THE 1948 CHEVROLET

Newer! Smarter! Finer!

Here's the one to see! Come in and see it! The new Chevrolet for 1948 brings you new smartness of design, new color harmonies, new interior luxury—an even greater measure of BIG-CAR QUALITY AT LOWEST COST. And with all its greater value, Chevrolet's the lowest-price line in its field... the only car in its price class combining such Big-Car features as Body by Fisher, Valve-in-Head Engine, Unitized Knee-Action Ride and Positive Action Hydraulic Brakes. No wonder more people drive Chevrolets—and more people want Chevrolets—than any other make, according to official nation-wide registrations and seven independent nation-wide surveys.

CHEVROLET—and ONLY Chevrolet—is FIRST!

and 14, and will report on the meeting to the men of Donegal Presbytery at a supper meeting for all men of the Presbytery to be held at 6:45 p.m. Thursday, Feb. 26, at First Church, Lancaster. The Rev. Arthur Limouse, New York, general promotion chairman, will give the address.

In connection with men's work, the session encouraged the attendance of men of the church at Presbytery meetings and presented and passed the following resolution: that Donegal Presbytery hold one afternoon and night session each year, preferably in the Summer (July meeting) and that an invitation be extended to all elders and any key laymen of our churches to attend as visitors—only the duly elected commissioners to have a vote in any proceedings.

Home Report

The Presbyterian home report was given by the Rev. Guy D. Wingerd, and a special report on salaries of pastors was made by Elder Samuel C. Slaymaker. The moderator and stated clerk were directed to contact all churches on the salary subject and a committee of laymen was appointed to study the results of the report. Samuel C. Slaymaker and Martin K. Bare, both of Lancaster, were named to the committee.

Life Movement School

A report on the new Life Movement School was presented by the Rev. Mr. Dickson. He also reported on a meeting on the subject held in Harrisburg at which time plans for a training school for laymen of the Presbytery were made. The school will be conducted in First Church, Lancaster; First Church, York; Lower Chanceford Township High School, York county, and the Chestnut Level Church, the evenings of Feb. 5, 12, 19 and March 4, with three classes each evening. Each church was urged to organize a new Life committee to carry on the work which will include men, women and youth of the church.

The Bible Conference

The Westminster Bible Conference will be held at Chestnut Level June 13 to 20, with Church Fellowship Day on June 13. The Rev. William L. Everhart, Christiansa, was elected as moderator for sessions for the next three months, with the Rev. Edwin G. Sloan, Bethany Church, Lancaster, a vice-moderator. The next meeting will be held April 20, at Bethany Church. Welcome at the session was given by the pastor of the host church, the Rev. Thomas A. McGregor. The group was entertained at a dinner at Hostetter's with the Rotary Club of town as guests of the Mount Joy Church.

MANURE PROTECTS GRAIN

A light top dressing of manure put on winter grain when the ground is frozen helps protect the young plants, according to J. B. R. Dickey, extension agronomist of the Pennsylvania State College.

girl sent us. We received it through Preacher F. Kohr, Essen, Altenessen.

Through the war situation we are Refugees from our Fatherland, Poland in the East. All our possessions had to remain in Poland, and we had to begin anew, with no visible hope in sight for the immediate future.

You cannot think how grateful we are to get your gift, and for every gift we receive from over there.

In our family we have no cute little girls, we do have, however, three boys, who enjoy sleeping under the warm covers, just like little girls do.

Not only do we need blankets, but also all other bed clothing as well.

Heart felt thanks again for the precious gift, and greetings.

Yours,
The Elle Family

Unique Vegetable Ivory

Normally ivory, the hard dentine-containing substance found in the teeth of most mammals, is secured from the large teeth of elephants, walrus, hippopotamuses and narwhals. The fruit of some tropical American palms contains a remarkably hard, creamy-white substance resembling the consistency and appearance of true ivory to such a degree that it is called "vegetable ivory." The inhabitants of Ecuador carve from it all kinds of ornaments, toys, ash trays, rings, reels of spindles and knobs of walking sticks. But far more important than these are the thousands of tons of buttons that are made from this material.

Land Locked Salmon

The Kokanee—also called the Little Redfish or Silver Salmon—is a land locked, dwarfed form of the Pacific sockeye salmon, and has adapted itself to a complete life cycle in fresh water. The mature Kokanee generally are from 10 to 16 inches in length, and if food is abundant they may reach four pounds. They can be taken on bait or flies, or by trolling. Kokanee generally take flies around sunset in the late summer and autumn. Trolling with a spinner, with a baited hook about six inches from the spinner, takes Kokanee in the late fall.

Water Pressure for Farms

An electric water system saves time and work on the farm. Running water not only is a convenience but also helps to step up and speed up production of meat, poultry, milk and vegetables. Nearly every farm activity is done better, quicker and more economically with an abundant supply of running water under pressure provided by an automatic electric water system.

Many Firsts in Insurance

Most of the firsts in the insurance fields have their origin at Hartford, Conn. Among these firsts are: The first accident insurance policy that was printed was issued April 1, 1864; the first accident insurance company was incorporated in 1865 as a railway and travel policy company; the first automobile insurance policy was issued February 1, 1898; and the first mutual life insurance company was chartered in 1846.
