First Nat'l Bank
(From page 1)

It has been seven years since any
depositor of an insured bank suf-
fered a loss, a new record for de-
positor safety in this Nation.

Each bank can take a great share
of the credit for the fact that nearly
seven years have passed since on
insured bank was placed in receiver-
ship. Improved bank management
coupled with diligent bank super-
vision, plus Federal deposit insur-
ance have brought to our nation an
era free from the specter of losses
to depositors and eliminated the
dread of and the devastating results
from bank runs.

This Corporation has made an
outstanding contribution to this
marvelous record, furthermore, has
accumulated a surplus of nearly
one and a half billion dollars as ad-
ditional protection against any and
all future contingencies which
might in any way affect the solven-
cy and stability of the dual bank-
ing system. In addition thereto, re-
cent legislation enacted at the re-
quest of the Directors of this Cor-
poration has materially simplified
the assessment reporting procedure
for all insured banks, likewise has
provided a substantial reduction in
the amount of their annual assess-
ment outlay.

We are proud of the accomplish-
ments and achievements of the Amer-
ican banking system.

**MOUNT JOY & E. LAMPETER
CLASH AT LANCASTER TONITE**
Lancaster County High School
basketball teams continue their
elimination playoffs Thursday nite
when Mount Joy High and East
Lampeter High clash at McCaskey
High, Lancaster in a contest to de-
termine the county's Class C rep-
resentative.

Mount Joy of Section 1 earned
the right to play in the final game
by scoring a 46-45 victory over
Section 2's West Lampeter. East
Lampeter of Section 3 drew a first
round bye.

'S FUNNY
How Folks
Store Stuff
In An Attic
When They
Can Cash In
With A WANT AD

Highway authorities through the
country have urged that farmers
have bright headlights and taillight
on farm machinery. Bright lights
will help you avoid accidents when
driving farm machinery on high-
ways at dusk or after dark this fall
and winter.

Safety engineers recommend
lights that can be seen at least from
a distance of 500 feet.

There is no better way to boost
your business than by local news-
paper advertising.

**F.F.A. Star Regional
Farmers Are Selected**

**Named for Achievements
In Vocational Agriculture**

Three Future Farmers of Amer-
ica members were named regional
star farmers for 1950 for outstand-
ing achievement in agriculture. Each
received checks for 500.

Budd Ott, son of Mr. and Mrs.
Elton Ott, Bangor,
Pa., was named
star farmer of the
North Atlantic re-
gion. His activities
include operating a
300-acre dairy farm
in partnership with
his parents. The
farm features 70
head of holstein of
which 44 are in
producing age.

Rolland E. Turnow, 20, another
regional winner, is the son of Mr.
and Mrs. Otto
Turnow, Curtice, O.
He is farming in
one-third partner-
ship with his father
and brother. They
operate two farms
totaling 812 acres
near Toledo. Major
crops are sugar
beets, tomatoes and
cucumbers. They
have a small herd of 12 dairy cattle
and raise some grain and feed crops.
Paul Crawford, 20 of Moore,
Utah, star farmer
of the Pacific re-
gion, operates a
large ranch in part-
nership with his
father, featuring the
production of high
quality registered
hereford cattle,
range beef cattle
and a few dairy
cows.

**Poultry Outlook Depends
On Government Decision**

What the government does—or
fails to do—to get increased meat
production next year will greatly in-
fluence incomes of poultry farmers.

This is the view taken by farm
officials at the annual agricultural-
outlook conference which was spon-
sored by the agriculture depart-
ment. A government price-support
program could be expected to boost
production of hogs above present
prospective levels.

The more pork there is, the lower
the prices of both meat and poultry
products are likely to be. They are
highly inter-changeable in the
American diet, and hence compete
for consumers' dollars.

The gross income of poultrymen
next year is likely to be somewhat
higher than this year, the depart-
ment said. But the net income—
turns left after payment of produc-
tion costs—will not rise as much as
gross income.

Fantastic Possibility

For a horse to have twins is not
unusual. But this appollo mare is
shown with twins, one of which is
a horse foal and the other (right)
a donkey foal. Don L. Steadman, Cres-
cent, Utah, owner of the mare, says
she was bred to a palomino stallion
at the same time that she occupied
a pasture with a small jackass
owned by Steadman. Mr. Steadman
says: "We suppose the stallion is the
father of the horse, and the
donkey is the father of the mule".
He calls them a "Morse" and a
"Hule". Dr. John MacLeod of
Cornell University, said that under
certain conditions such a birth is a
"fantastic possibility"

**Lights on Farm Machinery
Will Cut Down Accidents**

Highway authorities through the
country have urged that farmers
have bright headlights and taillight
on farm machinery. Bright lights
will help you avoid accidents when
driving farm machinery on high-
ways at dusk or after dark this fall
and winter.

Safety engineers recommend
lights that can be seen at least from
a distance of 500 feet.

There is no better way to boost
your business than by local news-
paper advertising.

**The lowest wholesale coffee price
reached in this country in modern
times—for green, that is, unroast-
ed, "Santos 4s," a basic representa-
tive quality—was 5 1/2 cents a
pound in midsummer, 1940. The
highest was in mid-November this
year, 5 1/2 cents. (The trade points
out that green coffee loses 16 1/2
per cent of its weight in roasting,
which is, of course, a factor in de-
termining consumer prices.)**

In Elizabethan Times
During the reign of Queen Eliza-
beth, the painters of signs some-
times encountered difficulties be-
cause the portraits they painted
of her majesty were not
