 Mary E. Lungren  
 Jay E. Siegrist

Miss Mary E. Lungren, daughter of Mr. and Mrs. Paul Lungren, Landisville, and Jay E. Siegrist, son of Elmer Siegrist, Litz, were married Friday.  
 The bride was given in marriage by C. B. Grove and wore a white satin gown with three quarter length veil and carried a bouquet of red roses. The maid of honor, Miss Marion McClune, Pequea, wore a pink gown and the bridesmaids, Miss June Bentley, Lancaster, and Miss Norma Sellers, Pequea, wore yellow and blue sheer respectively.  
 Glenn Moffett served as best man and the ushers were Arthur Barto, East Petersburg, and Walter Lungren, Landisville.  
 Miss Marie Siegrist, sister of the bridegroom, was soloist.  
 The couple will reside in Lancaster R4.  
 The bride is employed at Hamilton Watch Co., and the bridegroom at Armstrong Cork Co.

**Marian Anita Warta**  
**Charles Frederick Tuerk**  
 The marriage of Miss Marian Anita Warta, daughter of Mr. and Mrs. Anthony Warta, east of town, and Charles Frederick Tuerk, Jr., son of Mr. and Mrs. Charles F. Tuerk, of West Oak Lane, Fla., took place Saturday in Trinity Lutheran Church here. The double ring ceremony was performed by the Rev. W. L. Koder.  
 Given in marriage by her father the bride wore a gown with satin bodice and full marquisette skirt with a long train. Her finger tip veil of illusion was fastened with a Dutch cap trimmed with seed pearls. She carried a bouquet of white roses.  
 Mrs. Kandle Gossling, of West Gate Hills, Havertown, sister of the bride was matron of honor. She wore a rose colored taffeta gown with fitted bodice and full skirt and a bandeau of roses in her hair. Her flowers also were pink.  
 William Redner of Olney, was best man and the wedding music was played by Mrs. William Nitrauer, of Neshville. Mr. Gossling was vocal soloist.  
 Ushers were Cpl. Carl S. Lobb, of Lakehurst, N. J. and Walter Lightcap of Roslyn.

A reception at Hostetter's tea room followed the ceremony after which the couple went on a wedding trip to the Adirondacks. They will reside in Philadelphia where the bridegroom is employed by the Walker Cadillac Co. The bride is a graduate of the Penna. Hospital in Phila. and has been on the staff of the Phila. Lying In Hospital.

# Milk Products Help In Conserving Grain

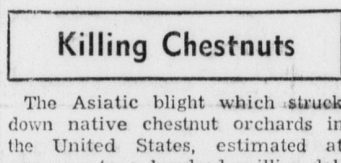

**Better Rations Result When Proteins Are Used**

With a world grain emergency and a national drive to conserve grain used in feeding, and with grain prices high, milk by-products are more important than ever in poultry feeding.  
 Balanced rations probably can do more to conserve grain used in feeding than any other single measure. Milk nutrients found in skim milk, buttermilk and dried cheese whey have been found highly effective in building balanced poultry rations.  
 These milk by-products provide unusual proteins of unusual quality. The milk proteins, lactalbumen and

casein, have a high growth promoting value and contain all the essential amino acids. These proteins give balance to the lower quality vegetable protein in grains normally fed poultry.  
 Milk by-products are rich in lactose, or milk sugar, a natural laxative which helps poultry maintain good intestinal health and minimizes the hazards of intestinal parasites. These milk by-products also provide minerals, particularly calcium and phosphorus and contain the water soluble vitamins of whole milk.  
 In preparing a balanced ration the object is to feed the correct proportion of the various nutrients that poultry require. In every case there is a point beyond which it is wasteful to include additional grain without providing other nutrients because the fowl cannot make complete economical use of all nourishment in additional grain.

**Killing Chestnuts**  
 The Asiatic blight which struck down native chestnut orchards in the United States, estimated at sums up to a hundred million dol-

lars some 25 years ago, is still active, and doubt that it will pass over and let this luscious crop come back usually is accepted by well informed agriculturists.

**Poultry Relish Grit; Aids Grinding Process**  
 Grit is a material of value to poultry but full details are not yet definitely known, according to University of Delaware. It is certain that birds like it and, when grit is fed freely, they consume more than is actually needed. Grit containing a large amount of soluble calcium has been widely recommended but appears to have no advantage where other forms of calcium are included in the ration. Actually it might be detrimental, say Delaware specialists. Helping the gizzard in the grinding process is the only known function of grit. A hard mica grit of suitable size doubtless should be available to all chickens.
