AMERICA'S ANNUAL FARM CLEAN-UP WEEK MAR. 29

America's annual "farm clean-up week," designed to reduce livestock and poultry losses caused by disease, parasites and injury, was set today for the week of March 29 to April 4.

By joining in this clean-up drive farmers can add to their livestock profits and reduce the needless loss of meat and waste of feed, the American Foundation for Animal Health said, in announcing plans for the week.

Several "Common sense" clean-up measures were urged:

Clean and disinfect buildings and pens, particularly those where young animals and birds are to be born or housed.

Clean up barnyards and lots. Old piles of refuse and manure are often heavily infested with parasites.

Get rid of old strawstacks; plow under or scatter the straw. Old stacks harbor parasites and germs.

Drain or fence-off low spots in barn lots. Stagnant pools and mud are breeding places for parasites and insects.

Pick up nails, glass or other sharp objects which might cause cuts, or be swallowed by livestock. Check for protruding nails, broken stalls, or other defects which could injure stock. Wounds are more than injuries; they are openings for infection.

Move young animals to fresh, clean ground as early as possible. As further protection against disease, have pigs vaccinated against cholera, and against erysipelas where permitted by state officials and indicated by the veterinarian.

Individual farmers as well as livestock and farm organizations throughout the country are being invited to co-operate in helping make the week a success, the Foundation said. In many communities, it is being suggested as a neighborhood project.

Sale Register

If you want a notice on your sale inserted in this register weekly from now until day of sale, ABSOLUTELY FREE, send or phone us your sale date and when you are ready let us print your bills. That's the cheapest advertising you can get

Farm Topics

Erosion Prevented By Sound Practice Growing Crops Help In Saving the Soil

By W. J. DRYDEN

The late spring frosts and heavy rains made many farmers realize that losses from water erosion can be serious. Michigan State college specialists list four rules to reduce water erosion on farm land.

1. Never leave the ground bare longer than necessary. Vegetation is important over the winter.
2. As the slope of the land increases, use more crops of grass and small grains and fewer cultivated crops.
3. If medium sloping land is cultivated, practice strip cropping, cross slope seeding and tilling, and use sod waterways and terraces.
4. Keep the soil in as high a state of fertility as possible. Add lime where necessary, use commercial fertilizers and add manure through natural manures, green manures or crop residues.

Soil Building

The difference between soil building and soil mining is shown in the chart below. Soil building means increasing the soil's organic matter and plant food supply and maintaining high crop yields. It means feeding the soil and letting the soil feed the crops, rather than trying to feed each individual crop.

The comparative results shown here were obtained at the Ewing soil experiment field in Illinois. One plot had no soil treatment since the field was established in 1910. The other plot has had large amounts of lime, phosphate and potash to get heavy stands of deep-rooted legumes. Corn stalks have been returned to this plot. The rotation on both plots has been corn, oats, clover and wheat.

Crop yields covering a four-year rotation tell the story. Corn production on the fertilized plot was four times greater than on the untreated field; oats nearly four times and wheat about eight times greater. Clover yield on the fertilized plot was 1.9 tons per acre; the untreated plot is too acid to grow legumes.

Despite the greater amounts of nitrogen and organic matter used in producing the higher yields, the fertilized plot still contains 4 1/2 tons more organic matter and 400 pounds more nitrogen than the untreated field.

DISCHARGED FROM NAVY

Fred E. Loewen, Yeoman 2/c, son of John Loewen has returned to his home on 50 W. Donegal St., after serving four years in the U. S. Navy.

Fred enlisted in May 1944 and received his boot training at Bainbridge, Md. after which he was sent to California. He was assigned to the ship U. S. S. Stokes and on Nov. 1944 put out to sea, destination Pearl Harbor.

He served in the invasion of Iwo Jima, Tanaga, Saipan, New Hebrides, Atoll, Eniwetok, Guam and was at Okinawa at the time of the big typhoon.

He returned to the States July 1946, his ship having docked at Newport News to be decommissioned after which he was stationed at New York for a short duration before being assigned to the U. S. Navy base at Guantanamo Bay, Cuba.

Also serving at the Navy Base in Cuba, a friend Ray Brubaker of Chicago Ill. who returned home with Fred and was entertained at the Loewen home for a week, after which both boys left for a few days visit to Cleveland, Ohio, before going to the Bruhnke home.

Before returning to their homes they enlisted in the U. S. Navy reserves. A small party was given to the boys before leaving for Chicago.

HOLSTEIN COWS, LOCALLY OWNED, MAKE RECORDS

The monthly report of the Red Rose Dairy Herd Improvement Association for April, has just been made public.

There were 94 herds on test with the Association during February, with a total of 2416 cows of all breeds. Of the total, 482 cows produced 40 or more pounds of fat, 216 produced 50 or more pounds, and 85 produced 60 or more pounds during the 29-day period.

The Holstein herd of Henry M. Hess, Mount Joy R1, led the association with an average of 1330 pounds of milk and 48.4 pounds of fat with all cows milking. The same herd won the record in January.

Among those 30 pounds of butterfat or more was Arthur Wolgemuth's herd, Mount Joy R1, registered and graded Holsteins, 872, 31.2.

TRADITIONAL FARM SHOW DATE STANDS IN 1948

There will be no change in the traditional January date for the annual State Farm Show.

The State Farm Show Commission fixed Jan. 10-14, for the huge 1949 event.

Beef and Dairy Cattle Association leaders tried unsuccessfully to move the date to November, declaring they could have their animals in better condition for exhibition purposes.

Farm Hints That Pay In Better Products

The Cornell results are in line with earlier tests of vitamins for calf scours in Michigan and Ohio. Even though the use of vitamins lacks encouragement, there is promise in another direction—the sulfa drugs. Sulfaguanidine has been found helpful. Sulfathiazole, one of the faster acting sulfas, which has been used against dysentery in humans, also has been used successfully in calf scours treatment. In tests, a combination of sulfathiazole with kaolin and pectin was more effective than either sulfathiazole or sulfaguanidine alone.

MAN'S FEDERAL COSTS ARE SURELY EXPENSIVE

Proposed Federal expenditures for the next fiscal year will cost Lancaster County residents an estimated \$57,943,000, says the Pennsylvania Chamber of Commerce.

The organization said in a week-end statement that the average taxpayer uses up three and a half months of his annual salary to pay taxes.

WHAT BECAME OF THOSE 12,000 FARM WORKERS?

During the war 12,000 agricultural workers were brought into the United States from Mexico to help meet farm worker shortages, and neither the Department of Agriculture or the Immigration Service knows what became of them or where they are.

Deeds Recorded

John K. and Katie H. Shenk, Rapho Twp., to Harvey T. Kulp, Manheim, tract of land with improvements, Mastersville.

Clayton G. and E. Verna Rohrer, Rapho Twp., to B. Earl Swarr, Rapho Twp., tract of land with improvements in Rapho Twp., one parcel containing 115 acres, 98 perches and the second, 43 perches, \$22,942.50.

Joseph B. and Susan S. Hestetter, Mount Joy, to Raymond H. Hostetter, Rapho Twp., tract of land containing 90 acres, 28 perches, Rapho Twp.

Eva K. Greiner, Elizabethtown, to Arthur K., Henry K., and Robert K. Greiner, Elizabethtown, tract with a two-story brick house, Mount Joy Twp., \$9,000.

Arthur K. and Catharine H. Greiner, Elizabethtown; Henry K. and Mabel J. Greiner, Mount Joy Twp., and Robert K. and Anna Mae Greiner, Elizabethtown, to Elizabeth and Raymond H. Myer, Upper Leacock Twp., tract containing 136 acres, 151 perches, Mount Joy Twp., with improvements.
