HOME FURNISHINGS

(Formerly Boyer's)

15 MARIETTA ST.

MOUNT JOY, PA.

STORE HOURS:
Monday - 8 to 8
Tuesday & Thursday - 8 to 6
Wednesday - 8 to 12 noon
Friday & Saturday - 8 am to 9 p.m.

We extend an invitation to all our friends and customers, both old and new, to visit our store at any time. Store hours will remain the same as they have been. Feel free to come in and look around at your leisure.

On the first floor you will find small furniture items, breakfast and dinette sets, linoleums, and appliances; and on the second floor, living-room and bedroom furniture, bedding, and rugs. We shall continue to carry many lines of nationally known and advertised merchandise. If we do not have exactly what you are looking for, we will do our best to obtain it for you.

Do not hesitate to ask us for a free estimate on floor covering and window shade installations. This is only one of the many services we extend for your convenience.

You can purchase furnishings for your home for cash, or, if you wish, on the time payment plan. We solicit and welcome new accounts... terms are reasonable.

Mortuary Record

(From page 1)
Wolf, and one sister, Mrs. Emma Lehman, Dillsburg.
The funeral was held from the Miller Funeral Home at E-town on Tuesday afternoon with interment in the Newville cemetery Cumberland County.

John K. Kame

John K. Kame, eighty, former resident of Maytown, died Tuesday in the Oreville Mennonite Home, where he had been a guest for the past several months. Death was due to a cerebral hemorrhage after an illness of two days.
His deceased wife was Salome Kame. He was the last of his family and a member of St. John's Lutheran Church, Maytown. Surviving only are nieces and nephews.

MIDGETS TO GIANTS

Hundreds of species of cactus are native of Arizona. They range from the size of a button to the giant saguaro which stretches 40 feet high.

A 22-year-old Lancaster motorist was arrested seven times and lost his drivers license three times in six years. In addition he was involved in two accidents.

Engagements Of Well Known Local Residents

Mr. and Mrs. Hiram B. Engle, 129 W. High St., Maytown, announce the engagement of Miss Ruth L. Johnston, to Frank P. Gerner, Rome, N. Y. Miss Johnston is employed by Wyeth Inc., Marietta, and Mr. Gerner by the government at the depot in Rome, N. Y. No date has been set for the wedding.

Mr. and Mrs. J. Harry Bahn, of Thomasville, RDI, announce the engagement of their daughter, Dolores E. Bahn, to Paul Weiser, Jr., son of Mr. and Mrs. Paul Weiser, Florin, Pa.

Miss Bahn is a graduate of West York High School and is employed by the York Corporation.

Mr. Weiser is a graduate of the East Donegal High School and is employed in the trucking business with his father.

No date has been set for the wedding.

FIXING UP the HOME

By Diane Greeter

How to Keep Floors Gleaming

NO MATTER how modestly furnished, a home with attractive, sparkling floors has charm and quiet dignity. If your floors are of oak or other hardwood, keeping them gleaming is fairly simple. Two fundamentals of good maintenance are daily sweeping with an untreated dust mop, plus an occasional shining with a weighted floor brush or an electric polisher. Several times a year hardwood floors should be cleaned and waxed.

Most authorities contend that soap and water harm the finish. Special liquid cleaning preparations containing a wax base are highly recommended. These clean the floor thoroughly and leave a thin protective film that tends to prevent dust from penetrating the grain.
Wax, which completes the job of guarding the wood against dirt, also provides that glossy sheen which characterizes hardwood floors. Paste waxes developed especially for floors are available. Apply a thin coat with cheese cloth of double thickness. Allow to dry, then polish with a weighted brush or electric polisher. Polish across the grain first, then with it. About an hour later repeat the entire operation. Rubbing type liquid wax also gives good results. Apply according to manufacturers' directions.
Even a long neglected oak floor can be made like new. Just remove the old finish by sanding or scraping, then apply a new finish.

Farm Topics

Farm Outlook Bright For Coming 5 Years

U. S. Economists Show Optimism in Forecasts

In spite of some recent declines in farm prices, agricultural economists of the U. S. department of agriculture took an optimistic point of view at their recent outlook conference in Washington, D. C. In the past, these economists have confined their estimates of the outlook to the coming 12 months. This time they tried to look five years ahead. And they decided that things look fairly good for the farmer for that long.

Of course, they made two basic assumptions that some people still are a little doubtful about—that a stable peace will be established and that there will be no serious de-

PURCHASING POWER

America's economic boom continues as buying power outpaces prices.

If time should prove them wrong about one of the two, the effect may be drastic. And they hasten to point out that these are assumptions, not predictions.

They then go on to point out that the population will increase between one and two million persons a year until 1952; that industrial output per worker will increase, and that yields per acre and per livestock unit probably also will increase.

High incomes for industrial workers will mean a steady market for foodstuffs and clothing. High yield per worker might mean more stable prices for industrial goods. Higher yields per acre and per animal unit will mean more economical production for the farmer.

All in all, this shapes up to just about the kind of five-year period that the farmers themselves would like to enjoy. High production at fair prices means a break for producers and consumers—a square deal for both.

Battle Against Afosa

In a drive to stamp out aftosa (foot and mouth disease) from Mexico in two years, a joint U. S.-Mexico commission has undertaken the job of vaccinating from eight to 10 million cattle in the affected area by the end of 1949.

Trained teams go ahead of the nine teams of vaccinators to preach the benefits of vaccination and convince the sometimes ignorant cattle owners that vaccination is the only alternative to disaster.

By the end of 1949 the program will have cost approximately 50 million dollars. It includes five points: constant inspection, disinfection, eradication, vaccination and quarantine.

The vaccination process itself is simple. A needle of the vaccine is shot into the animal and that's all there is to it. It will take from eight to 10 million shots to complete the job. The vaccine protects for six months.

Expert Urges Milk Cows Be Taught 'Good Habits'

Training your cows in good habits is most important to all dairymen, according to a leading dairy specialist. He lists the following recommendations for more milk, greater profits and reduced mastitis:
Keep cows undisturbed; stimulate milk letdown one minute before milking begins; operate milking machine according to manufacturer's directions.

Everybody reads newspapers but NOT everybody reads circular advertising left on their door step.
