**J. B. HOSTETTER & SONS**  
MOUNT JOY, PA.

### Union National Bank

(From page 11)  
and then endorsed it on the Endorsing Machine. We each had the privilege of cancelling the checks that we received. Also shown was a very modern machine called a Recordak which takes pictures of about 13,000 checks or other papers on a film of 500 feet. In the vault we were shown 782 Safety Deposit Boxes. The doors, two at each end, together weigh 20 tons.

Among other machines was the Brandt Cashier which gives the right amount of change. We were shown Traveler's Checks, each worth \$10. The Letter Opening Machine which opens many letters in a short period of time, the Bookkeeping Machine which keeps very accurate records and the Postage Meter which very sanitarly puts a stamp, the date, and the name of the town on the envelope.

We were also shown how to use their telephone system. It includes 11 telephones. The class was dismissed at 3:45 after having a very enjoyable visit. The afternoon was climaxed with two delicious candy bar-compliments of the bank.

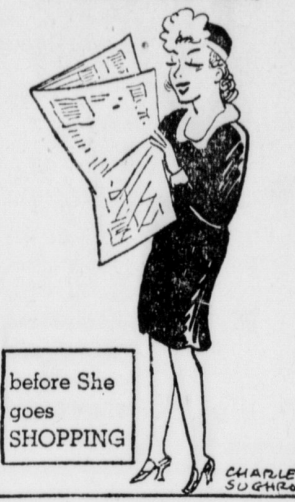

Everybody reads newspapers but NOT everybody reads circular advertising left on their door step.

The teacher reprimanded Johnny for loud laughter, saying: "You mustn't laugh in the schoolroom." And Johnny explained: "It was just a smile but it busted — He is excused."

Everybody in this locality reads The Bulletin—that's why its advertisers get such excellent results.
