**First National's House-of-the-Month Club "THE HASTINGS" ... for August**

The Hastings is one of a new series of "minimum" houses designed to fit present building conditions and the immediate needs of the small family.

Although admirable for the narrow lot, it fully demonstrates that mere smallness in measurements need not doom a dwelling to unimaginative dullness, but that through skillful handling this all-on-one floor plan renders a deceptive openness that makes it appear far larger than it really is. Measuring but thirty feet in width, including the service porch. A study of the clever floor plan and delightful exterior shows that attractiveness was not sacrificed for either efficiency or economy.
