# The Local News Only 25c of the \$1 For The Past Week State Motor Tax

Very Briefly Told Back To Motorist Motor vehicle excise taxes collected by the Federal Government

from Pennsylvanians-\$92,764,000. Returned to Pennsylvania in the form of Federal Aid for Highways

-\$23,866,000. Difference between collections

from Pennsylvania's motorists and return to the State-\$68,898,000. For each dollar collected only 25 cents comes back. This is in sharp

contrast to Pennsylvania's system of spending 100 cents of the motorists' tax dollar for highway purposes exclusively.

These figures are contained in a report dated March 1951 received by the Pennsylvania Department of

Highways from the U. S. Bureau

The tax collections in the various Federal Motor vehicle excise classifications from Pennsylvania are revealed as follows:

Gasoline tax \$30,446,000; Lubricating oil \$2.520,000: motor vehicles and parts, automobiles and moburg, celebrated her 103rd birthday torcycles, \$38,620,000; trucks, buses Monday. She is the oldest lady in and trailers \$6,084,000; parts and accessories \$5.272.000: tires and tubes \$9,822,000; Total \$92,764,000.

E. L. Schmidt, Chief Engineer and C. H. Buckius, Assistant Chief arrested at Lancaster for giving a Engineer of the Pennsylvania Department of Highways, before various professional and technical groups have repeatedly pointed to the wide discrepancy between the amount taken from Pennsylvania motorists by Federal taxation and the much smaller sums returned.
