

The Eppley Sisters Gospel Quintette of Manchester, Pa., will appear at the Mt. Joy Church of God, January 15, 1949, at 7:30. The five sisters render a deeply spiritual program featuring vocal quintettes, soprano and alto solos, artistic piano playing and numbers on the following instruments: Vibra Harp, Violin, Electric Hawaiian Guitar, Saxophone, Accordians and Cathedral Chimes.

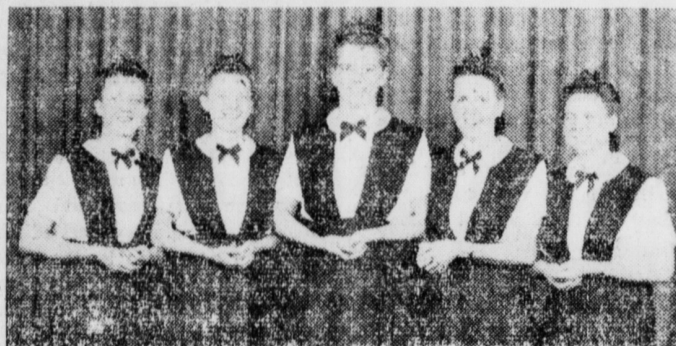

If you wish to hear a musical program that is unique and different and has been rated as the best program of its kind in the country, come and hear these five sisters. They have appeared in churches of 35 different denominations the past five years. Their recent concert tours have included leading churches and radio stations in U. S. and Canada. Thousands have heard this group

and churches have been crowded to capacity and many turned away. Some of the girls are graduates of Wheaton College, Wheaton, Ill., others, of the Dunmire School of Music, Harrisburg, Pa., and at present all are special vocal students at Messiah Bible College, Grantham, Pa.

The public is cordially invited to attend and is urged to come early.

### POULTRY PASTURES

Good legume and bluegrass sods provide poultry on range with the vitamin, proteins, and minerals, save grain and protect chicks from disease, inform extension poultry specialists of the Pa. State College.

### TREAT STEERS WELL

Considerate handling along with proper feeding, will go a long way toward developing prize-winning steers at 4-H baby beef roundups, says C. A. Burge, Penn State extension livestock specialist.

- ITS DEPENDABILITY WAS PROVED HERE
- ITS SPEED WAS PROVED HERE
- ITS STABILITY WAS PROVED HERE
- ITS IMPROVED PERFORMANCE WAS MEASURED HERE
- ITS DURABILITY WAS CHECKED HERE
- ITS POWER WAS PROVED HERE
- ITS VISIBILITY WAS PROVED HERE

WHEN you see the 1949 Chevrolets, a glance will be enough to tell you they're new—all new—in line and contour, in beauty and style. And when you look inside, and under the hood, and beneath the chassis, you'll see that their newness is not merely in outward appearance, but in design and engineering and construction as well.

But, to a lot of people, the 1949 Chevrolet is already old. They know what it will do, and how exceedingly well it will do it—they know all about its performance, its comfort, its power, safety, durability and

economy. They are the engineers and technicians of the General Motors Proving Ground—the largest, most completely equipped, outdoor testing laboratory in the automobile world.

Here, before a single new 1949 Chevrolet

let went into production, experimental models were tested—made to show that they possess, in greater measure than ever, all those qualities on which Chevrolet has built its leadership.

In short, the General Motors Proving Ground tests are your assurance that your new-model Chevrolet has proved its worth through many months and many, many thousands of miles of rough handling.

Soon you will see the new Chevrolet—and when you do, you will see a car not only new, but tried and true.
