"Best Fed Nation"
"It is time to dispel the notion that America is the best fed nation," says Dr. Glen King, scientific director of the Nutritional Foundation. "It is because the food habits of many Americans are so poor that we don't make use of what we have." Dr. King points out that some of the results of poor food habits are lesions of the tongue, lips, gums, eyes, and skin, subnormal blood formation and goiter in 20 per cent to 40 per cent of high school children in many communities.
