### FARMING IS A BUSINESS

The farm must be operated on business principles if it is to show a profit at the end of the year. In talking with Pennsylvania farmers, extension agricultural economists of Pa. State College see more and more evidence of efficient and business like methods.

### KEEP DRAINS WORKING

You can get an idea of how well your tile drainage system is working by observing the condition of the soil along the drain a few days after a heavy rain. When wet spots or holes appear, repair the line at once.

There is no better way to boost your business than by local newspaper advertising.
