Entered at the Postoffice at Mt. Joy, Pa., as second-class mail matter under the Act of March 3, 1879.

EDITORIAL

Thursday's Lancaster New Era: "A zoning ordinance for Lancaster has been discussed for approximately 22 years. The legislation brought up Tuesday has been written, re-written and discussed for nearly a year."

It certainly didn't take us that long to enact zoning legislation here.

The average adult heart is about five inches long and three and one half inches wide and weighs about ten ounces.

But what a vast difference there is in human beings. We have folks right here in Mount Joy whose hearts are three times the normal size and then two we have others when it oftentimes seems actually haven't any heart at all.

Of course, that's the difference in people.

IF DON'T MAKE SENSE

Dick Wells, an airplane pilot from Lake Orion, Mich., ordered a new car a year ago for \$2,358. While in London he saw exactly the same car priced much cheaper for immediate delivery.

That car had to be shipped across the Atlantic and still it sold for \$557 less than right here at home. We'll let you figure that one out.

FORTY PLUS

Shortly before the war there was founded a Forty Plus club with 35 groups in America and added membership in Canada, London and Paris.

When older men were given employment during the war the clubs fell off but today are staging a comeback. The club's purpose is to help older, unemployed executives, get jobs.

CROP

CROP is a plan, known as the Christian Rural Overseas Program, sponsored by Catholic Rural Life, Church World Service, Lutheran World Relief, through which gifts in kind are accepted from American farmers and others, and distributed to the needy overseas.

TOOL OF DICTATORSHIP

Congress took the only possible course when it refused to again impose price controls and rationing on the country.

HOME WEEK AND FAIR TIME

Old Home Week comes at about the time of the country fair. Both are synonymous with picnic basket, fried chicken, cake and ice cream candy.

recipes, the talk of weather and politics, is the enjoyment of the home week rally. From garden patch on the west coast, the fields of Dixie, the barns of New England, the county fair brings forth the show of man's wisdom in treatment of the soil, in the management of his flock and herd.

CARRY ON THE FIGHT

You might be unpopular with the children in your home if you express disapproval of crime magazines. However, there is a lot to be said by parents and teachers about the sensational publications bought by children, as comics.

HAPPENINGS — of — LONG AGO 20 Years Ago

Mrs. Wm. Westenhaver, Maytown, was thrown from a Merry-Go-Round at Hershey, sustaining bruised limb and hip.

A Mastersonville farmer, raised a pair of pigeons, each with 2 heads, 4 wings and 4 legs.

American Legion Auxiliary held a public box social at the Legion home.

A thief stole all the poultry belonging to Mrs. Wm. Christ, near Hossler's Church.

The Booster Club planned their picnic for Keeners Park, Elizabethtown.

John W. Newcomer caught a pair of sea trout 21 and 22 inches long, at Elkton, Md.

Markets: Eggs, 30-32c; Corn, 11-15c; Lard, 13 and Butter 35c.

A boxwood said to be 200 years old was moved from Lane Co., to the DuPont Gardens at Wilmington.

Mrs. Susan Miller, East Main St., Elizabethtown, celebrated her 91st birthday.

A special \$2.00 license is required for shooting female deer in several counties of the state this year.

Seventy-one children attended the Well Baby Clinic held at the Legion Home Tuesday.

Officers of last year's Community Exhibit, have called a meeting to decide on holding another Exhibit this year.

Fire destroyed a frame shed on the farm of John Haines, Newtown.

The big dance hall at Riverside Park, Lebanon was destroyed by fire.

John Saylor, residing on the Amos Hess farm, was injured when a scaffold broke, throwing him to the ground.

Miss Minnie Mummert, entertained to a buffet luncheon in celebration of her birthday.

Ladies Bible Class of the Evangelical Church, held a festival on the church lawn.

Baccalaureate exercises were held for a class of 26, in the Teachers Training Class of Florin U. B. Church.

Activities Of Our Local Boy Scouts

The Boy Scouts of Troop 39, Mt. Joy met in the scout room on Monday evening. There were 17

members present and an application to join was received from Gerald Miller.

Two patrols of the troop went on a two day camping trip to the camp site of the Bainbridge troop Saturday morning. The scouts set up camp and cooked their own meals.

Friday afternoon two patrols of the troop will attend the annual three day Camporee at Camp Chiquetan under the leadership of Scoutmaster Shelly.

The Scouts are helping to clean up the new scout room in order that it can be painted. All boys interested in joining the troop are invited to come to the meetings on Monday evenings.

simply doesn't exist. And passing a law that says goods must be sold for so much and no more obviously can't change the cost of producing and selling anything.

Furthermore, price control would undermine free government. Our kind of political system can only survive when a free, competitive economy exists to support it.

If government is to determine the price at which things are to be sold, it must eventually determine how much labor shall be paid, and who shall work where and who shall produce what. Then we can write off individual liberty.

Price control is one of the basic tools of dictatorship. Let no one believe that we can have, at the time, free government and a regimented economy.

NATIONAL PRESS BUILDING WASHINGTON, D. C.

By Anne Goode

If you're in a quandary over something different to serve, why not try curly baked eggs for a change? Hart cook and season the yolk with real mayonnaise, and curry powder. Stuff and bake in a white sauce till well heated—about 30 minutes.

Speaking of eggs, the Patent Office offers rights to a suction cup which enables you to remove a hot-boiled egg from the shell without burning your fingers.

Something I want to see, which I've heard about, is a woman's brush which brushes the hair, makes a curl and inserts the bobby pin—all in one operation! Don't you?

Something to delight a child's heart, particularly at a party, is a ball of vanilla cream with features painted on with melted chocolate. With a cone hat, there's the funniest clown you've ever seen.

Saw a fashion show the other day of fall clothes, and how pretty they were. Certainly the most lady-like we've seen in years. Silhouettes were slender, shoulders were padded, but not overly so, and hips were natural. Pockets and collars were the details which made news because of their interesting treatment.

Make your youngster feel important by stitching his or her name on white bedroom curtains with colored rickrack braid. How they love the "personal" touch.

The Bulletin's Scrapbook!

Week's Best Recipe:

Spice Loaf Cake: Sift together: 2 c sifted cake flour, 3 t baking powder, 3/4 t salt, 1 t cinnamon, 1/2 t cloves, 1/2 t nutmeg, 1/4 t all-spice. Cream 1/2 c shortening. Gradually add 1/2 c brown sugar (firmly packed), 1/4 c granulated sugar. Add 2 eggs, one at a time, beating mixture well after each addition. Combine 3/4 t vanilla. Add dry ingredients to eggs, with milk alternately, stirring well until smooth. Turn into greased loaf pan and bake 45-50 min. in moderate oven.

A Real Companion (Journal of Education)

"I hear you sold your pig."

"Yep, sold him this morning."

"What did you get for him?"

"Eight dollars."

"What did it cost you to raise him?"

"Paid \$4 for him and \$5 for feed."

"Didn't make much, did you?"

"Nope, but I had his company all fall."

Garden Culture:

If you plan to divide your iris, it should be done before new growth starts with the coming of the fall rains.

Three years is long enough for iris to grow without being divided. The younger clumps are going to yield more vigorous blooms.

If you find an iris borer on the fleshy parts, cut the borer out. If you aren't dividing the iris now, inspect them and if the borer is there, cut out. You should have prevented the growth of the worm early in the spring, by using a spray before it had a chance to work down for protection in the leaves.

Inspirational:

The people that do know their God shall be strong, and do exploits. — Dan. 11:32

New Chemical Utilized For Grasshopper Poison

Research men at various state colleges after trying benzene hexachloride, a chemical discovered in Europe and brought to this country for experimental use as a grasshopper poison, believe it is the best thing yet discovered for hog mange, as well as grasshopper control. The compound is a wettable powder that can be used as either a spray or dip for hogs and is sold under various trade names.

Along with its large production of products, including bananas, sugar fruits, vegetables and agriculture cane, tobacco and pecans, Florida has large fishing interests, phosphate deposits, and is rated as the second largest cattle producing state in the United States.

The state of Washington is a fast-growing state; it attracts population because of its natural resources, its climate; its timber production is outstanding; its production of apples and wheat especially large. In it the cities of Seattle and Tacoma are important Pacific trading posts.

HARVEST LEGUME SEED

Because legume seed is low in supply and high in price, farmers are urged to harvest for seed purposes any promising crops of alfalfa, red clover, or Ladino clover. J. B. R. Dickey, extension agronomist of the Pennsylvania State College, says that even light crops usually pay for harvesting.

Seven Vice presidents have become President by reason of presidential deaths. They are Tyler, Fillmore, Johnson, Arthur, Theodore Roosevelt, Coolidge and Truman.
