

OWL LAFFS

—BY— A WISE OWL

What do you think of a chap who left the air out of his rear bicycle tire because the seat was too high? Well that's exactly what happened here last week.

One of our colored fellows here in town said he would enlist in the Army if they'd make him a Rill. When told there was no such officer he said: Oh, yes dare is. Dars a corpo-rill and a gene-rill."

Well, folks, your last holiday week end is fast arriving. Labor Day! And if you think Christmas is far away, look at your saving fund, and see how few weeks are left.

I've got something for you to do again. This time it's—take a bird's temperature. Why? Oh, just to prove that I'm not wrong when I say that a bird's temperature varies from 104 to 110 degrees fahrenheit, depending upon the species.

An uptown miss refused the attention of a Florin boy, and he was most depressed. In fact he made threats! I asked her if it didn't worry her, and she explained: "Oh, no! He's such a dope he tried to commit suicide by jumping off his platform sole shoes."

When a girl reduces she is going out of her weigh to please a man.

Here's a little advice for our many new brides, who are not too well versed in culinary art. They may profit by another's experience:

A young wife who feared she was losing her husband's affection consulted a very old and wise fortune teller. After going through her usual mumba-jumbo, the seer advised her: "Get a piece of raw beef, cut flat, about an inch thick. Slice an onion and rub the meat on both sides with it. Put on pepper and salt, and fry it on each side over a hot fire. Drop three lumps of butter and a sprig of parsley on it and get him to eat it."

The young wife did as she was told, and the little trick seemed to exert such a wonderful effect on her husband that she decided to repeat it at regular intervals. And the man loved her ever after. --- Of course, if you keep a budget, it beats me how you can afford a steak at the present prices.

Don't be too quick to deride the candidate who beats around the bush—there are voters in them there bushes.

While riding a bus to Hershey, the couple in front of me were reading a newspaper editorial in which the editor continuously referred to himself as "we". Finally the girl asked: "Why does the editor call himself we?"

Her friend explained: "So the fellow who doesn't like what he says will think there are too many of him to lick."

A local lady was downtown when her hubby came home from work and he asked the reason: She tearfully replied: "I am making a new dress for myself, but my heart isn't in it."

And without thinking, hubby exclaimed: "Plunging neckline, eh?" --- The brute.

A nearby man says "a necessary evil is one we like so much we do not care about abolishing it. --- I think he's got something there.

"In the modern home," says a magazine article, "everything will be controlled by switches."

"Everything, that is, but the children!"

I know I shouldn't do this, but since I've taken to delving into statistics, I can't help but want to make you anxious to do the same. So—

How many grains in a bushel of wheat? Have any notion? We didn't, but my stooges have figured 'er out.

MIDGETS & LEGION JUNIORS SAW BUMS - BLUE JAYS PLAY

Well our Midget baseball team did not get a trip to Brooklyn to see the Dodgers and the Blue Jays play but they did get a trip to Philadelphia Tuesday night to see the same teams play even though it was what fans term a lousy game 10 to 1, Brooklyn.

Their sponsors, the Lions Club, paid the expense. At the same time the American Legion "daddied" a free trip for the Legion Juniors. They made the trip in Councilman Clayton Newcomer's school bus and every individual just had a swell time.

ANNUAL CHICKEN CORN SOUP SUPPER AT FIRE HOUSE

Saturday, August 21, Friendship Fire Co. will have their annual chicken corn soup supper at the Fire House, beginning at 11:00 o'clock.

Soup will be sold by the quart. There will be music and entertainment through the day.

They say there are 580,880 grains to the bushel. --- Ask anyone.

That's sufficient for this week. You know what? I forgot to take my vacation. Oh, well, it's too late now. I'll have to try and remember that next year.
