THANK OFFERING SERVICE AT LUTHERAN CHURCH

The Thank Offering Service of the Women's Missionary Society of Trinity Lutheran Church, here, held on Sunday afternoon, Nov. 7 will long be remembered as a day of privilege by all who attended. East and West mingled in Christian love and friendliness as our local members heard Miss Alice Zachariah, a native Christian nurse from India, tell how Christian missions had influenced her life. Orphaned at the age of ten, she was cared for by the missionaries and trained in mission schools and is now an instructor of nurses in Kugler Hospital, Guntur, India where she is working with Miss Sarah Snyder, formerly a member of Trinity in this town.

Mrs. Samuel Harnish, Cellist, played "Widmung by David Popper, and Arioso by Bach in a most pleasing manner, accompanied by her husband.

Life memberships were presented to Miss Mary Elizabeth Gerberich by her mother; Miss Doris Rice, by the Primary Department of the Sunday School, for her service as teacher and secretary in that department; and to Mr. John Dillinger, by the Womens Missionary Society for his generous service to the congregation in providing the use of his projector for the visual education program of the church.

A social hour followed the service at which time a buffet luncheon was served by the women of the church. During the social hour, Miss Zachariah made a flower garland with which she garlanded the pastor. She explained the significance of this custom and told how she was privileged to garland Dr. Franklin Clark Fry, President of the United Lutheran Church, during its convention recently. A display of fine lace, made by the widows of India was on display. Music was provided during the social hour by Misses Nancy and Pauline Brooks, on the piano and marimba.

Why doesn't the bank pay interest on checking accounts?

Payment of interest on checking accounts in any insured bank is prohibited by law or regulation. The reason is that the bank can pay interest on deposits only out of earnings from the investment of those deposits. Inasmuch as checking account funds can be withdrawn on demand, cash reserves must be larger to meet withdrawals, therefore the amount available for investment is smaller and the investment period shorter.
