Clarence Stoll To Be Honored By Pa. State College

Two Lancaster County natives who rose to professional eminence will be among the first five alumni to be cited by the Pennsylvania State College for distinguished achievement.

President Milton H. Eisenhower said that the five will be honored at a special program to be held on the Penn State campus May 2nd. The honorees are:

Charles E. Denny, born in Lancaster City, and president of the Northern Pacific Railway until his retirement last December; Clarence G. Stoll, born in Mount Joy, president of Western Electric Co. until his retirement in 1947.

Stoll and Denny were nominated for the first distinguished achievement awards by the Board of Trustees of the college "because their personal lives, professional achievements, and community services best exemplify the objectives" of their alma mater.

When Clarence G. Stoll left Penn State in 1903, he went to work as a \$10-a-week student apprentice in the Chicago plant of the Western Electric Co. He has been with the company since, rising to the presidency in 1940.

He retired in 1947 after a distinguished career of 45 years. Under his leadership, Western Electric during World War II produced more than two billion dollars worth of electronic and communication equipment for the armed forces.

The Federal Government in 1946 presented a Medal of Merit to him for "exceptionally meritorious conduct on the performance of outstanding services to the United States." In the post-war period, he guided the most intensive program of production in the company's peacetime history.

A native of Mt. Joy, Stoll and his wife, the former Winifred Broughton, make their home in Gloucester, Va. He is a son of the late Mr. and Mrs. John H. Stoll, who for many years had charge of the freight and later the P. R. R. passenger depot here.

John H. Gantz Is The Outstanding Farmer For 1950

Cooperation and conservation were the keynotes as the Federated Sportsmen of Lancaster County made their first annual Outstanding Farmer-Sportsman award for 1950 to Mr. and Mrs. John H. Gantz of Mount Joy R2.

The award was made by Federated president Cayton B. Shank at the group's annual banquet attended by 270 sportsmen in the Ephrata American Legion Home.

This was the first award of its type given in the county in recognition of the aid and cooperation farmers give to sportsmen in the conservation program. Not only of game but of natural resources as well.

Gantz was chosen from scores of area farmers for his outstanding work in this field. He provided food and cover for game on his lands as an aid for hunters. For the fisherman, he raised trout in a pond on his property which were later distributed to county streams for anglers to enjoy their favorite sport.

In addition to these services to sportsmen, he purchased and planted 11,000 trees on his farm. All these conservation measures were accomplished with the full cooperation of the Mount Joy Sportsmen's Association.

'Soft Pretzel' Jno. Is Quite a Long Distance Walker

When you hear that familiar yell, S-o-o-o-f Pretzels, its none other than Johnny Blume, of Lancaster. But very few of you know that walking is his hobby. In the sale of pretzels, John has walked thousands of miles and the appended article reprinted from a Lancaster daily, is good evidence that he can hike with the best of them.

"Seven foot-weary contestants dragged into the final laps of the great, 72-hour walking match at Maennerchor Hall 53 years ago, as hundreds of onlookers cheered along their favorites. "At 10 p. m., the gun ending the strange event sounded, and the old-timer Graham was proclaimed the winner, with a total of 222 miles and 17 laps behind him, second honors, and money, went to the Lancaster favorite, a local boy known as 'The Gold Brick', otherwise John Blume. He had covered 211 miles and two laps."

Blume, the entry of C. A. Buckius and P. P. Diehl, of the Engle Bottle Works, had made a wonderful try to edge out Graham in the last hours, and for his effort was presented with an expensive cane and a bouquet of flowers, which he solemnly toted around with him on the final laps.

Graham won the first money of \$110.33, while Blume, was paid \$78.81 out of the proceeds. Each of the others who went all the way received shares of the money, and the Intelligence was moved to comment that there "was never a better nor more successful sporting event run off in Lancaster."

At both times the electric cash register at the American store, an interruption of service at Shatto's barber shop and the Dor-Jan Beauty parlor, plus the loss of radio and television in this vicinity was quite an inconvenience.

NOT STORMY AT SEA; THE GULLS ARE SIMPLY HUNGRY

Seagulls "acting like pigeons" were sighted the other day by Mrs. E. R. Noll, Lancaster R8, in a field near her new home on the Harrisburg pike.

The gulls, which are reportedly seen this far inland only when there are storms at sea, were dipping into the fields for food, Mrs. Noll reported. They later flew northward.

Last week the writer saw a flock of several hundred gulls swarming around two men who were plowing a field with tractors. The birds were feeding on earth worms and followed furrow after furrow.
