EDITORIAL

Many families have been playing true and false games for many years.

The reason a lot of people do not recognize opportunity when they see it is because it goes around wearing overalls and looking like hard work.

Some folks go to church Sundays to ask forgiveness for their sins and spend the other six days sinning.

It is hard to convince the man who has too much money and the one who has too little, that all men are created equal and free.

Last week The Bulletin published a news item relative to the appointment of an acting postmaster here. Also the appointment of our postmaster as rural carrier.

Both named have been staunch Democrats all their lives and up to this time not a word has appeared in Lancaster's Democratic Daily Newspaper relative thereto.

Wonder who's slipping?

A LOSS OF PUBLIC TRUST

Recent publicity about the many newspapermen who have been on the Illinois state payroll, has now brought comment and criticism from all quarters. Perhaps this doesn't happen only in Illinois, and perhaps the innocent will suffer with the guilty, but newspapermen everywhere must take a stand to protect the cause of journalism. Whether these newsmen actually earned their state salaries, the criticism leveled at such a practice is that it is a breach of ethics of the profession. Serving the public with editorials and news stories and acting administrative interests for pay, is serving two masters with prejudice, is the only charge. It is damaging to those newsmen who have tried to do their job faithfully and conscientiously.

HIGHER AND HIGHER

Taxes higher today than ever before, are yet to be higher next year. Next year they will reach \$63 billion and that is one-fourth of our national income. Every \$1 out of each \$4 goes to meet the federal, state and local services. Why are taxes so high and going higher? For one thing, we demand more services from government and receive more.

The Hoover report for reforms in the executive branch of government, dealing with waste, duplication, inefficiency, overlapping of bureaus and so on, if corrected effectively and rationally, would save tax money and not hinder but help the administration of the government. We have good men in good departments, but hit and miss budgeting, poor buying practices, won't help good men to now maintain good departments. The U. S. needs millions of dollars for operating expense, to pay millions of people employed by the government. If the people who must pay these millions of dollars can save money by being governed more efficiently and less costly, through reforms, we the people would appreciate the consideration!

TO A VEGETABLE

Coming through winter with but a few battle scars from snow and coal shovels, we welcome the time when we can go into our gardens and pick fresh vegetables. But, winter too held its supply of fresh vegetables of every variety to make meals more palatable. There are old timers here who can remember back when it was next to impossible to buy these in a grocery during winter months. Customers then were offered carrots, onions, potatoes and turnips, which about concluded the list. Today the grocery display is as attractive in December and January as in June and July. Beans, peas, tomatoes, lettuce and radishes alternate in colorful rows with beets, cabbages, parsnips, cauliflower, lima beans,

gich's car and sideswiped a truck going north on the two lane highway and driven by Eddie Harrison, twenty, Harrisburg.

Nissley tried to escape, the two men said, and they followed him for about two miles until Harrison was able to drive his truck in front of Nissley's car and run him off the road. Harrison and Gingrich said that Nissley then began to fight viciously and Harrison grabbed a piece of lead pipe from his truck and held him off until the police, summoned by Gingrich, arrived and subdued him.

Damage to Nissley's car was estimated at between \$400 and \$500 by witnesses at the scene, while Harrison's truck, which had a fender ripped off, a new tire cut and the steel body bent, was damaged to the extent of \$250.

Nissley was committed to Dauphin County prison early Thursday evening on charges of operating a motor vehicle while under the influence of intoxicants and failure to stop at the scene of an accident. He is a native of Florin.

ged in a ditch with a portion resting on the eastbound rails.

Unable to move the car, Sherk and his son, Roy, went up the track to try to flag the flier, which was soon due at the crossing. The engineer reduced his power when he saw their warning but was unable to avoid hitting the auto, a 1936 model, which was demolished.

The car was thrown clear of the rails and the train was delayed only 14 minutes, according to railroad officials.

The car was brought to Ament's Garage here and is a mass of old wreckage beyond repairs.

into the right front bumper of his car.

The driver said that as soon as he hit the man, he swerved his car to the left but an auto traveling westward made him turn again to the right. He brought his car to a stop approximately 150 feet from the point of impact, then he ran back to the injured man, who had rolled to the south side of the highway. Police said the distance from the point of impact to where Graybill was lying measured 39 feet, 6 inches.

Three passengers in Helmstaedter's car, who corroborated his story, were Ralph Saunders, Florin, Abram Greenawalt, Manheim RD2, and Eleanor K. Habecker, Landisville.

Lancaster police responded in the ambulance and conveyed Graybill to St. Joseph's Hospital, where he was pronounced dead on arrival.

Dr. Charles P. Stahr, deputy coroner, said death resulted from a fractured skull and crushed left chest.

Police said there was a dent in the right front fender of the auto, the right windshield was shattered and broken and the post and top of the auto, above the windshield, also were dented by the impact.

Capt. Ray Charles said there was no apparent negligence on the part of Helmstaedter.

WOODLAND DESTROYED BY FIRE NEAR IRONVILLE

A gasoline-driven home lighting plant and about one acre of woodland were destroyed by fire in the Indian Head section near Ironville on Monday.

The Ironville Fire Co. fought the blaze for over an hour before they brought it under control. The fire originated in the lighting unit, firemen said, after which burning

gasoline spread to the woods.

The lighting unit is situated at a cabin owned by Leroy Garman, Salanga, who occupies the small building on weekends. The cabin was unharmed.

THE ESHLEMAN REUNION

The annual reunion of the Eshleman family will be held at Litz Springs Park on Sunday, June 12. There are 400 members of the clan and a large attendance is expected.
