### Sewage System

(From page 1)

Board," Dr. Norris W. Vaux, the State Health Secretary and Board Chairman stated. "It also presents a telling example of what can be accomplished," Dr. Vaux continued, "when a community actually accepts its responsibility to the common welfare. In spite of high costs and the size of the community the people of Littlestown have gone ahead to solve their own sanitary problem and at the same time to abate pollution of the public waterways.

The sewerage system and the treatment works has built and is operated by the Littlestown Boro Authority. Payment for service is made on a rental basis by the residents. The treatment plant is designed for a population of 3,200 or 360,000 gallons a day. There is 35,000 feet of sewer consisting of 8, 10, 12 and 15 inch pipe. Sewage from one section of the boro is pumped to the treatment plant through 3,000 feet of six inch force main.
