No Vacation from Safety!

This is the time of year when more cars are on the road—the time of year, also, when you drive more miles.

Youngsters are on vacation from school. So when you drive—WATCH OUT FOR CHILDREN.

In the City: There are playgrounds, but many children play in the streets or close to traffic. They should not, but they do, and you—the driver—must face the facts. You must be doubly alert lest you run down a child who, in the excitement of play, darts like a flash into the street.

In the Country: Boys and girls will ride bicycles along the

road, or walk to favorite fishing or swimming holes. Drive carefully.

Our children will enjoy a safe vacation if you—the driver—bear in mind that THERE IS NO VACATION FROM SAFETY!

PENNSYLVANIA'S STATE POLICE . . . DEPARTMENT OF REVENUE . . . GOVERNOR'S HIGHWAY SAFETY ADVISORY COMMITTEE . . . DEPARTMENT OF HIGHWAYS . . . DEPARTMENT OF PUBLIC INSTRUCTION—ALL ARE WORKING CEASELESSLY TO MAKE PENNSYLVANIA'S HIGHWAYS THE SAFEST IN THE NATION,

WILL YOU CO-OPERATE? BE ON THEIR SIDE—THE SAFE SIDE!

This message in the interest of highway safety is one of a series prepared and disseminated by the Pennsylvania Newspaper Publishers' Association and the Pennsylvania Department of Revenue

COMMONWEALTH OF PENNSYLVANIA

Handy Jim's
EXIN-UP TIPS
For Farm and Home

Try a Community Nest
NOW is the time for all good poultry raisers to install community nests for better production and cleaner eggs! Installation of community nests in place of the small box type will decrease the number of dirty and broken eggs by 50 per cent.

A community nest, like the one shown, should have one square foot of nesting space for every five hens. Two nests of this sort will accommodate 80 birds. There are several ways to use these community nests, which are covered with long-lasting, peck-proof Masonite Preadwood. They may be placed against the wall where the sloping roof will prevent roosting on top. Two may be placed back to back anywhere in the poultry house. In that case, use a reel over the ridge to prevent roosting.

The nest illustrated is four feet long, but it may be made any length desired. If nests are more than eight feet long, however, a partition should separate them into four or five-foot sections, with an entrance for each.

Have community nests in the house when pullets begin to lay. They will use them more readily when beginning to lay than after forming a habit of laying in partitioned nests.

For a free plan to construct this easily-made community nest, write Farm Service Bureau, 111 West Washington St., Chicago 2, Ill., and ask for AFB-204.
