MEMO To Mrs. Housewife
NATIONAL PRESS BUILDING WASHINGTON, D. C.
By Anno Goodo

Don't be surprised if someday at the supermarket you hear a voice from a loud speaker suggesting that you visit the canned fruit section or the meat department for good buys. Grocers are finding the public address system a wonderful way to advertise special sales.

Vacation trip still to come? Put your luggage in A-1 condition by treating the leather with the oil of shinolite. Wax shoe polish cleans, polishes and keeps it supple. Helps prevent scuffing, too.

When the fiber rug on your porch becomes faded from the summer sun apply a coat of your favorite color house paint thinned with turpentine. (1 part turpentine to 3 parts paint). "New rug," they'll ask.

Looks like everyone will be having turkey for Thanksgiving this year. That kind of birds will be so plentiful experts believe the price won't rise as the holiday nears. Tumbling feed prices is the reason.

For those picnics where each person makes his own sandwiches, pack vitaminized margarine in a glass jar for easy carrying. Even on the hottest days it doesn't become runny and look unappealing.

In his new school suit this fall your young son will look like something out of a wild west show. Manufacturers say 90% of the small boy's apparel will have a mild western flavor with a bit of fringe, slanted pockets and a slightly different cut. Very few spurs and ten-gallon hats, however.

Canned Citrus Juice
Flavor of canned citrus juice can be made more like that of fresh juice by pouring the chilled juice back and forth from one glass to another just before serving. This puts back into the juice the air which was removed during the vacuum canning.

Housing Shortage in 1800's
In the 1800s there was a type of folding bed sometimes known as a press bedstead or a cupboard bedstead. When not in use it was kept fastened upright in an alcove or cupboard in the wall, and when needed was tilted down into the room.

Western Hemlock
Western hemlock is used largely in house construction for framing, sheathing and subfloors. Large quantities also go into siding, ceiling, flooring and shiplap. Other uses are sash, doors, blinds, general millwork and cross ties.

Softwoods
Softwoods are a botanical group of trees that have needle or scale-like leaves and are evergreen for the most part. The term has no reference to the actual hardness of the wood.

New Tomato Variety
Southland, a new tomato variety which is resistant to collar rot and nearly immune to fusarium wilt, has been developed by the U. S. department of agriculture.
