## School News From

(From page 1)

test with "Autumn" as their theme. The winners are as follows: 1st, Richard Becker; 2nd, Valera Johnson; 3rd, William Dommel. Large prizes will be made shortly.

The senior commercial students of East Donegal High visited the newly remodeled First National Bank in Mt Joy Monday afternoon. Modern banking procedures were explained to the class by bank officials. Mrs. Naomi Houser, commercial teacher, accompanied students.

Caring assemblies are now on schedule as follows: Nov. 30—Bob Wood, artist, in "Adventures with Chalk"; Dec. 2—Student Program, participants from every homeroom; Dec. 9—Frank Guy Armitage, actor in "Dickens and His Queer Folks"; Dec. 16—Carol sing by student body.

A special Thanksgiving assembly was held this morning in the high school auditorium. The speaker was Rev. John Gable of Florin U B Church. Students participating were: Ruth Moreland, sacred solo. Hazel Crankshaw, Lawrence Weaver, Glenn Arnold and Jack McKain, instrumental quartette and Peggy Hicks, Kay Warfel, Rosene Musser, Jean Miller, Kenneth Roth, Glenn Forney, Wilbur Brubaker and Harry Hershey, vocal octette.

### Conestoga Wagon

Wheelwrights in Pennsylvania's Lancaster county first used the Conestoga wagon around 1750. Farmers in the region used it to haul supplies, bring in grain harvests, and transport produce to markets. Originally intended to solve only local transportation problems, the wagon's sturdiness and capacity soon made it the nation's leading vehicle for overland travel.

### Cost of Foot Troubles

Foot trouble accounts for an annual loss of more than 100 million dollars in U. S. wages and production according to a recent survey, and every third person in this country complains more or less constantly about aching feet, with "invisible hotfoot," a burning, itching sensation, high on the list of pedal ills.

### Non-slip Paint

Developed for protection of human traffic on floors in public institutions, industrial establishments, etc., where slippery conditions are likely to prevail, a non-slip paint safeguards against accidents as it protects against wear and tear of floor surfaces.

### Altai Mountains

The Altai mountains which help to form the northern boundary between China's Sinkiang province and Outer Mongolia derive their name from the rich gold deposits they hold. Altai is from a Mongol word for gold—thus the "Golden Mountains."

### Medicine Bottles

Transparent tape put over the labels on bottles and jars of cleaning materials, cosmetics and medicines will keep the labels from being ruined when liquid is spilled or drips over the edge.

### Goddess of Freedom

The upraised torch of the Statue of Liberty is familiar to millions, but not many know that the Goddess of Freedom holds the Declaration of Independence in her other hand or that the broken chains of tyranny lie at her feet.

### African Languages

If you are a linguist you would probably be very popular on the "dark continent." More than 700 different languages are spoken by the African people.

### Removing Scum

To remove scum from jelly, soup, or other food products that need to be skimmed, use a fresh, clean vegetable brush. After the first skimming, rinse the brush and skim again.

### Origin of "Pumpkin"

The word pumpkin is derived from the old French term pompon, meaning to be eaten when ripe. In modern French, pumpkin is potiron.

### Treated Land

At Dixon Springs in southern Illinois, pastures treated with limestone and phosphate yielded 3,164 pounds of dry matter an acre, whereas untreated land yielded only 1,069 pounds.

### Rolling Stock

More new freight cars and locomotives were installed in service in the first seven months of 1949 than in any corresponding period in about 25 years.

### Egg Yolks

Extra egg yolks may be used in scrambled eggs, custards, cakes, salad dressing, and batters for dipping foods to be fried.

### Corn Borer Control

Good clean plowing of cornfields, using coulters, jointers and wires or trash shields, should destroy 98 to 99 per cent of the corn borers.

### Back to Nature

Drinking cups in the 16th century were frequently made in the shape of birds, animals, and other figures, and were fashioned from gold, silver and wood.

### Durable

Authorities in the textile industry recently estimated the life of stainless steel dyeing equipment to be 20 to 25 years.

### West Point President

There was only one West Point graduate who became President of the United States—Ulysses S. Grant.

### Presumed Innocent

In the U.S. you are innocent until proved guilty. In many other countries you are guilty until proved innocent.

### Custards

When making a custard, do not use too much sugar. It may prevent it from thickening properly.

### Cotton Machines

More than 900 different cotton picking machines have been registered at the U.S. patent office!

### Public Transit

There is one public transit vehicle for every 1,500 persons in the United States.

### Wire Drawing

The first wire drawing mill was built by Nathaniel Miles at Norwich, Connecticut, in 1775.

When in need of Printing, (anything) kindly remember the Bulletin

### City of Healing

The world has beaten a path to Rochester, city of healing, where rises the 20-story tower of the Mayo clinic. Half a mile of tunnels under downtown streets connect the clinic with hotels and hospitals. In one of the restaurants, a well-placed sign reads: "Of course, we'd dearly love to hear about that perfectly fascinating operation of yours, but not please, while we're eating."

### Alchemist's Dream

The goal which the alchemist sought in vain has now become a stark reality. The atom bomb, the artificially prepared radioactive isotopes, or the atomic fission of today are successful illustrations of the unsuccessful attempts of yesterday at transmutation of base metals into gold.

### Particles A-Plenty

There are more than 10 billion phosphor particles inside each two-foot-long fluorescent lamp. Yet this quantity amounts to only an "ant-hill" of powder weighing one and a half grams—half the weight of a penny. The phosphor transforms ultraviolet radiations into light.

### Ladino Clover Seed

Ladino clover seed production in 1949 is the largest on record, with an estimated crop of 2,370,000 pounds of clean seed, as compared with 1,950,000 pounds in 1948 and 812,000 pounds for the average of 1943-47.

### Italy's Need

Italy is extremely short of fuel and mineral resources. Before World War II, this country imported more than five times as much coal and nearly 120 times as much crude oil as it produced.

### Recovery from Cold

Several days' rest is a vital factor in proper recovery after a bout with the common cold. The body is weak and the nervous system upset. In view of the time it takes to have a cold, the time spent avoiding colds is a good investment.

### Nose for News

A southern newspaper recently produced an edition that contained a cinnamon-flavored advertisement by a baker. The dogs pounced on the papers when they were delivered and chewed them up.

### Matching Thread

To be sure of having matching thread for rehemming or mending, ravel the chain stitch sometimes found in the hems of ready-made garments and wind it on an empty spool.

### Cotton Growing

Experiments with the new organic insecticides indicate that cotton growers may be able to shift from dusting to spraying for control of insects, says the U. S. department of agriculture.

### Cooking Liver

Calf or beef liver is cooked best at a very moderate heat for a very short time. It should be removed from the frying pan as soon as it has changed color throughout.

### Diesel Locomotives

Forty-one per cent of the diesel-electric locomotives now owned by the Class I railroads are used in freight and passenger road service and the remainder in yard service.

### Poultry House Litter

Chopped straw makes a good litter for poultry houses, since much of the pithy inside surface is exposed to absorb water.

### Hessian Fly

Destroying volunteer wheat helps to control Hessian fly infestations. Wheat should not be planted until after the fall brood of flies has emerged and left.

### Grow Legumes

One way to supply the soil with organic matter and keep the productivity high is to grow legumes with grasses.

### 20-Count 'em—20

Twenty types of grapes are used in production of port wines in Portugal and as many as 10 may be found in a single vineyard.

### Smoking Tobacco

Output of smoking tobacco in 1948 was nearly 108 million pounds—a gain of about three million pounds over 1947.

### Youthful Genius

Einstein first came into prominence with his theory of relativity when he was under 30 years of age.

### Thyroid Gland

If the thyroid gland is removed from a cow, her milk flow will decrease about 74 per cent.

### Lightning Rods

Lightning rods protect buildings only when the connections and ground wires are in good order.

### Sweet Potatoes

Cook sweet potatoes quickly and serve them, piping hot to preserve as much Vitamin C as possible.

### Baked Apples

For baking, a housewife wants an apple that will hold its shape, even when the baking has made it soft.

Stimulate your business by advertising in the Bulletin.

Let's take time out this Thanksgiving to do some serious thinking about all the things that are right and good in this country . . . and lets resolve to carefully preserve those institutions that have made our way of life so happy.
