## EDITORIAL

+++  
 The batting season is here for base ball and flies.

+++  
 In house cleaning time it would be well if some folks would go a trifle further and make some repairs to their character.

+++  
 We can't quite understand why any country should ever want to control the world today considering its condition.

+++  
 Fishing is much safer than hunting. You never heard of a fisherman being mistaken for a deer, even though there are quite a large number of (dear) fishermen.

### TO THE ZOO

Summer is the popular time to take the children to the zoo, to see the new and fascinating animals. This country now has the world's best zoos and each year, by ship and plane, more animals come to add to the zoo population. These cost much more today. Storks from the Upper Nile Valley cost \$1400 each, giraffes and elephants are twice as expensive as before the war, monkeys and rare birds have increased in cost as much as 800 per cent. As we view these animals in surroundings as near as possible to their native habitat, let us realize that our enjoyment is not without a price.

### AS WE EXPECTED

As feared, holiday pleasure seekers, celebrating the Memorial day weekend, added lives to the casualty lists. Over 200 in traffic accidents, drownings, air crashes, fires, met a violent death. Summer excursions will take a toll in drownings where parks, beaches and resorts are crowded. Week end motoring trips will result in crashes—sudden death. Soon another holiday, July 4, will be upon us, and as feared, we will read the number of dead, following the celebration, and place most of the blame on carelessness. Too many people pay no attention to pre-holiday warnings, but are only startled when they read the "results".

### THE FORGOTTEN MAN

There is hope for the settlement at General Motors, a sliding-scale wage for workers, when the cost of living rises then salaries rise, when living costs lower, wages are in proportion. It sounds sensible, and if such a decision will also solve the labor difficulty for other industries which may try it, then well and very good. But, again, why about the white collar worker, the man on the fixed income? He has weathered, usually on a shoe string, the rising cost of living and wonders how he can hold on much longer. There are many such who are to make up the total of the nation's wage-earners. They are the ones who need attention. We may be optimistic about the General Motors formula, but Mount Joy is rather pessimistic about this other chap who represents a vast number of our citizens.

### FATHER'S DAY

Sunday, June 29 is designated as Father's Day. This is a sequel to Mother's Day, since Father should come in for his share of affectionate attentions, as well. The purpose of this day may be for commercial reasons, as so many of our "special" days and weeks are, but to pay tribute to the millions of those who are the heads of our American homes, is an obligation where money is no factor. Many fathers are embarrassed with the fuss and razz of the occasion, but they still like it.

Fatherhood is a challenge to the best that is in a man. His responsibility for the care of the family, the maintenance of the home, no simple easy job in any generation. Many years ago the relationship between father and children was built more on a basis of law and order. The authority of the parent, the obedience to the parent's will was adhered to with firmness. Naturally this must be observed in families today. However, fathers are making more

earnest efforts to bring companionship, mutual understanding, sharing interests and occupations, with their children. The authority, obedience, is still there, but by investing time and even trouble in doing things as a companion with children, the bonds of family life are strengthened, and what better investment can a man have than this?

### A WOMAN'S PLACE

Time was, when women either married or single, were ostracized by society if they entered the field of business. Theirs was to sew a fine seam, study music or china painting, prepare themselves for the delicate art of homemaking, leading protected, secluded lives that gave unto man the rights of the rigors, of the world of trade. Ladies didn't go into the realm of business, indeed if ever true it was then, that a woman's place is in the home. The passing years have changed all that. Woman became active in the professions, becoming teachers, then as scope widened, entering the business of men, engaging in all lines of industry. Women have been highly successful in many lines of endeavor, scaled political heights, brought feminine hands to work in factories. Today's woman has assumed the position of wage-earner along with the man.

Marriage has been the goal for many women who wish to remove themselves from the wage-earner class. But, as strange as it may seem, married women today, outnumber the single women, with paying jobs. The U. S. Bureau of Census, gives proof that the husband is the sole provider in only three-fifths of the households. Since 1940, there has been a fifty per cent increase in wives working. This is supposed to improve the standards of living in the homes, but yet we have been told that much of the juvenile delinquency problem rests upon the lack of parental guidance in homes where both parents are employed. So it becomes a subject for readers to discuss and decide.

### HOME COMING SERVICE AT

**EBY'S U. B. CHURCH JUNE 20**  
 The Annual home coming and welcome home service will be held in Eby's Evangelical United Brethren Church, 2 1/2 miles north of Mt. Joy, Pa., on Sunday, June 20, at 2:30 p.m.

This Church is one of the oldest former United Brethren Churches in Lancaster County. Presently there are only two members on the roll. This is the only service conducted in the church during the year.

The service will consist of a song service, some in the German language, words of testimony from the former members, a message by Rev. John H. Gable of Florin, Pa., and music by Rev. and Mrs. Gable. A cordial welcome awaits you at Eby's.

### LOCAL STREAMS STOCKED

**WITH TROUT ON TUESDAY**  
 Tuesday, June 15, a shipment of brook trout and brown trout arrived at the Landisville post office at 10:30 a.m. 500 brook trout were stocked in Long's Run and an additional 600 brook trout at Swarr's Run. Big Chickies creek was restocked Tuesday with 1200 brown trout.

Big Chickies, Long's Run and Swarr's Run will be closed to fishing June 15 to June 19. The streams will be reopened June 20.

Oxy-acetylene welding outfits have proved handy and convenient for farm use, says C. H. Bingham the Penn State extension agricultural engineer.

*What do you mean when you say borrow wisely?*

A person who borrows wisely doesn't go into debt needlessly. If a business loan will help you produce more goods or better services... if a personal loan will help protect your family's health or welfare, and you can repay the loan in a reasonable time—borrowing at your bank is a sensible idea.
