EDITORIAL

Love and fishing have one thing in common. To be successful at either, one must have a good line.

We have yet to find the man who is willing to admit that his boss overpays him.

Circumstantial evidence doesn't carry as much weight with juries as it does with wives.

THAT MAKES US LAFF

The Central Labor Union, at Lancaster, plans a door-to-door distribution of 25,000 circulars urging opposition to the city's proposed zoning law.

This action is amusing in that the same method to reach people was used right here in Mount Joy on numerous occasions, not for the same purpose, but each time it fell as flat as a disc record.

Morri: if its a just cause, the people will respond without these efforts.

TCO BAD IF TRUE

Two official spokesmen for the CIO - Textile Workers Union, say: "The Lancaster County CIO Council is dominated by Communists and left-wingers. This casts a reflection on the entire CIO labor movement."

The textile workers, we understand, will launch a drive to rid the county of these elements.

It would be just too bad if Communists get any kind of a foothold in any part of good old Lancaster County.

HOMELESS PETS

There has been a complaint from rural folk that too many city people have dropped baby kittens and puppies on country roads, for some kind-hearted farmer to give a home. Probably due to the cost of feeding them, are the litters of pets, homeless. No doubt these families hope the creatures will find shelter. Most rural families around here have their quarts of cats and dogs and only keep the little stragglers that they won't starve and freeze. Anyone who wants to get rid of kittens or puppies, can get in touch with an animal shelter, the proper humane authorities. Give the pets a break.

WHO WOULD HAVE THOUGHT

A suggestion was made, at a convention of followers of the nudist cult, that if all people became nudists, there would be no wars. Ey not having any uniforms, official insignia, no one could recognize the enemy. A disbeliever of discarding the conventional garb says the way it would stop war, is because every combatant would be so embarrassed at the spectacle, he would go home caked in blushes. At least, says another reader, the weather would have an effect, if not the blush. Chilly fall and brisk spring days and cold winter months would find the nudist warrior staying close to the home fires to keep warm. From the standpoint of modesty, we believe we will have very few enlistings in a nudist colony for the purpose of putting an end to wars. We are still open for other suggestions.

NOTHING GAINED

We might not hold with Henry Wallace's Communistic leaning, are deeply opposed to his theories for the common good, but we wonder what is gained by throwing eggs and tomatoes at him as he gives an address, rides through city streets. Many a cause, an unworthy one at that, is strengthened because someone is persecuted for its sake. A martyr gains a following, surely because he stands as the under-dog, is robbed of his rights, is stoned for his convictions, is starved for his beliefs. Listen attentively to a man's belief, then use common sense in judging whether he is right or wrong. Use that head at the polls. The majority of Americans believe Henry Wallace is wrong, but we don't want the ones "on the fence", to be pushed in his favor, by egg and tomato hurlers.

WE'RE WASTING TIME

To make a nation strong, we urge the preservation of its natural resources. A farmer protects his future by caring for his mechanized equipment, looking after his barns, the well being of his animals. The factory sees its machinery is in order. And so it goes, where man protects that which affects his living. But, in this country, we have failed to give the same consideration to the national health.

With hundreds of millions of Americans unable to pay for private medical attention, to be proud to ask for charity care, human resources are being wasted. Building new hospitals, training more doctors, doesn't solve the problem, if both are not distributed more evenly, than at present. Opponents call national compulsory health insurance, "socialized medicine". The ordinary man asks if private medicine can offer a program that will produce the results expected of such a national program. If so, it is to be considered. Some action must be taken, for no nation can be great, can survive, and still waste its human population.

LOST: GOLDEN OPPORTUNITY

The hopes of the man who thought to make his fortune without an effort, have been blasted by the Federal Communications Commission, who have decided to put an end to the prizes given away by radio shows. Guess it just proves the truth of not being able to get something for nothing. We have spent long hours, given our health a work-out, all for a living. Then along come these radio shows that offered thousands of dollars in guessing games, just for answering questions that were often simple enough for our youngsters. We figured out how we would get on one of those gold-mine broadcasts, win the prizes, resell the goods we didn't need, spend the cash we did need, and sit back to play the fellow who made his hard way! Now comes interference and the FCC puts a stop to this easy money.

We have had many bones to pick with Congressmen, but when one of them now says such action by the FCC is un-American, that it is a move so radical it needs the vote of the people to choose whether such gifts are to be made, then we have hopes for Congress. The Communications Commission will probably have their way, and we will return to our job of toil and sweat, regretting the loss we took by not winning, in a few minutes, what we work to make in a year.

Scottish Highlanders At Maytown Sept. 22

The Scottish Highlanders with their glorious voices bring to you the characteristic songs, dialect, humor and impersonations of the incomparable Scotch. Featuring many of the old Scotch classics, also lively Scotch songs with a true Scotch swing, splendid interpretations of the celebrated Harry Lauder songs; lively choruses, gay lilted tunes, popular ballads, classics and opera. Their program is of real artistic merit consisting of solos, duets and trios which combined with the Highland pipes, (the national musical instrument of Scotland) used to pipe the Scottish Soldiers into battle, produce an unusually beautiful rich and novel entertainment.

This fine group of entertainers appear in gorgeous tartans and plaids, representing several Scottish Clans.

They will present their program in the East Donegal Township High School Auditorium on Wednesday, September 22, at 8 p.m.

A meeting will be held in Room 115 of East Donegal Township High School on Monday, September 20, at 3 p.m. for the purpose of organizing a community choir. Membership in the choir is open to anyone of high school age or over and all persons interested are invited to attend the opening meeting. The choir will be directed by Mr. Saylor, a member of the high school faculty.

WHAT A PAYROLL!

More than one out of every ten working persons in this country is employed by government—federal, state or local.

Census Bureau figures show 5,430,000 persons on public payrolls in April, latest month for which data are available, out of a total of 55,330,000 persons employed throughout the nation.

HAPPENINGS — of — LONG AGO

20 Years Ago

A tobacco shed 90 ft. long and width of two driveways was raised in an hour and fifteen minutes on the Christ Breneman farm.

Walter E. Thome has enrolled as a student at Stout Institute at Menomonee, Wis.

The property of the Mary Shrite Estate on Marietta Avenue was purchased by John W. Rice for \$4,318.

A farm of 115 acres, north of the Mannheim road on the Reuben Nissley farm, east of town, offered at public sale, was withdrawn at \$123.00 per acre.

A son was born to Mr. and Mrs. Thomas Stohler last Wednesday. Ralph Eshleman spoke before the Rotary Club on his classification.

Ninety-three persons attended a shower for Mr. and Mrs. Shuman, on the Duffy farm in East Donegal.

The Hertzler Inc. store at Lancaster, is bankrupt.

Proprietor Armstrong erected a new electric sign at his Washington House yesterday.

Over at Hanover a woman fell down steps with a butcher knife in her hand. It severed her jugular vein and she died instantly.

There are 112,411 votes in Lancaster Co. eligible to vote in November.

John Tryon, garage man west of town, has taken the Dodge agency. Work has been started on cleaning up the storage yards at Marietta.

Boro Council

(From page 1)

vote of 4 to 2. The opposition was Messrs. Newcomer and Krall.

According to the ordinance, as soon as it becomes a law, it will be unlawful for anyone to discharge any firearms within the borough limits without first getting a permit which will be issued for the asking for a period of one year.

The Water Pressure

A representative appeared before Council and explained the inadequate water pressure conditions which prevail here. No definite conclusion for a remedy was decided upon at this time.

There was a report of several complaints about persons leaving garbage cans uncovered and an obnoxious stench caused by some citizens burning their garbage. It was suggested referring the matter to the Board of Health.

Water Rates Discussed

Water rates were also briefly discussed and it was decided to hold a special meeting some time next week when new rates will be established.

Bids on Pipe

Secretary Brian opened a number of bids on 2,500 ft. of 6-inch water pipe and connections. The bids ranged from \$1.65 to \$2.20 per foot. The contract was awarded to a firm at \$1.95 per foot for Feb. 1 delivery.

Will Get Prices

Secretary Brian was instructed to get prices on fire engines as per specifications recently submitted by Friendship Fire Company. Said prices are to be submitted at the October meeting of Council.

\$5,000 was transferred from the Boro to the water account. All bills were paid and Council adjourned at 11:15 p. m.

Ellis Corll Injured;

(From page 1)

The rails, his brother said, caused him to lose his balance and fall nearly 30 feet to the bottom of an abandoned stone quarry, now serving as the boro's dump.

He lost consciousness then and he did not recover until 30 minutes later when he crawled up the incline and hobbled to the Mount Joy American Legion home near by.

Authorities at the home summoned Dr. William M. Workman who administered emergency treatment and ordered Corll removed to the hospital.

He was admitted to the institution at 5:50 a. m. Sunday. Authorities said he is suffering a possible fracture of the left knee cap, a laceration of the right wrist which required eight sutures to close, a chin laceration that required two sutures, and numerous bruises and small lacerations of the hands and legs.

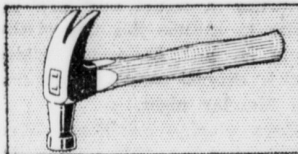

The straw hat sewing machine used by the Lee hat company was invented in 1865.

that are a delight to handle

Here are good tools at big savings to encourage you to "do it yourself". Our big, complete tool department has everything you need.

20 oz. HAMMER

Hand forged, non-chipping head. Tempered claws. Perfectly balanced.

Single Bit Axe

Rust proof. Head is tempered and heat treated. Handle is wedge locked.

Hand Drill

A fine quality tool

Pointing Trowel

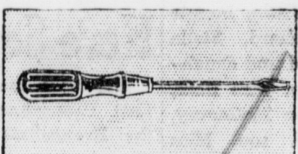

Good quality steel. Tempered & polished.

Combination Square

An indispensable tool combining inside and outside try square, plumb, level, straight edge blade graduated.

Wood Handle Screw Driver

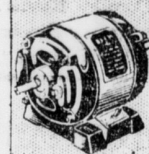

Has machine ground blade tips, lacquer finish fluted handle.

Wood Level

An accurate easy to read wood level. 2 tested glasses. Polished seasoned wood.

Motors

Fractional H. P. motors for farm, home or shop, double shafted, heavy duty models. On - off toggle switch. Overload fuse and starting clutch.

Straight Shank Drills

Get better drilling results with these smooth cutting carbon steel drills. All sizes.
