A FEW DEXTER 1918 MODEL WASH MACHINES AT REDUCED PRICES

KAYLOR BROS.
RHEEMS, PENNA. 1-29-31

This is a diesel... a modern locomotive that means better service to you.
Leaders of two unions think it's a feather-bed... a "make work" grab that means less service to you.

Leaders of unions representing railroad engineers and firemen seek to force railroads to add extra, needless men on diesel locomotives. This is sheer waste—a "make-work" program which would mean fewer improvements and higher costs—for you!

Railroads use modern diesel locomotives because they are one of the means of giving faster, better service to you.
Two men compose the crew of a diesel. They occupy a clean, comfortable cab at the front. The engineer handles the throttle. The fireman sits and watches the track ahead. With no coal to shovel, he has practically nothing else to do.

No Benefit To You
Now the leaders of the Brotherhood of Locomotive Engineers and the Brotherhood of Locomotive Firemen and Engineers want to use the diesel locomotive as a means of forcing a feather-bedding scheme on the railroads. The extra men they propose to add to the diesel crews are not needed. There is no work for them.
The union leaders are fighting among themselves about which union should furnish these extra, needless men. The Brotherhood of Locomotive Engineers have even threatened a strike. You may not be interested in this dispute of these two unions, but you would be vitally concerned if these groups succeed in putting through this feather-bedding scheme, because it would mean a slowing up of the improvement program of the railroads—of which the diesel is the outstanding symbol. Diesel crews are among the highest paid

railroad employees—real aristocrats of labor! Their pay is high by any standard. Granting of these demands, therefore, would mean that the railroads would be paying out millions in unearned wages to those in the very highest pay brackets.

We'd Like To Spend This Money On You
You know how much the diesel has meant to you in increased speed, comfort and convenience. The railroads have many more of them on order for even greater improvement in service to you. But needless drains of money, such as this present demand of the unions for needless men on diesels, reduce the ability of the railroads to spend money on better service for you.
Proud as the railroads are of the diesel, it is only a small part of their improvement program. Since the War, literally billions of dollars have been spent on improvement of

tracks and stations, on new passenger and freight cars, as well as on diesel locomotives, and on the many other less conspicuous details of railroading that contribute to improved service.

Feather-Bedding Means Less Service To You
But brazen feather-bedding schemes like the one now proposed would, if successful, divert large sums of money from our present improvement programs. Even worse, they make improvements like the diesel worthless, by making the cost of their operation prohibitive. These demands are against your interests—as well as those of the railroads. They are schemes to "make work". Neither you nor the railroads should be forced to pay such a penalty for progress.
That's why the railroads are resisting these "make work" demands to the last ditch—and why they are telling you about them.

BREEZE THROUGH 4 BIG KITCHEN JOBS WITH THE Youngstown Kitchenaider-Mullinaider COMBINATION

See the magic convenience you get with the Kitchenaider cabinet sink, plus the new Mullinaider automatic waste-disposer!

See how it helps you in (1) dishwashing; (2) food preparation; (3) disposing of waste; (4) storage of supplies.

See the storage space in gleaming, white-enamel steel cabinet, the host of features for your convenience. And see how easy washing dishes and disposing of waste can be!

Economical, too. Ask about easy terms.

1. Scrape waste down drain opening as you stack dishes. Mullinaider makes kitchen waste vanish like this: Turn on cold water, flip Mullinaider switch, and—presto—waste is shredded, goes down drain.
2. A half turn speedily closes drain opening. Kitchenaider bowl replaces dishpan. Swinging mixing-tapset fills curved bowl that prevents splashing. Four-inch backsplash keeps walls clean and dry.
3. Transfer washed dishes to rubber-covered wire rack in second bowl. Rinse in hot water with trigger-operated flexible rinse spray. (All parts of porcelain-enamel sink top can be reached with spray.)
4. Polish dishes or let drain dry. Mullinaider speedily grinds away residue from dishwashing. Rinse bowls with handy spray and your job is done! How easy it is with a Kitchenaider-Mullinaider Combination!

See Kitchenaider-Mullinaider Combination at your Youngstown dealer's today
