New Unit Improves Ventilation of Barn Dairyman Find Device Particularly Effective

Many of a cow's troubles can be traced to heat and humidity. A cow, unlike a human being, can perspire only through the mouth. So when the temperature and humidity inside a barn get high, the animal becomes uncomfortable and stubborn, particularly at milking time.

According to the department of agriculture, an average cow gives off almost a pint of water every hour through breathing. In addition to the high humidity caused by this breathing, a cow has an extremely high body temperature.

During the winter months, when the cows are in the barn most of the time, this combination results in generation of an enormous amount of water vapor and heat. When the warm, moisture-laden air comes in contact with the cold walls, condensation occurs and frost is formed.

The net result to farmers is rotting beams, joist and siding; a loss of hay because of mold created by moisture and frost; milk contamination, disease, particularly among the young stock and reduction of milk production because of discomfort to cows.

A simple solution to all of these costly problems is an automatic cooling unit, which is proving popular with dairy farmers.

These automatic ventilation units, easily installed, reduce condensation to a negligible degree—less than 2 per cent. This action, in turn, decreases barn deterioration, hay mold, milk contamination and disease. It also provides much more comfort for the cows and increases milk production. In addition, working conditions for the operator are much more pleasant.

The cooling units are equipped with an automatic "airswitch" thermostat.

Picture on Vernon Julius farm at Freeport, Ill., shows installation of automatic cooling unit in dairy barn.

tion to a negligible degree—less than 2 per cent. This action, in turn, decreases barn deterioration, hay mold, milk contamination and disease. It also provides much more comfort for the cows and increases milk production. In addition, working conditions for the operator are much more pleasant.

The cooling units are equipped with an automatic "airswitch" thermostat.

Higher Yields Outweigh Cattle Spraying Costs

An increase of \$3.75 per head more than covers the cost of spraying beef cattle with DDT, it was revealed in a test of the value of fly control conducted at the University of Illinois college of agriculture.

Protected cattle gained about 15 pounds more per head during the pasture season than a group that had not been sprayed. At 25 cents a pound, an increase of 15 pounds a head amounts to \$3.75 a head, a return that far outweighs the cost of spraying.

Beef cattle should be sprayed often enough to control flies, whether it requires two or three sprayings during the season or once a month.

Herds and Flocks

Use of 2, 4-D sprays for weed control in pastures is not dangerous to grazing animals.

A home-mixed spray of crude benzene hexachloride powder and water is more likely to taint eggs in poultry houses than a good commercial roost paint containing the effective portion of the same chemical.

Poultry houses with light colored roofs are cooler in summer than those with roofs painted black.

To get water to hogs in distant pasture where there is no water supply, pipes can be laid on top of the ground. To prevent freezing in winter, disconnect and drain the pipes.

Benzene Hexachloride Will Check Hog Mange

If hogs stand around and rub instead of eating, they may have a touch of mange. Benzene hexachloride has been found to be more effective than lime sulphur. Benzene hexachloride should be applied when temperatures are up around 75 degrees, using one pound of 50 per cent powder to four gallons of water. It is important to see that the animal is completely covered, including the inside of the ears.

Saturday, Oct. 2—On the premises on the road leading from Mount Joy to Manheim adjoining Stauffertown.—Tract No. 1. 2 1/2 story brick house, conveniences 2-car garage, lot 80x190 ft.—Tract 2, 2 acres woodland in Mt. Joy Twp., 1 mi. north Milton Grove by Joseph H. Greiner and Katie Hollinger. Walter Dupes, Auct. Sale at 1 p. m. EST.

Thursday, October 7—On the premises in Rapho Township, along the road leading from Mount Joy to Manheim, 2 1/2 miles east of the former and 1 mile from Erisman's Church, a farm of 54 acres, 2 1/2 story frame house, bank barn, chicken houses, tobacco shed by Lester B. Brubaker and Fannie B. Brubaker. V. D. Kling, Auct.

Friday, Oct. 8—At Baker's Garage, Elizabeth street, Landisville, community sale sponsored by the Young Men's and Intermediate Boy's classes of the Church of God S. S. We will sell anything you have on commission or you can donate same, as you desire. Sale at 6:30 p.m. Walter Dupes, auct.

Saturday, Oct. 16 - In Manor Twp., one-half mile west of Millersville, along the Blue Rock road, a 13-acre farm with frame house, bank barn, garage, etc. by John Hoffmaster and Bertina Hoffmaster. Edgar Funk, auct.

Saturday, October 16—On the premises along State Highway Route No. 220 at the West end of Mount Joy Borough: No. 1, small farm of 13 acres, more or less, of Maurice Groff, with a 2 1/2 story brick house, barn and other outbuildings, also farm implements and tobacco lath. Sale at one o'clock.

No. 2—On the premises on Old Market street in Mount Joy Borough, a lot of ground with a one-story frame shop, also machinery and tools. Sale at two-thirty.

No. 3—Also at the same time and place as No. 2, a lot of land with a one-story frame house, bank barn, and tobacco shed. Also large lot of household goods, implements, etc. by Annie A. Dietrich. Edgar Funk, auct.

Saturday, Oct. 23—On the premises at Freeport, Ill., 5 miles southwest of Millersville, acre of land with frame house, bank barn, and tobacco shed. Also large lot of household goods, implements, etc. by Annie A. Dietrich. Edgar Funk, auct.

Engagements

Mr. and Mrs. John A. Chapman, of 71 Worcester street, Wellesley Hills, Mass., announce the engagement of their daughter, Mary E. to Richard L. Mumper, of town.

The bride-elect is a graduate of Wellesley High School. Mr. Mumper recently received his discharge from the U. S. Navy.

Richard has been employed by the Bulletin since receiving his "diploma" from Uncle Sam.

Mrs. Henry Doblog, Mauch Chunk, announces the engagement of her daughter, Vera D. Warncke, 115 S. Thirteenth St., Allentown, to the Rev. Ernest P. Leer, Landisville, son of Mr. and Mrs. Calvin Leer, York Springs.

Miss Warncke graduated from the Allentown Business College and is employed at Arbogast and Bastian, Inc., Allentown.

Mr. Leer is pastor of Zion Lutheran Church, Landisville, and Bethany Lutheran Church, Millersville.

THE WEATHER!

BY KENNETH DROHAN

The following is a brief summary of the local weather from Wednesday, September 22 to Tuesday, September 28, inclusive.

Temperatures

Lowest: 35 (25th) Highest: 81 (27th) Average: 56

Lowest this month to date: 35 Highest this month to date: 92

Type of weather

Clear days: 3 Partly cloudy days: 2 Cloudy days: 2 Days with rain: none

Barometer

Lowest: 29.72 in. (23rd) Highest: 30.32 in. (27th) Lowest this month to date: 29.77 Highest this month to date: 30.28

Precipitation

Total rainfall: .00 in. Greatest in 24 hrs.: .00 in. Total this month to date: .67 in.

PLAN RAT CONTROL

Little Pigs Stunted By Worm Infestation Tests Show Marked Retarding of Growth

Seldom are farmers inclined to argue with scientists, livestock specialists and others who keep warning that internal parasites are harmful to swine. Occasionally, however, a farmer will pose the question: "How much injury is caused by worm infestation?"

The answer to that question is provided in tests conducted by the bureau of animal industry to determine how much the growth of pigs is retarded by roundworms (ascarids).

In carrying out the experiment, the bureau used eight litter-mate pigs eight weeks old, feeding four of them infective roundworm eggs. The other four, which served as controls, received no worm eggs.

After four months all eight pigs were weighed, killed and examined for roundworms. None were found in the control pigs, but the other four harbored 109, 39, 20 and 12, respectively.

Growth of the four pigs that had roundworms at autopsy was less rapid than the four controls. The pig with 109 worms weighed 8.7 pounds less than at the time it was fed the worm eggs; its control litter-mate gained 96 pounds.

The pig with 39 roundworms gained only 48 per cent as much as its control; the one with 20 roundworms, only 55 per cent as much as its control. The growth of the pig with only 12 roundworms was not retarded very much; it weighed nearly as much as its control mate.

Elizabethtown firemen said that a nurse who accompanied the Friendship Fire Co. ambulance ordered them to drive faster as they passed through Mt. Joy. Beyond Mt. Joy, they said, Mrs. Zeager appeared to collapse. She was pronounced dead at the hospital.

She was a member of the Elizabethtown Mennonite church.

Surviving are her husband, two daughters and a son, Lilly, at home; Emma, wife of Clifford Shank, Rheems, and Monroe L. Elizabethtown. Three grandchildren, her father John Landvater, Elizabethtown RD, and these brothers and sister also survive. Mrs. Phares Frey, Sporting Hill; Elmer Landvater, Hershey RD; Ammon Landvater, Elizabethtown RD, and Elias, Rheems.

Research to Intensify Winter in Meat Tests

Freezing is one of the oldest ways of preserving meat. It is also one of the newest, the U. S. department of agriculture points out.

In old-time freezing there was not much that could be done beyond the process. It was a winter method depending on continued cold. A mid-winter or early-springing might spoil a meat supply intended to last for additional weeks or months. This was true whether the meat was wild game brought in by hunters or was from domestic animals.

Modern freezing is still so new that there is a good deal to be learned about it.

This is the purpose of an expansion of studies of meat freezing and curing made possible under the research and marketing act. A first step will be to survey freezing and curing methods now in use. Samples of meats typical of these methods of preservation will be assembled and compared for quality and nutritive value. Next, the experimenters will try first to duplicate, then improve the methods which the survey and comparison work indicate are most effective.

The bureau of animal industry will have equipment that can improve on even the most severe winter weather. It will be able to freeze meat at 100 degrees below zero if that proves desirable.

Quality Cream Boosts Returns to Dairyman

Production of high quality cream will pay dividends to the dairyman. A few suggestions for assuring top production: Protect separator from rust; rinse with chlorine solution before using; wash with powder immediately after each separation; cool cream immediately; separate milk immediately after straining; cool cream rapidly and thoroughly; keep containers covered from the time the milk is strained into cans until it reaches the receiving vat; strain milk in milk room or milk house, not in the barn; cover cans tightly and place in cooler with cold circulating water.

Several Sheep Ailments Are Caused by Worms

Several ailments of sheep, including "nodular disease," "stomach worm disease" and "black scours," are caused by worms. Main attack by successful sheep men, therefore, is directed against development or reproduction of the offending worms. While most of the eggs and young worms of these parasites are destroyed in winter, sheep must be treated to prevent entry of worms into the intestinal tract.

FEED NEW GRAIN SLOWLY

If small amounts of new grain are fed the first few days and increased gradually over several weeks, the digestive systems of poultry will become accustomed to the new grain without trouble, reminds R. C. Baker, Penn State extension poultry specialist.

WEDDINGS THRUOUT

(From Page 1)

A reception followed the ceremony at the bride's home. Mr. and Mrs. Gingrich will reside at Campbelltown.

The following persons attended the wedding-reception: The Rev. and Mrs. James F. Mott, Mr. and Mrs. Earl Goodling, Vivian Sumpman, Rabbeth L. Meily, Mrs. Beulah Warner, Mrs. Alice Shank, Jean Eider, William Rider, Marie Rider, Mr. and Mrs. John Rider, Loretta Rider, John Rider, Jr., Mr. and Mrs. Michael Good, Kathryn Barwick, Mrs. Gertrude Groff all above named from Mount Joy.

Out - of - town guests included Mr. and Mrs. George W. Fisher, Hershey; Mrs. Ammon Gingrich, Richard Gingrich, Franklin Gingrich, Verma M. Gingrich, Mary Gingrich of Campbelltown; Mr. Band Mrs. Roy Gingrich and son Bruce and Mrs. Raymond Nissley and sons Raymond and Earl of Palmyra and Mr. and Mrs. Alvin Sides of Florin.

Mortuary Record

(From Page 1)

painting contractor. They were painting on the farm of John Geiman, near White Oak. Randler descended a ladder, said he wasn't feeling well and died within a few minutes. Michael, of Florin, and Eli W., of town, are brothers.

The infant daughter of Paul and Jean Stauffer Hollinger, Mount Joy RD, died in Lancaster General Hospital Monday. In addition to her parents she is survived by a twin sister.

Clyde M. Triplett, Sr., 305 N. Barbara St., this boro, died suddenly in his hotel room in Lincoln, Neb., of a heart attack. He was a salesman for the Blakiston Co. of Philadelphia and was working in the mid-West territory.

Mr. Triplett was a member of the Masonic Lodge of Akron, Ohio. Born in Columbia, a son of the late John A. and Ella Miller Triplett, he resided in this place for six years. Surviving are his wife, Louise Hoover Triplett, and one son, Clyde M. Jr., of town; also three grandchildren and two sisters, Nellie L. Triplett and Mrs. Arthur Hare, both of Lancaster.

The funeral was held from the Nissley funeral home Tuesday afternoon with interment in the Silver Springs cemetery.

Mrs. Maude P. Zeager

Mrs. Maude P. Zeager, fifty-six, 54 S. Market St., Elizabethtown, wife of John G. Zeager, died in an ambulance while enroute from her home to St. Joseph's Hospital about 10 a.m. Thursday. Mrs. Zeager was stricken ill on Sept. 7 and suffered a relapse Thursday morning. Death was caused by a cerebral hemorrhage.

Elizabethtown firemen said that a nurse who accompanied the Friendship Fire Co. ambulance ordered them to drive faster as they passed through Mt. Joy. Beyond Mt. Joy, they said, Mrs. Zeager appeared to collapse. She was pronounced dead at the hospital.

She was a member of the Elizabethtown Mennonite church.

Surviving are her husband, two daughters and a son, Lilly, at home; Emma, wife of Clifford Shank, Rheems, and Monroe L. Elizabethtown. Three grandchildren, her father John Landvater, Elizabethtown RD, and these brothers and sister also survive. Mrs. Phares Frey, Sporting Hill; Elmer Landvater, Hershey RD; Ammon Landvater, Elizabethtown RD, and Elias, Rheems.

LANDISVILLE

Mr. Wallace A. Miller, trouble shooter for the Minnich Machine works here, spent three days at Rochester, N. Y. last week in the interest of the firm. He was accompanied by Mrs. Miller and the trip was made by auto.

CLASSIFIED

Rates for this column are 25c per insertion, if over five lines, 5c per line each insertion, all payable in advance.

FOR SALE: Student's desk, baby cot bed, large stove scale, Elwood Koons, Newtown. 9-30-48

LOST: White gold lapel watch. Finder please phone Mt. Joy 69-M. 9-30-48
