

The Bulletin's Scrapbook!

Week's Recipe

Lima Bean Casserole: 1 c chopped onion, 1 c chopped green pepper, 1 clove minced garlic, 1-4 c salad oil, 1 c whole ripe olives, 1 T salt, 1 T cornstarch, 1 T chili powder, 1-4 c bean liquid or water, 3 c grated American cheese. Saute vegetables in salad oil. Cut olives from pits into large pieces. Blend salt, cornstarch and chili powder in 1-4 c of liquid. Add remaining liquid, sauteed vegetables, olives, beans and 1-2 c of cheese. Mix well. Pour into casserole. Sprinkle with remaining cheese. Bake in moderate oven about 30 minutes. Serves 6-8.

Take A Sack

A local housewife gives a tip about using sugar sacks. A 10 lb. sugar sack measures 15-20 inches when opened flat and this makes the width for a kitchen curtain. The length of the window will take various numbers of sacks, usually 4 1-2 for each strip. Use 1-2 cup liquid bleach to 1 gallon of water, add soap powder and

boil sacks gently about an hour or usually 1-2 hour. They may be slightly starched. After ironing the sacks are ready to be made into curtains. Make a heading for curtain rod. Where sacks are stitched together, cover seams with bright colored bias tape, using contrasting colors for each seam. You might use rows of colored rick-rack instead of bias tape or have colored ruffles inserted where the sacks are seamed together.

Look To Spring

Spring will end its millinery accompanied by accessories. Winter showings point to umbrella popularity, with the facing or colored trimming of the capeau being matched by an umbrella or parasol of same, even if it but the handle on the umbrella. Some designers are showing fancy fans decorated with flowers that are like the hat trimming. Some hats have such wide, soft crown draping that it can be used about the shoulders as a stole or cape.

A hat with flowers on velvet band around crown, has a belt or sash for the dress of same flowers and velvet, or instead of using a belt accessory can be fastened around the neck of the dress.

BUILD THRIFTY CHICKS

Eshelman

RED ROSE STARTING FEEDS

If you've bought well-bred chicks this year, that's a good start. But what counts is the number of thrifty birds you raise. Let Red Rose Starting Feeds do their part in laying the important foundation for the sturdiness and resistance that mean so much with growing birds. Build thrifty chicks the proved Red Rose-way. Thrifty chicks are profitable chicks.

Good Light Saves Not Only Sight But Helps Farmers Do Work Right

By IRA MILLER
Farm Electrification Bureau

Light and good workmanship go together. And farmers, to be successful, must be good workmen. Whether it be in or out of doors, therefore, good farmers are careful to see that they have sufficient "light on their work" for the job at hand. This includes satisfactory, non-glare illumination of all farm buildings and those outside areas where late chores are

Satisfactory "light on your work" in the feed room, as in the above picture, or elsewhere—pays dividends in efficiency.

performed. It means, too, that drive-ways which may be used after dusk by farm vehicles or the family automobile should be properly lighted—for accidents as well as poor workmanship thrive in hard-to-see farm yards and buildings.

In addition to the correct placement, number and types of lights for various locations on the farm, there is another factor to be considered.

That is a wiring system which is planned for adequacy. An efficient wiring system will provide your lights and electrical equipment with all the electricity required for maximum operation.

A recommended guide provides the following information as to lighting outlets needed for satisfactory illumination of some typical buildings:

DAIRY BARN—Outlet every 12 feet on center line of alley, or slightly off center, if necessary, to clear manure carrier. In the feed alley, install lights every 20 feet on center line of alley. Each group of lights should be controlled by separate wall switches.

MILK HOUSE—Outlet for every 100 square feet of floor area, including one in the center of the ceiling and one or two in each work area. **POULTRY HOUSE**—Outlet for every 200 square feet of floor area, installed according to individual practices in providing laying hens with 13 hours of light in every 24 hours. Use of a time switch will relieve farmer from turning lights on and off at required periods. Dim light outlets should be on separate circuit.

BEEF CATTLE BARN—Outlet for every 250 square feet of open pen area.

SHEEP BARN AND LAMBING SHED—Outlet every 20 feet on center line of feed alley. **HOG AND HARBORING HOUSE**—Outlet for each pair of hot pens. Locate lights over partition line. **HAYMOW**—The following three ideas are suggested: one light near peak of roof, floodlight located high at one end of mow, or two floodlights placed at diagonally opposite corners of mow. **FARM SHOP**—Outlet for every 200 square feet for general lighting. For local lighting, it is suggested that one light be installed to illuminate each permanently placed piece of equipment and each 10 feet of bench length.

MACHINERY SHEDS—Outlet for every 400 square feet of space. **TORRENT BARN**—Outlet every 12 feet. Locate them on posts on one side of center drive-ways.

In all cases, lights should be controlled by switches. Power suppliers and dealers can provide additional lighting and wiring information. They also can help in planning the best locations for yard lights and other outdoor lights.

THE WEATHER!

BY KENNETH DROHAN

The following is a report of the local weather conditions from Wednesday, February 9 to Tuesday, Feb. 15th:

Day	Low	High	Rain
Wednesday	24	58	.00
Thursday	28	38	.45
Friday	23	33	.00
Saturday	2	38	.00
Sunday	24	45	.00
Monday	35	57	.00
Tuesday	53	73	.13

New **Gibson**
ELECTRIC RANGE WITH UPS-A-DAISY

4 Surface Units or 3 Surface Units, Plus Deep-well Kookall

If you're looking for the outstanding electric range "hus" of the year, come in and inspect the new Gibson Model K. Yes, it's equipped with UPS-A-DAISY, that great innovation found only on Gibson electric ranges. Yes, it has two complete ovens! Yes, it has a waist-high broiler! Yes, it has gleaming, easy-clean, porcelain-on-steel finish! Here's the newest of the new—a genuine Gibson, precision built by a firm with 26 years of experience in creating home appliances.

BIG TRADE-IN ALLOWANCE FOR FEBRUARY ONLY

Earl B. Longenecker

LANDISVILLE, PA. PHONE 4111

Women's Mission.

(From Page 1)

Grace was sung to a Chinese Folk tune, and readings were given on the meaning of "Willow Plate," Chinese customs, and Chinese people, by the various members. Discussion of the final chapters of the book, "China, Twilight or Dawn," were given by Mrs. Harold Brown and Mrs. W. L. Koder. The Chinese hymn, "Unafraid," was sung as a part of the worship service which concluded with a prayer written by a Chinese Christian. A short business meeting which followed the program, was presented over by the president of the society, Mrs. Clyde Eshleman.

FURNITURE AUCTION

TIME — February 25, 1949 — 7:00 p. m.
PLACE — MARKET BASKET
New Farmers Market Bldg. — 59-61 College Ave. — E-TOWN

This is a Clearance Sale of furniture from the stock of the Milton F. Eberly Furniture Store, Route No. 3, Elizabethtown, Penna.

We have gone over our merchandise and are offering to the public at Auction, furniture which is only covered partially by the following list:

- One Dozen Breakfast Sets; some metal, some wood, a few not so good and a few brand new numbers.
- About 3 dozen odd kitchen chairs and stools, mostly wood, white with red trim, a few in oak.
- An assortment of floor and table lamps.
- This group includes lounge chairs, reclining chairs, platform rockers and Cricket chairs. Some of these numbers have been worth as much as \$65.00; they will be sold.
- Three used two piece living room suites, good condition, but a little out of style.
- One Virginia Sofa, custom made, dark cover
One Chaise lounge, wine cover, war model.
Three piece sectional sofa and chair, tight seat.
- Three new bedroom suites, one walnut, one maple, and one solid grey oak. When you see these, you'll be surprised at the size, quality and beauty.
- Three new living room suites, one mohair, 2 Mohair friezes, COMFORTABLE, BEAUTIFUL, DURABLE—right out of our stock of regular good grade suites.
- One cedar wardrobe, about one dozen fiberobes, one modern Dinette Hutch Cabinet, one modern Sellers Kitchen Cabinet, (regular price \$100.00). A few smokers, end tables, high chairs, mirrors, odd dressers, chests and miscellaneous items.

Do not be misled by thinking the goods on this sale is all obsolete or shop worn. Much of it is good, average grade or fine furniture, and when you see it, you will wonder why we are selling it this way. We want our many friends and customers in our local community and the surrounding territory to have a chance to buy at prices which will be a great saving to you. The goods for this sale may be seen anytime during the afternoon on the day of sale, or any other time by appointment after the 23rd. Furniture will be as represented.

DON'T FORGET THE TIME: FEBRUARY 25, 1949—7:00 P. M.

Don't forget the place: The Market Basket, New Farmers Market Building, 59-61 College Avenue, Elizabethtown. Plenty of room inside.

FOOD SALE IN THE SAME BUILDING AT THE SAME TIME.

BREEZE THROUGH 4 BIG KITCHEN JOBS

WITH THE *Youngstown*
Kitchenaid-Mullinaider COMBINATION

See the magic convenience you get with the Kitchenaid cabinet sink, plus the new Mullinaider automatic waste-disposer!

See how it helps you in (1) dishwashing; (2) food preparation; (3) disposing of waste; (4) storage of supplies.

See the storage space in gleaming, white-enamel steel cabinet, the host of features for your convenience. And see how easy washing dishes and disposing of waste can be!

Economical, too. Ask about easy terms.

DISHWASHING THE EASY WAY

- Scrape waste down drain opening as you stack dishes. Mullinaider makes kitchen waste vanish like this: Turn on cold water, flip Mullinaider switch, and—presto—waste is shredded, goes down drain.
- A half turn speedily closes drain opening. Kitchenaid bowl replaces dishpan. Swinging mixing-faucet fills curved bowl that prevents splashing. Four-inch backplasher keeps walls clean and dry.
- Transfer washed dishes to rubber-covered wire rack in second bowl. Rinse in hot water with trigger-operated flexible rinse spray. (All parts of porcelain-enamel sink top can be reached with spray.)
- Polish dishes or let drain dry. Mullinaider speedily grinds away residue from dishwashing. Rinse bowls with handy spray and your job is done! How easy it is with a Kitchenaid-Mullinaider Combination!
