—FRESH COWS —CLOSE SPRINGERS
—BRED HEIFERS —OPEN HEIFERS
—SERVICE AGE BULLS —HEIFER CALVES
—COMPLETE DISPERSAL —HENRY SCHELL, JR., PHOENIXVILLE, PA. MILKING HERD OF 33 HEAD.

Long a popular herd of the State, bred in blood lines, noted for heavy production.

IT WILL AFFORD ALL BREEDERS AND DAIRYMEN A RARE OPPORTUNITY.

YOU WILL BE ABLE TO BUY MANY OF THESE COWS AT SURPRISINGLY LITTLE more than grades cost you —and bear in mind, this is the 74th in the highly reliable Garden Spot series

— where the buyer is treated courteously,
— where every animal is pledged in absolute sale,
— where every animal is sold to be exactly as represented.

YOU CANNOT AFFORD TO MISS THIS SALE—Last month there were many wonderful bargains and numerous parties expressed regrets that they failed to take advantage of the opportunity to buy such high producing animals for such very reasonable prices.

Sale starts at 12:00 Noon, lunch or hot dinner available, good trucking service.

COME — BRING YOUR FRIENDS AND NEIGHBORS THERE IS PLENTY OF PROFIT IN PRODUCING MILK TODAY — if you keep maximum producing cows and — they are YOURS for the last bid at this sale.

ment that steps up crop producing efficiency and lowers output costs per unit.

Good soil management involves no magic or mystery. It simply means playing fair with the soil by returning organic matter and plant nutrients used up by constant crop production. Organic matter can be restored by growing deep-rooted legumes such as alfalfa or sweet clover in the rotation and plowing them under for green manure.

When the soil is restocked with organic matter and plant food you will get higher yields and you will cut your production costs.

Dry Skim Milk Retailed Now in Small Packages

Now that dry skim milk—officially called non-fat dry milk solids—is on retail markets in small packages for home use, thrifty homemakers have a convenient, economical product to build up the nutritive value of family meals.

The ease and convenience of its use as well as its high nutritive value justify its place along with flour, sugar and salt on the pantry shelf of every homemaker.

Everybody reads newspapers but NOT everybody reads newspaper advertising in the Bulletin.

Sale Register

Everybody in this locality reads The Bulletin—that's why its advertisers get such excellent results.

Ringold Lady Dora Tops Hampshire Sows
Raises Total of 71 Pigs to Weaning Age

First of her Hampshire breed to become a "seven-star" sow, Ringold Lady Dora No. 753,056 has raised a total of 71 pigs to weaning age, an average of 10.1 pigs per litter. This record is more impressive when compared with national averages. According to U. S. department of agriculture reports, the national average is 6.18

Paper Pulp for Cattle
In Sweden ever since the end of World War II, farmers have been feeding hundreds of thousands of cattle and horses, with apparently excellent results, paper pulp mixed with molasses, soybeans and minerals.

Heat Conservation
Loose-fitting windows and doors need weather stripping to make them tight against drafts and heat leakage. Metal weather stripping of either the flat type or the interlocking type gives the best and longest service.

Iron Safely
It's a good thing to study the way you iron to be sure you're doing it safely. Provide a fire-proof cover for your ironing board. And always disconnect the wall plug before answering phone or doorbell.

Location of Study Lamp
To avoid shadows on work when children are studying, place the study lamp at the left of those who are right-handed and to the right for the left-handers.

Bed Facts
Average double bed is only 54 inches wide, while twin beds are each 39 inches wide, a total of 78 inches, or 12 inches more per sleeper.

Tractor Accidents
Refueling hazards, falls from the machine, overturning of the tractor, and unguarded power drives are the causes of most tractor accidents.

Red Clover
Red clover has been found to improve in feeding quality when grown on land treated with manure, limestone and rock phosphate.

Darkness Increases Danger
Early darkness during the autumn and winter months doubles traffic troubles—and it increases accident dangers on the farm, too.

Colored Clothes
Wrap dampened colored clothes in waxed paper, to keep them from fading onto other clothes in the basket.

Farm Production Costs
Production costs for the U. S. farmer are three times the pre-war average—except for feed.

Cooked Food
Let cooked food cool to room temperature before you put it into the refrigerator.

Cooking Potatoes
If potatoes are not to be cooked in their jackets, peel them just before cooking.

Garden Lettuce
Green leafy garden lettuce is richer in vitamin A than the paler head lettuce.

Biscuit Cutter
Use the ice-cube mold out of the tray to cut biscuits. This way you will have nice neat squares to serve, and there'll be little wasted dough.

Rinsing Clothes
Ordinarily, three rinsing waters are necessary for thorough removal of soap and dirt from clothes. The first rinse water should be warm, the next two lukewarm or cool.

Waxed Floors
Don't use an oily mop for polishing waxed floors. This will soften the wax coat, and the floor will collect dust.

Sparrow Hawk
It is estimated that a sparrow hawk captures 200 field mice and innumerable grasshoppers each year.

Idaho Irrigation
Idaho is third in the nation in number of irrigated acres of farmland with two and one-half million acres under irrigation.

CLINTON IS BEST
Among the newer oats varieties, Clinton is one of the best, according to J. B. Dickey, extension agronomist of the Pa. State College. He reports that farmers have now found it heads the list of all the varieties for general soil and crop conditions. Clinton 57 is an improved strain of this variety.

Farm Production Costs

The chart shows a significant increase in farm production costs from 1935-39 to 1949. The 1949 costs are approximately 1.5 times higher than the 1935-39 average.
