Sheppard Dealer**

**Only Sheppard Diesel Tractors
offer these Money Saving Features**

Lower Operating Costs.—Amazing fuel cost savings up to 75%. are made possible by Sheppard Diesel Tractors. They start and operate on ordinary furnace oil (#2, #3, #4). Their small hourly consumption of this economical fuel sets a new standard for low-cost tractor operation that results in extra farm profits for every day's work.

Lower Maintenance Costs.—Sheppard's full-diesel operation eliminates an electrical ignition system, a carburetor and spark plugs. As every farmer well knows, these parts are the most frequent cause of expensive repairs and costly delays. Rugged construction with the finest materials . . . finished to very close tolerances . . . means hundreds of extra hours of dependable operation between major overhauls.
