

A new sulfa-drug treatment for cholera has been discovered by the American Society of Medicine.

### Native of Mt. Joy

(From Page 1)  
 been a sort of wanderer on the face of the earth—from the beginning of World War II in the hands of the Japanese in the Philippines, until Gen. McArthur returned to the Islands. At the present I am here teaching English, mostly to individual pupils. Among them is a bright young lady of about 18, who has asked me to try to put her in touch with some one in the USA to exchange letters with, so it has occurred to me to write to you. Is there among your High School pupils anyone who takes any interest in the Spanish language?

In the old days there was a course in German—of interest to me because I was brought up in a Penna. "Dutch" atmosphere.

The young lady's idea is to write her letters in duplicate (in English and Spanish). Her "correspondent" could reply in English.

The postage from Mt. Joy to Havana is the same as from Mt. Joy to, say, Florin—3 cents (stamp enclosed) and I should be glad to have a few words from you. If Oscar Donaven is still alive, please give him my regards and also to Mr. Schroll of The Bulletin.
