EDITORIAL

Deep in the heart of every last one of us is the faint hope that somehow we will come into a pile of money, without sweat.

JUST KEEPS RISING
The President's White House and executive budget has been rising on this schedule: Pres. Roosevelt asked and got \$302,000 in 1944; \$339,000 in 1945. Pres. Truman got \$312,000 for 1946; \$383,000 in 1947; \$952,000 in 1948; \$969,000 in 1949; \$1,375,000 in 1950; \$1,585,000 in 1951. Now Republicans are questioning a 15% request for \$1,883,000.

If we are to meet the expenses of the defense program, we must provide employment for everybody, and we must be careful not to kill the goose that is laying the golden eggs. Business and industry must, of course, bear their respective shares of the burden, but men who draw salaries and wages and who compose by far the largest element of our free enterprise system must carry their share of the load.

GIRLS HERE'S A TIP
It isn't necessary for a girl to be a raging beauty to be popular. Many a plain girl is treking places with a handsome beau. It is because she has something, a charm that one cannot define, a delightful personality. The time has come when good nature, sparkling humor and keen intelligence are important elements in the beauty picture.

A girl has to be interesting these days when pretty-pretties are a dime a dozen.

Several weeks ago we published an editorial in these columns in which we cited a Lancaster motorist as being a menace on the highways. In addition we said that that motorist injured anyone it should be charged against the authorities who permit him to drive.

New we want to repeat that assertion. A man from Manheim was arrested the ninth time within a year, for violating the motor laws.

Just why anyone permits a driver like any of the above to operate a motor car on our highways is beyond us.

OUR GREATEST DANGER

Herbert Hoover's most recent major address dealt with the subject of honor in public life. In the course of it, the ex-President said this: "Dishonor in public life has a double poison. When people are dishonorable in private business, they injure only those with whom they deal or their own chances in the next world. But when there is a lack of honor in government, the morals of the people are poisoned. Our strength is not in politics, prices, or production, or price controls. Our strength lies in spiritual concepts. It lies in public sensitiveness to evil.

The issue is decency in public life against indecency.

Our greatest danger is not from invasion by foreign armies. Our dangers are that we may commit suicide from within our complacency with evil. Or by public tolerance of scandalous behavior. Or by cynical acceptance of dishonor. These evils have defeated nations many times in human history.

The redemption of mankind by America will depend upon our ability to cope with these evils right here at home.

Remember that next time you read of five-percenters, milk cost and deep-freeze gifts to government officials and employees, sordid tie-tips between politicians and gamblers, and morally indefensible activities within the RFC and other government agencies. These things are terrible symbols of mor-

SALUNGA

Mrs. Robert Bronson of Eustus, Florida was the weekend guest of the H. H. Hiestand family.

Mrs. Richard Bryson, daughter of Mr. and Mrs. Hiestand and Mrs. Bronson left New York on the S. S. Constitutional for Naples, Italy, where they will join their husbands. They plan to tour France, Germany, Switzerland, Spain and England, returning to the states February 15, 1952.

In addition to her husband, with whom she celebrated her 58th wedding anniversary last June 6, she is survived by a daughter, Caroline, wife of Samuel B. Stayer, Millersville; a grandson, and a brother, Dr. E. W. Garber, of this place.

Funeral services were held from her late home Tuesday afternoon with further services at St. Mark's Evangelical Church and interment in Kraybill's Mennonite Church in East Donegal.

Architect Named

(From page 1)
the engineering firm to complete the preliminary plans which are to be sent to the State Department of Public Instruction for approval, whether coal will be used for heating purposes in the proposed school.

However, coal was abandoned as fuel and oil or gas substituted with the result that George Morris, of Maytown, was authorized to check the cost of both gas and oil as a fuel and report at the next meeting.

The board announced that it will be necessary to pay one-third of the initial cost of \$30,000 for the architect's work and the \$10,000 was divided among the three districts on this basis: East Donegal Twp., \$4,700; Mount Joy, \$3,744 and Marietta, \$1,556. Paul Portner, of Marietta, presided at the session.

THAT CHAP DESERVES IT
It isn't so bad to catch a trucker with a slight overload but Robert D. Jackson, of Baltimore, went a bit too far. When arrested at Lancaster he had nearly nine and one-half tons overload—18,770 lbs.
