### LANCASTER COUNTY OLD FIDDLERS HOLD JAMBOREE

The Third Annual Old Fiddlers Jamboree will be held on Sunday, September 17th at Rocky Springs Park, Lancaster, starting at 1:30 p.m.

The Old Fiddlers Jamboree is held to do honor to men that used their talent to provide enjoyment and entertainment to so many rural people of America.

Fiddlers and musical groups from Chester, Berks, York, Dauphin, Lebanon, Montgomery, Allegheny, Delaware and Schuylkill Counties have signified their intentions to attend this jamboree.

Any fiddler or musician is invited to attend and lend their musical talent to make this jamboree a big success.

### LETTERS GRANTED

Annie Derr, Landisville, executrix of the estate of William E. Derr, Jr., late of East Hempfield Township.

### TWO NOTED TEEN AGE MUSICIAN'S RECITAL

The Methodist Church School at Salunga will present Karl Eby Moyer, age 13, Hershey R.D. and Mary E. Weidman, age 15, Mannheim RD at a recital on the organ and marimba at the Methodist Church, Salunga, on Sunday, September 17 at 2 p.m.

Karl will demonstrate his skill on the Hammond electric organ and Mary on the marimba.

Everyone is welcome to this program.

### IN CHILDREN'S BIBLE WORK

Miss Betty Shelly, daughter of Mr. and Mrs. Roy Shelly, near Milton Grove will be leaving this Sunday for Atlantic City, where she will be working in cooperation with the Y.W.C.A. in Children's Bible Club work in Eastern and Southern New Jersey schools.

When in need of Printing, (anything) kindly remember the Bulletin

### Removing Stains

Sponge meat juice or gravy stains with cold or lukewarm water. Never use hot water; it sets the stain. If a grease spot remains, launder washable materials in warm soapy water. If the cloth is not washable, use a grease solvent.

### 1949 Auto Production

The 53 automobile manufacturers in the United States set a new production record in 1949 by turning out 6,250,000 cars, trucks, and buses. This tops the previous record, set in 1929, by almost a million vehicles.

### Crow Not So Bad

Although many farmers dislike crows because they destroy corn, these birds also help the farmer by eating many insect pests. Scientists have estimated that crows will eat 19 bushels of insects in one season on the average farm.

### He Was Right

One of the greatest foot specialists said that the human foot is a mechanism more delicately balanced and synchronized than the finest watch, but one which must absorb more punishment than any piece of machinery could take.

### Population in 1492

When Columbus arrived in 1492, the total Indian population of the North American continent was about 1,150,000. Of this number, 846,000 lived within the present boundaries of the United States.

### Modern 'Rail-Splitters'

To test new cutting tools, engineers whittle cast iron "logs" weighing half a ton into millions of iron chips. The cutting tools then are examined under a microscope for wear.

### Marine Insurance

The oldest form of insurance is marine insurance, traces of which are found in the sea regulations of ancient Greece and Rome.

### Cricket's Chirping

If you will count the chirps a cricket makes a minute, divide by 4 and add 40 the answer should be roughly the Fahrenheit temperature.

### Steel's Greatest Decade

During the 1940's about 800 million tons of steel were made. Steel employees were paid 17 billion dollars. The industry spent about 3.2 billion dollars for expansion.

### Grapefruit

Grapefruit production in the United States is now over seven times as great as it was in 1925-26. Over the same period, Texas production has increased by 125 times.

### Farm Show Schedules New Machinery, Ideas

Modern Devices Slated To Indicate Progress

New devices and machinery which are attracting the interest of farmers generally will be on view at the national farm show at Chicago starting November 26. The show will be held in the Chicago coliseum.

Prominent among new scientific farming aids to be shown will be the radically-different tractor-move irrigation systems. Consisting of long lines of pipe which can be hooked onto a tractor and moved to any section of a field, these sys-

Modern farm machinery, such as this "damper-downer" in use in a North Carolina tobacco field, will feature exhibits at the National Farm Show to be held in Chicago.

tems are said to be able to triple acreage yield. Water, nitrogen, fertilizer, DDT or 2,4-D can be put down through the sprinklers.

Vacuum unloaders, rotary hoes, heated tractor seats and grain testers are included among the hundreds of items for the modern farm and farm home which will be displayed, and visitors will see a wider range of implements and equipment than has ever before been assembled under one roof.

The special events are likewise shaping up into a program of unusual interest. The second annual invitational interstate 4-H poultry judging contest on November 29 will draw entries from at least 20 states, according to H. G. Ware, director of judging.

### Watch Footings

FOUNDATION UNDERMINED. NO FOOTING.

Farmers should always be on the alert to the danger of runoff water washing away footings under foundations, particularly on outbuildings where such caution, normally, might not be exercised. When runoff water washes away footings under foundations, the building settles.

### Reduced Grain Growing Brings Seed Hold Need

Prospects of reduced grain-growing, including corn and wheat in 1950 and following years should cause farmers to consider saving more grass and clover seed, says a statement from the college of agriculture, University of Kentucky. The seed, it was pointed out, will be needed for the sod crops that are to take the place of grain. The bureau of plant industry at Washington says that grain reduction will mean at least 25 per cent more grass and hay.

### Barren Land Reclaimable With Fertilizer, Know-how

Under proper management, worn-out land can be converted into grass legume pasture capable of carrying one cow and a calf to each one and one-half to two acres. Three acres of good permanent and supplementary pasture will carry a cow and calf through the year. Principal requirements are fertilizer, willingness to grow something beside the immediate money crops and a knowledge of livestock.

The folks who formerly lived on Easy Street are beginning to move to Uneasy Lane.
