, Miss Virginia Greenawalt, Mrs. Frank Musser, Mrs. Vesta Grissinger, Mrs. David Sternberger and Mrs. Elwood Zink.

HEY DAD— THAT'S JUNIOR'S HAT!

Like Junior's hat on Dad's head, the wiring systems of many American homes are too small for today's electrical needs! Even in homes built as late as ten years ago!

Why? Because homes, then, were wired only for simple, general lighting; and a toaster; an iron; a vacuum cleaner; and a percolator! And now, today, in those same homes, loaded on the same wiring, electricity has been put to countless new uses, bringing conveniences and labor-saving services then not even dreamed of, much less planned for!

How do you know whether your wiring system is overloaded?

If fuses blow or lights go dim as your refrigerator starts, or as you plug in another lamp or appliance, you need more circuits and larger wire!

And haven't you found, too, that you need many more Ready-boxes (electrical outlets) so that you can easily and quickly plug in all your modern appliances and lamps?

Make adequate wiring and sufficient Readyboxes your No. 1 postwar project... you'll need to if you are to enjoy all your present electrical conveniences plus the many more which tomorrow has in store for you!

MAKE IT HANDY TO PLUG IN!
