Classified ads will be accepted to 9 a. m. publication day.

EDITORIAL

Too many people think that co-operation means the other fellow shakes the tree while you eat the fruit.

A real honest to goodness girl is one who makes you feel she is taking dinner with you and not from you.

About one-half of the annual production of the United States is laid in the four-month period from March through June. Now will someone tell us what keeps the price up during those months?

SING WHILE YOU DRIVE
Each motorist should practice singing while he or she is driving and here's our suggestion:

At 45 miles per hour sing: It Is Good For Us Lord To Be Here.

At 55 miles sing: Heaven Is My Home.

At 65 miles sing: Nearer My God To Thee.

At 75 miles sing: When The Roll Is Called Up Yonder, I'll Be There.

At 85 miles sing: When I've Gone The Last Mile of the Way.

At 95 miles sing: Lord I'm Coming Home.

FIGHTING WORDS

The fisherman who says that getting a big fish is a feat of skill and head work rather than plain luck, has an argument with the Post Office Department. A fishing derby with entrance fee and a prize for biggest fish caught, was judged by the Department to be a lottery and so advertising the derby through the mail was unlawful. It is a lottery, officials contend, because although it may take skill to land the fish, after you throw out that hook it is a matter of luck whether your hook or anybody's hook gets in the fish's mouth. Luck is a lottery. The decision may put a crimp in next summer's fishing stories. Any sportsman might just as well forget fancy flies and lowly worms and bait with a four-leaf clover or rabbit's foot.

THAT'S THE SPIRIT

Dayton, Ohio, has local educational problems, with many children of the Wright - Patterson Air Force Base there, also loss of taxable property taken over by the government for use of the military. As with many cities they can use more money to aid education. But, unlike some cities there is a spirit displayed in Dayton that comes in for praise in this day of "get it from the government in Washington". The Chamber of Commerce of Dayton, explains its determination not to support the proposed bill for federal aid to education thusly: "We still believe it is a local problem and our executive committee has agreed to start working with local authorities...so that proper facilities can be provided. We believe we should be consistent in meeting our local problems without federal aid and think this is a good place to start."

FOR SERVICE RENDERED

It used to be that a pension was a reward for long and faithful service to an occupation. A man retired in dignity into later life, his productive years over. When a bill became law that gave pensions to congressmen, it was or should have been with this purpose in mind. But, when a former congressman serves a penitentiary sentence for defrauding the government during office, receives his pension during prison sentence and later for his entire life, the pension plan is wrong. If another congressman is sentenced to prison on a charge of fraud in of-

HAPPENINGS — of — LONG AGO

20 Years Ago

The home of Grant Gerberich was entered and ransacked. Friday, Jan. 31st was dollar day in Mount Joy.
Breneman and Son have their store open every Friday until 8:00.
Saturday we had a foot of snow and the wind drifted many of the roads.
Federal agents seized a carload of beer at Manheim valued at \$6,000.
Markets: Eggs, 36 cents to 38 cents; butter 35 cents; Lard 11 1-2.
The Florin Foundry was closed Monday because of the extreme cold weather.
Martin Cope, the Rheems sweet corn manufacturer purchased the Harry L. Heisey property near Rheems.
Irvin Smith, butcher, slaughtered a bull, 1140 lbs., that yielded 750 lbs. of bologna besides other meat products.
Mrs. E. L. Nissly and Mrs. John G. Ebczle, accompanied the O. H. Shenk tour to Florida.
1929 football team held their banquet at Rotinsville with 58 present. George Brown was toastmaster.
A fire of unknown origin almost completely gutted the interior of Jno. P. Schock home at Marietta.
18th annual automobile show was held at the State Armory at Lancaster.
One of the finest herds of Ayrshire cattle in this section of the state was sold by J. E. Williams of Donegal Springs.
The annual meeting of the Mt. Joy Farm Products Co. was held at the Frank Street warehouse.
This community got a surprise view of the naval dirigible, Los Angeles on Tuesday.
expenses. So the farmer with abundant production will take less for it and the buyer won't suffer too much damage from lack of balance.

A RESOLUTION TO KEEP
Some New Year's resolutions are already broken, the same fate will befall others ere long. Whatever the resolutions, cutting out or down, improving or disapproving success in moral battle is difficult to achieve without strong fight and a stiff upper lip. In the case of alcohol, the facts are so evidently in favor of giving up or reducing quantity, that this resolution should be easier kept than broken.
With the startling increase in heavy drinking, the economic cost runs to a billion dollars a year, increases mental diseases of alcoholism, effects the human body. There is a long list of reasons why people drink. There are various classes of drinkers. There is the moderate drinker who feels it will give him an appetite before a meal who feels it gives a lift after a day of hard work, who wants to meet people, who thinks a drink is expected of him. Good fellowship accounts for much of the moderate drinker's imbibing. Lack of will power, troubled minds over health or business, just to forget, are other excuses. This is why so often, when one becomes an alcoholic, the drinking did not cause the condition, but the trouble led to excessive drinking.
When we spend about 5 percent of the national income on alcoholic beverages, amounting to more than seven and a half billion dollars, in 1945, the man who listed alcohol in his New Year's resolutions, is dealing with a wide spread, too popular, a problem.

FARMERS LOOKING AHEAD

The prospects for agricultural prices in this new year, may be discouraging to farmers. Secretary of Agriculture Brannon reports the farm prices that have been down one-fifth since the peak before the war, will probably decline another ten per cent in 1950. The farmer gets 49 cents of the consumer's dollar spent on food and this will likely be less in 1950. Retail prices are not declining nearly as fast or as far as farmer's prices. The consumer notices little change in the lowered farm prices since the reduction has come entirely at the farmer's

The Bulletin's Scrapbook!

Corn Fondue: 6 T butter or margarine, 4 T flour, 1 t salt, 4 t sugar, 1 1-2 c milk, 4 c canned or frozen corn, 1 c soft bread crumbs 4 eggs, separated. Melt butter or margarine in saucepan, stir in flour, salt and sugar. Add milk slowly and cook until thickened and smooth. Add corn, crumbs and egg yolks. Beat egg white stiff and fold in. Fill greased custard cups and set in pan of hot water. Bake in moderate oven 20-25 minutes. Yield: six servings.

In The Kitchen
Housewives use dry cereals as "stretchers" in many dishes. Use the rice cereal in any kind of cookie and puffed rice in chocolate chip cookies is especially good. Some women use corn flakes in meat loaf, some in hamburger patties.

A Neat Trick
If you want to play serious bridge at your party without interrupting the game to serve refreshments, put a table in the

BE SURE TO SAVE FUEL
When all windows in the house are fitted with storm sash, there is a 20 per cent saving in fuel and a corresponding increase in the life of the heating units, reports C. G. Burress, extension agricultural engineer of Pa. State College. Storm windows keep the heat inside the house where it belongs.
Pa. State agricultural engineers urge farmers to keep engines working during the winter. There are many labor saving jobs the power units can do.

I hear the Boss is going to help us out this winter with an **ELECTRIC POULTRY WATER WARMER!**

Yes, you can help your laying hens increase their egg production...as much as 20% with **electric poultry water warmers.**

One of the main reasons for a winter-time slump in egg production is an insufficient supply of drinking water for your flock. Hens won't drink cold water and can't drink water that is frozen. As a result, they can't produce at high levels at a time when egg prices are at their highest.

Electric poultry water warmers keep your flocks' drinking water at an even temperature of about 50 degrees all winter long. No fuss! No bother! No flames! No ashes to carry! A thermostatic control makes the whole job automatic and gives dependable operation at low cost. This winter get extra eggs and make extra profits!
