The subscription lists of three other newspapers, the Mount Joy Star and News, the Landisville Vigil and the Florin News were merged with the Bulletin, which makes this paper's circulation practically double that of the average weekly.

Entered at the Postoffice at Mount Joy, Pa., as second-class mail matter under the Act of March 3, 1879.

THE EDITOR'S VOICE

Many American's idea of Freedom it to disagree with anything that is said or done by anyone else.

It seems next to impossible for any publication to get so dull, readerless and uninteresting that nobody will advertise in it.

Make no mistake about it folks. It has been our experience that a great majority of the public prefers news that isn't fit to print.

CONCERNING VETERANS

We must not turn those in our fighting forces down. They have fought side by side to preserve the unity guaranteed by the Bill of Rights and our goal should be for a stronger nation than normally and spiritually and a free people not hindered by a spiritual and intellectual straight-jacket of racism.

REALLY GETTING SILLY

A farmer recently applying at his War Rationing Board for two gallons of kerosene to be used as an insecticide was asked to fill out an application blank asking, along with other things, what equipment was to be used. With great care he wrote: "One pan, one rag, and one stick to stir with."

WHOLL ANSWER FOR THAT?

It has just been disclosed that between 700,000 and 800,000 tons more sugar were consumed than was allotted by the War Food Administration last year. It is thought a considerable amount was used in making bootleg whiskey. An investigation is now being made but probably this is the last we'll ever hear about it.

"We would like some one to intelligently explain to us, just one sane reason for the opinion handed down by our Secretary of Labor and Industry.

Coal miners who went out on strike are eligible for unemployment compensation while off duty. We know of nothing that would encourage strikes more than just that.

SNEAKY WAY TO GET IT

Each congressman in the United States gets an annual salary of \$10,000. But there has been a lot of swanking that they should have a raise. Instead of coming right out and demanding same, a majority voted to give each member \$2,500 a year, tax free, as expense money. One member was right when he remarked "It was a sneaky way to get it."

TAKING THE KIDS' PART

At the last meeting of Council it was reported that boys insistently destroy the electric bulbs in Cove Park. One time they use them for .22 targets, next time they steal them. The authorities claim the guilty ones are bad boys.

Our impression is that they are NOT bad boys, just lads full of pep, desirous of doing something or in plain English - devilish. Those young minds are brilliant, they want to cope with and often out-guess older minds.

Instead of getting nasty, we feel certain it would bring better results if an effort were made to correct them. Those young minds crave to do things.

Take what the average person calls a bad boy, one who is almost continually getting into trouble. If that chap can think up mischievous ideas, that same brilliant mind will "think up" new ideas, business, etc. when developed or more fully matured.

The ordinarily bad kid of today is the genius or business man of tomorrow.

FOLLY BROUGHT HOME

Practically everyone is in the habit of blaming the war exclusively for the dangerous growth of government control over the people. The plain fact is that the country was headed for such control long before the war started. The war did no more than greatly speed up the trend.

The underlying cause of attempts to freeze prices, wages and other costs, can be described in four words—government spending beyond income. For years the peo-

ple have been warned of what this War has brought home the folly of kind of spending was leading to, annual government deficits without limit, in a way that will be remembered for many generations.

The war will not end the "emergency" of borrowed money. That is why some people who fear the consequences of excessive government borrowing, are turning to increasingly dictatorial government, in the hope of escaping the inevitable price of unlimited government borrowing.

It is a vicious circle—the more the government borrows, the more it must control. The only winners will be those who want to see American representative government and the freedom of the people destroyed. The only ones who can break the circle are the people themselves, by revolting against both peacetime borrowing and regulation.

POPPIES!

(From page 1)

The Mount Joy Girl Scouts will be on the streets every evening offering the poppies made by disabled veterans to the public. Veterans and civilians alike will be eager to wear the little red symbol of sacrifice. Members of The American Legion should be among the first to wear the badge as none know better than they the heroism of America's dead soldiers.

"Everyone who buys a poppy from an Girl Scout worker should know what becomes of the money he contributes and everyone should realize the ever-increasing need for these contributions as this second World War goes grimly on, taking its toll of lives and limbs.

"The sale is carried out entirely by volunteers, so that every penny that is received goes directly to the relief of disabled veterans and the families of the dead and disabled.

"These men and their families are the chief concern of the Legion and Auxiliary. It is for their sake that the volunteers are so eager to sell their poppies, with the hope that the dimes and dollars contributed will help to make their lot in life somewhat easier.

"The government spends billions of dollars to try to bring adequate aid to the disabled veterans and their families, but the Legion and Auxiliary are able to bring their personal attention and understanding to the many cases to which they bring relief. This is a big factor in rehabilitation and in keeping families together until the veteran is able to return home and help in their support.

"When you wear a poppy, you show the world that you are saluting the war's dead and doing your bit for the war's living victims."

All Ration Currency

(From Page 1)

tificates or stamps will be sent out. Young emphasizes the fact that no power is being taken from the Boards. They will retain the final say as to rationing of these commodities.

Emergency ration currency and furlough rations for service men and women will continue to be issued by the local Boards.

Every precaution has been taken to insure the safety of the ration currency in the mailing center. Armed guards will be on duty twenty-four hours a day.

Applicants were advised by the OPA to make applications ten days or two weeks before the expiration of the present rations. Every effort will be made to expedite the mailing of ration currency. OPA officials pointed out that in center already in operation, ration currency is issued the same day as the applications are received from local Boards. No applications will be handled at the center.

There will be 27 paid employees, all taken from the boards in the 10 counties in the district, so that the operation of this center will not mean any increase in the paid forces of the OPA.

Burned Mortgage

A mortgage-burning ceremony was held in conjunction with the regular meeting of the Landisville Fire Company in the Fire Hall on Monday evening. Following the invocation by the Rev. Daihl, pastor of the Church of God, a history of the fire company was given by J. Harry Grube, A. G. Breneman and Chief Wallace Miller. Mrs. Harry Greiner, president of the Ladies' Auxiliary, applied the match to the mortgage. The Dutch Band, East Hempfield, played several numbers and a number of the sitting members spoke.

The company was organized in 1922 and in 1928 a new Hahn fire engine was purchased at a cost of \$6,600. In 1928 a reservoir with a 5,000-gal capacity was built at a cost of \$1,475. The building lot for the fire house was purchased for \$2,000, and the building of the hall was completed by the spring of 1931 at a cost of \$20,000. On June 12, 1931, the company placed a \$12,000 mortgage on the building for the protection of the stockholders.

The Ladies' Auxiliary, the only one in the county that is organized to operate the engine and hose, has been very active in raising funds by holding suppers, having stands at country sales, bakes and by similar methods.

Refreshments were served by the social committee at the close of the ceremony.
