MOTORISTS WARNED OF DANGEROUS HIGHWAYS

A warning of dangerous highway conditions is given by the Keystone Automobile Club.

If you are going to drive at night. drive at a speed that will permit you to make a quick stop in safety as damaged paving is apt to be encountered, due to the severity of the weather and accompanying storms in the last two months.

Damaged highways present problem of serious concern to motorists. The condition is so gen-

(eral that highway departments obviously cannot put all roads in safe condition immediately.

Pending repairs, therefore, it is up to the motorist to look to his own safety and drive with care, especially at night. The road hazards are more readily apparent in daylight, but under night driving conditions breaks in pavement are not so easily discernible

Teach good telephone

manners

Children who are taught the correct way to *se the telephone are a joy to everyone. Their good telephone manners save other callers' time and tempers. Telephone-wise children do not tie up the lines with needless talking. They know the telephone is not a plaything. We are grateful to the many parents in our community who are teaching their children such good telephone manners. This cooperation helps us improve our service to everyone.
