

Gibson UPS-A-DAISY

In the Kookall Electric Range

*Biggest Improvement
In Cooking
Since Electric Heat
Replaced A Flame!*

Four Surface Units
— Or Three Surface Units Plus A Deep Well Cooker
— All On The Same Range!

You'll want the new Gibson Kookall Automatic Electric Range the minute you see it. The only range with UPS-A-DAISY — it gives you 4 surface units, or 3 surface units and a deepwell Kookall, all on the same range. You'll like its ultra-modern design and gleaming white, easy-to-clean finish of porcelain on steel.

The Gibson also gives you: A waist-high broiler, two ovens — one banquet size, completely automatic operation, 7-heat surface units, 6-quart Kookall, 3 large storage drawers and amazing efficiency that makes cooking cleaner, cheaper, cooler, easier and safer.

Come in today and let us show you the new Gibson Electric Range — the only range that has all the features you've always wanted!

CHICKS NEED ROOM

Good housing and ample floor space are needed by fall and winter chicks, says F. H. Leuschner, extension poultry specialist of the Pennsylvania State College. Since they will be confined to the house most of their lives, the chicks need ventilation, floor space, and good litter for health and growth.

There is no better way to boost your business than by local newspaper advertising.

Does It Fit?

DOES YOUR insurance fit your needs as accurately as your hat fits your head? This is a mighty good time to find out just what "size" insurance you ought to have. May we give you the benefit of our wide insurance experience?

LANCASTER COUNTY LEADS

Lancaster County stands first among all Pennsylvania counties in the value of dairy products sold, the State Department of Agriculture reports. Chester County ranks second and Bradford third. Lancaster ranks ninth among all counties of the United States.

ADAMS CO. IS TENTH

In the production of apples, Adams County, Pennsylvania, ranks 10th among all counties of the United States. It is the top apple county in Pennsylvania, followed by Franklin in second place and Berks in third.

Texas leads all states in many items. It has a much larger production of petroleum than any other state in the Union, its lands are productive of many kinds of farm crops, and in all parts of it are manufacturing institutions of various kinds.

CHRISTMAS SCENE

A tow-headed boy in red pajamas, sitting before a fireplace waiting for Santa Claus, features the 1948 Christmas Seal of the National Tuberculosis Association and its affiliated organizations.

The 42nd Seal, which is not only used throughout the United States but also, with slight variations, in Canada, Great Britain, Newfoundland and Bermuda, was designed by Barry Bart, of South Kent, Conn.

Mr. Bart's inspiration for the Seal design was a nephew whom he observed awaiting Santa Claus before a blazing fire on Christmas Eve. The boy is sitting before a screened fireplace and three stockings hang from the mantel. Inscribed at the top is "Merry Christmas." At the left is a Double-Barred Cross, emblem of the Tuberculosis Associations.

Canada is using the same design except that the "U. S. A." is omitted. "Merry Christmas" was retained for Seals printed for the English Canadians, Great Britain, Newfoundland and Bermuda but was replaced by "Bonne Sante" for the French Canadians.

The state of Vermont leads all others in the production of maple syrup and maple sugar.

Semi-annual testing of vacuum gauges on milking machines will mean less trouble in the milking shed—especially, less mastitis.

Swine are not susceptible to the bovine type of brucellosis, but cattle may contract the swine type of this disease.
