THE STATE'S TOMATO CROP EXCEEDS YAST YEARS
 More than twice as many tons of tomatoes for canning were produced this year in Pennsylvania than in 1946, the State Department of Agriculture announced following Federal-State surveys.
 Large amounts of sweet corn

and green lima beans for processing also were produced in truck crop areas of the State.
 The indicated production of processing tomatoes for 1947 is 238,000 tons compared with only 99,200 tons harvested for the same purpose in 1946.

 Dear Unknown Sender:
 My heartfelt thanks for the shirt you sent. It was a good thing for an old widow woman and I am not able to work, so as to get clothing for myself. Although you can hardly buy anything even with money. I am seventy years old and I was so happy to receive such a good shirt. If you can spare even a little package I would be so happy.
 Forgive me for daring to ask, but being so poor and needing clothing and everything.
 My heartfelt greetings and thanks.
 A Happy Thanksgiving Day. Our day is on Dec. 9, here in Finland.
 Please be so good as to answer so I'll know you received this letter.

 I received a combination xxxxx I found your address. Am a pupil of 17 years and am very tall.
 For many years my mother has not been able to buy anything for me.
 During the war dress could only be bought with a clothing card and now there is nothing to get; so I still had to wear my linen from my childhood, which grew much too small for me and at last thin and full of holes. So it is a great help for me that I have a good and firm combination which will warm me very well in winter. I thank you very, very much for it and greet you heartily.
