Baers Awarded \$22,000 Damages Mother Died At In Court Tuesday Detroit Aged 88

The appointed viewers thought awarded the owners \$22,000.

Frank N. and Anna M. Baer, of near Salunga, were given a \$22,000 Michigan, this morning. verdict by a Common Pleas Court jury at Lancaster on Tuesday in a land damage suit.

The verdict was for damages incurred to their East Hempfield township farm by the Commonwealth in constructing the new Harrisburg Pike in March, 1948.

The case got to court thru an appeal of the Commonwealth, which protested the \$17,500 awarded the Bears by court appointed land viewers in September.

The land viewers had been appointed when the Beers and the Commonwealth could not agree on the extent of the damages to the 94-acre farm which was divided by the new road

Henry F. Huth, county engineer, testified in Court that 10.79 acres were taken by the State Highways Department from the farm in the Pike's construction.

Mr. Baer said in Court that his property had been worth \$50,000 prior to the pike's construction, and was worth \$28,000 afterward. or underwent a loss of \$22,000. It was this amount that the jury later decided was due the Baers.

However, others were called upon during the trial to give their estimates of the loss incurred to the Mount Joy High property. They went like this: Bowers, cashier of the First National Bank, Landisville, \$47,000 before
