

Icy Highways Imperil Drivers Passengers Hurt

A car was completely destroyed by fire, several poles broken off and high tension wires torn down in an accident about 7:20 this morning...

As far as we could learn a Nash driven by George Witmer of Marietta, was the car that burned when it struck a pole knocked down by a Dodge that skidded on the ice after passing Witmer.

Two young lady passengers accompanying him were cut, one about the face, the other on the shoulder. They escaped from the burning car by kicking out the windshield.

The driver of the Dodge whose identity was not established, had not been located at this writing.

Anti-Trust Law's 'Killed Own Case' In Court, A&P Says

The anti-trust lawyers, previously defeated three times in different federal courts, "killed their own case" against The Great Atlantic and Pacific Tea Co. at Dallas, A and P will say in advertisements appearing in newspapers throughout the country this weekend.

But this did not end the 10 year campaign against A and P, according to the fourth advertisement in a series discussing previous unsuccessful attacks on the pioneer food chain by anti-trust lawyers.

The advertisement tells how in 1944 the Dallas case, based on allegations similar to those in the current suit to put A and P out of business, had been thrown out of court by Federal Judge Atwell.

On appeal, the ad says, the Circuit Court at New Orleans, allowed the anti-trust lawyers were not satisfied with decisions against them by three federal judges, the ad says. "They still wanted to destroy A and P."
