Eases Farm Chores
 Wagon unloaders are among the latest electrical devices to be developed for farm chore use. Most types are still in the experimental stage, but many sections of the country already are using them to a large extent. In Wisconsin, for example, 50 per cent of the farmers who have forage harvesters also have electric wagon unloaders.

Narrow Poultry Houses Give Way to New Style
 D. D. Moyer, extension poultry specialist at Ohio State university, says the narrow type poultry house 15 to 20 feet deep is giving way to houses 30 to 40 feet in depth, built long enough to house 500 and more birds.
 Moyer cites a number of advantages in the new style housing. Wall space is cut down, heat loss reduced, cleaning is easier and it is less trouble to move equipment.
