A Soil Erosion

(From page 1)
At the above meeting Mr. Frank G. Bamez, Agronomy Extension Specialist from Pa. State College will actually lay out a hillside with contour strips on the Lyons farm; also he will discuss the care and management of contour and of the straight strip farming. It is the feeling of the Extension Service that many farmers can help themselves to correct the erosion problems provided they understand a lot of the essentials of soil losses. Farmers are minded that the establishment of strip farming is only part of the remedy and that the proper management of the strip and proper crop rotations is also equally important.

All farmers in the county are welcome to attend this meeting or demonstration. There will be only one event of its kind held in the county this spring by the Extension Service.

LIVESTOCK HEALTH ODDITIES

SHEEP EXPOSED TO SUNLIGHT AFTER EATING CERTAIN WEEDS DEVELOP "BIG HEAD" DISEASE.

CESAREAN SECTIONS HAVE NOW BECOME COMMON PRACTICE IN VETERINARY SURGERY SAVING MANY CALVES, PIGS AND PUPPIES.

BETWEEN 25 AND 30 PER CENT OF ALL PIGS DIE BEFORE WEANING.
