**A Chest Xray**  
 (From page 1)  
 either building; however, the time from 3:30 to 5:00 p. m. will be available for those not in school and if necessary the unit will remain until 5:30 p. m.  
 These exams were given in Mt. Joy two years ago, and those who have not had a chest x-ray since that time should have one taken now.  
 All citizens of the borough and vicinity as well as all school children should avail themselves of the opportunity. No one knows when Tuberculosis will strike and only by periodic x-ray exams can any person detect infection in time for early treatment.  
 The cost of the x-ray is \$1.00 per person payable by adults at the time of examination. However, school children are required to have permission slips signed by parents and the dollar should be turned into the school with the signed slip.

**Farm Buying Power Still Shows Gains**  
 Increase Well Above Cost of Living Rate

The current drop in living costs has given the average city wage-earner approximately the same buying power today that he enjoyed in June, 1946, final month of OPA.  
 Though the farmer's buying power has edged off with the drop in food prices it is bumping against government price supports, and still shows a gain that is well over double the increase in the cost of living, according to a chart study of our ten-year-old war boom, made by the family economics bureau of Northwestern National Life Insurance company.  
 Ten years ago last winter you could buy a new four-door sedan for \$825, sirloin steak was 39 cents a pound, milk averaged 12 1/2 cents a quart, and you could build a five-room modern house for around \$3,000—but we had 10 million unemployed. Then European rearmament orders sparked our recovery

from a nine-year-old depression, the study recalls.  
 After an even 10 years of recovery, boom, inflation, and tapering off, the score stands as follows: Net annual income per farm 300 per cent higher—it was \$702 in 1939, and reached \$2,915 in 1948, and had sagged to an annual rate of \$2,830 by January, 1949. Weekly industrial wages up 130 per cent—from \$24 in January of '39 to approximately \$55 in January of '49. Living costs 71 per cent higher than 10 years ago, after nearly a four-point drop in the last few months. Finally, about three million unemployed—a normal "float," as economists call it.  
 Wage rates show a gain of 28 and a half per cent since June, 1946, while the cost of living index now stands just 28 per cent higher than in that final month of OPA. The actual living cost increase has been somewhat less than 23 per cent, the study says, since the government index naturally makes no allowance for over-ceiling prices which were general in the latter months of OPA; thus the wage-earner's paycheck of today buys him as much or slightly more than his paycheck of June, 1946, the study finds.  
 Percentage increases in worker paychecks do not reflect sharp additional gains made in so-called "fringe" payments during the past decade, such as more vacations, holidays, sick-leave, pension programs, etc., the study points out.

**News From Florin**  
 (From page 1)  
 Breneman, Mrs. Howard Bernhard, Mrs. Samuel Becker, Mrs. Clarence Myers, Mrs. Robert Eschelman and son, Robert Jr.  
 Mr. and Mrs. Earl Walters of Salunga and Mr. and Mrs. Arthur Mathias and son, of Palmyra were Sunday evening guests of Mr. and Mrs. Clarence Myers.  
 Mr. and Mrs. George Mumper visited Mr. and Mrs. Ralph Mumper at Nesville on Sunday.  
 Mr. and Mrs. Clarence Musselman celebrated their 25th wedding anniversary on Sunday.  
 Mr. and Mrs. Harry Frye of Carlisle called on relatives in town on Sunday.  
 Mrs. Earl Gerlitski was admitted in the St. Joseph's hospital at Lancaster on Tuesday as a surgical patient.  
 Mr. and Mrs. Beni Kaufman entertained the following to supper on Wednesday evening: Mrs. I. B. Gidder and Mr. and Mrs. Alvin Bigler and daughters.  
 Rev. and Mrs. Howard Bernhard and son, Freddie, and Mr. and Mrs. Clayton Breneman spent Sunday at Shippen and Rev. Earnhart remained there and will hold a series of Revival Meetings, at the Brethren Church.

**Poultry House Cleaner**  
 A superior poultry house cleaning method has now been found—cleaning with a high-pressure sprayer. As shown here, the high-pressure spray actually pulverizes the dirt and droppings and blasts them away. Food Machinery and Chemical Corporation developed the sprayer that is doing the cleaning. It is said to do a better and cheaper cleaning job, faster and easier.

**Hormones May Limit Frost Damage in Time**  
 American apple growers, usually hard hit financially by late spring frosts will soon be able to avoid that obstacle. A combination of tracers (radioactive atoms) and hormones may make it possible to keep apple buds closed until the cold season has passed—thus saving the industry millions of dollars lost annually through damaged fruit. A spray would be used to cover fruit and prevent freezes.  
 Richard H. Kahler of Landville and Mary L. Holbein of East Petersburg.

**Sale Register**  
 If you want a notice on your sale inserted in this register weekly from now until day of sale, ABSOLUTELY FREE, send or phone us your sale date and when you are ready let us print your bills. That's the cheapest advertising you can get

**Firearms Casualties**  
 Every year more than 2,000 persons accidentally lose their lives because of careless handling of firearms. The total was 2,500 in 1947. Most of these needless deaths are in hunting accidents.

**Louisa Railroad**  
 In 1856 the Louisa railroad was organized to build a railway line to the Blue Ridge mountains. This was the railway line of which the Chesapeake and Ohio is the direct descendant.

**Idaho Ghost Town**  
 Bay Horse, a ghost town in Custer county, Idaho, received its name because a man discovered a rich outcrop vein of ore here while he was out looking for his bay horse.

**Big Bend Tunnel**  
 The original Big Bend tunnel was built in 1872. When it was "holed through," the opposite bores were out of alignment only a matter of a few inches.

**Sunshine State**  
 "It Grows as It Goes" is the motto adopted by New Mexico, the "Sunshine State." Yucca flower is the state flower and the road runner is the unofficial bird.

**U. S. Workers' Pay**  
 Average American worker makes 60 per cent more per hour than the British worker and 67 per cent more per hour than the German worker.

**Cleaning White Shoes**  
 White shoes should be cleaned off the foot and dried thoroughly; otherwise they may stretch out of shape.

**Emily Dickinson**  
 Although famous as the author of six volumes of poems, Emily Dickinson had not a single line published during her lifetime.

**Waxed Floor Finishes**  
 Varished or waxed floor finishes last longer if cleaned with mineral spirits and turpentine instead of water.

**DDT Residue**  
 A residue left by a spray containing DDT is probably more effective against houseflies than any other treatment.

**Point to Remember**  
 The way a dress is made, as well as the fabric in it, determines how easily it will wash and iron.

**Source of Calcium**  
 Turnip greens are a rich source of calcium in human diets.

**Wet Clothes**  
 Hang wet clothes on the line by their firmest and heaviest parts.

**Everybody in this locality reads The Bulletin—that's why its advertisers get such excellent results.**

**Tynwald Parliament**  
 A picturesque ceremony of more than 1,000 years standing is observed each summer when the Tynwald parliament of the Isle of Man meets on a hilltop above the site of St. John's. The acts passed in the preceding year by the House of Keys are then proclaimed in Manx, the native language, and English before finally becoming the laws of the island. The legislative assembly is one of the oldest in the world.

**Leonides, Physician**  
 Alexandria was an important city in the ancient world of medicine. There, in about 180 A. D., lived Leonides, the first physician to describe retraction of the nipple as an important clinical sign of breast cancer. Leonides and his contemporaries understood cancer better than did their Hippocratic predecessors. Furthermore, they broke with the nihilistic traditions of the Greeks, and treated the disease aggressively.

**R. R. Terms of Past**  
 Many railroad terms are outdated by new developments. The "emigrant cars" used to haul new arrivals at reduced fares; "tee cars" designed to ship ice from country ponds as far as China when ice was a major Eastern industry, and the "bull trains" of covered wagons pulled by oxen across the prairies, are examples of terms which are now almost obsolete.

**Wood Duck**  
 Wood duck is one of the few species of the duck family that does not nest on the ground. Selecting a cavity in a tree deserted by some other woodland dweller, the nest is made of sticks, pieces of plants and lined with feathers plucked from the breast of the builder.

**Low Heat for Sausage**  
 Keep the heat low when cooking bacon and sausage. These products can be cooked thoroughly without drying, hardening or scorching. Low heat will give the best flavor, tender texture and least waste.

**Moles Not Blind**  
 Moles do have eyes, but because of the earth they must travel through, they are set so deep in the fur that they cannot be seen unless the hair of the fur is parted and the head closely examined.

**Silver King Mine**  
 When the Silver King mine in Idaho's Sawtooth mountains was closed in the latter part of the 19th century, it still contained such rich ore that a watchman was employed for 40 years to watch over it.

**Firearms Casualties**  
 Every year more than 2,000 persons accidentally lose their lives because of careless handling of firearms. The total was 2,500 in 1947. Most of these needless deaths are in hunting accidents.
